and much more ...

Well, ATCO Members, we are starting into our second year. Most of you have been satisfied with what we are doing. Some are not, but they are in the 5% minority and I'll not worry about them. We will try and bring you good and interesting issues, but limited to 68 pages a month. This is going to cause some disappointment because some will not get their ads in early enough to meet the 68 pages.

When this happens I'll give the late arrivals top priority for up-front space in the next issue. There will be times when we will have bigger issues, but this was not the month for it. With renewals, membership cards, getting the membership list worked on, etc., I've had enough work for this month. I WILL ALWAYS DO MY BEST!

IMPORTANT!

MEMBERSHIP APPLICATION CARDS - - THESE CARDS WERE ENTRUSTED TO YOU TO BE FILLED OUT AND RETURNED. BECAUSE SOME OF YOU FAILED TO RETURN THEM OUR MEMBERSHIP LIST HAS BEEN BROUGHT TO A STANDSTILL!!!!

EVEN SOME OF THE MEMBERS WHO HAD PAID THEIR 1983 DUES HAVE NOT RETURNED THEM. PLEASE!!!! RETURN THE CARDS WITH THE INFORMATION REQUESTED SO THAT WE CAN PROCEED WITH THE MEMBERSHIP LIST!!!!!

ALSO, THESE CARDS WILL BE OUR NEW ACCOUNTING SYSTEM AS WELL AS OUR TOTAL INFORMATION SOURCE ON MEMBERS. THEY ARE IMPORTANT. IF YOU HAVE LOST YOUR CARD, PLEASE REQUEST ANOTHER ONE.

As you can see we have a 68 pager this issue. After checking with the post office - weight, etc. we find that we can mail a 68 page issue as reasonable as a 60 page issue. To get all the ads in we had to pull a couple articles that we did not want to. We have more ads which will be in the next issue due to lack of room in this issue.

MEMBERSHIP IN ATCO ....$15.00 (11 issues)

NEW ADVERTISING RATES:

Full page, camera ready (use 8½ x 11 paper-the camera does the reduction)	$15.00
Full page if we type for you	$22.50
Half Page, Camera Ready	$ 7.50
Half Page, if we type	$11.25
Quarter Page, Camera Ready	$ 4.00
Quarter Page, if we type	$ 6.00

NOTE: LIMIT - 4 pages of advertising per issue per member!!! This allows everyone a chance for room for his or her ad in each issue.

CLOSING DATE FOR ALL ADS IS WHEN WE REACH 68 PAGES! WE GO TO THE PRINTERS ON THE 20TH OF EACH MONTH

Dear Bill: In answer to the Odd and Unusual tokens in the January issue - "GOOD FOR 1 FREE SOIL SAMPLE", this token was offered to farmers for a free soil sample. Farmers have their soil tested for various things to determine the right type of fertilizers to add to stimulate various crops. They like to know the exact quantity of chemicals to put into their fields - not too much or too little - and thereby spend the right amount of money to aid getting the best yield. You should have known that one Bill.

Bob Lubetkin - -

Editor's Note: You're right, I should have known that one. Guess I was not thinking.

Dear Bill: The degree of response of the membership in both advertising and articles indicates that ATCO has grasped and fulfilled the needs of the most involved segment of the current numbers of the active numismatic community. The development of a wide-range of catalogues with appropriate historical background is bringing to popular notice the true value of the role played by exonumia in American history. The different perspectives developed by cataloguers who are studying the tokens by state, occupation, or manufacturer-retailer have provided insights into the scope of business and the interlinking of separate economies within our own general national economy. This has been accomplished without eliminating the character and flavor of local original history.

ATCO's stimulus in the marketplace, I believe, will accellerate this process and perhaps by the end of this decade most of American Exonumia will have been properly classified thereby providing the collector with stable, predictable market from which to build his collection.

Keep up the good work. It's a lot of grief to do it, but it's a real contribution.

INDIAN TRADE TOKENS OF ARIZONA

By HARLEY W. RHODEHAMEL

With his revised ARIZONA TOKENS (1982), Hal Birt has made a significant contribution for those of us who collect Arizona tokens. Messrs. Spooner and Temarantz have developed an Arizona Town Rarity Scale (ATCO, Vol. 1, No. 10, p. 8-11) based on Birt's publication. This scale will be useful.

Also, using Birt as a source, I have listed those tokens used primarily or at least to an extent in the Indian Trade. I have added one token--that of John Ghiotto, Yuma-- to Birt's designation of Indian traders. Ghiotto had a license for Indian trading and it can be assumed that his tokens, at least to some extent, were used in that trade.

Below is a list of 79 Arizona tokens currently assumed to have been used in the Indian trade. Others, in time, will probably be so designated. Unlisted are varieties; for example, the State Line Trading Company token is found with and without a town designation.

TOKEN HUNTING IN COCHISE COUNTY, ARIZONA'S HISTORIC CORNER

By Bob Temarantz ATCO #57

For Arizona token collectors who want to see a lot in a day or two of easy driving, Cochise County of South-eastern Arizona is the perfect place to go. There is more history, romance, mystery and beauty to be found here than in any place in Arizona.

There are ghost towns, abandoned forts, played-out mines to find your tokens among the granite columns of the Chiricahuas and rolling hills of the Sulphur Springs Valley.

The famous Apache Chiefs, Cochise and Geronimo, schemed here a hundred years ago. Doc Holliday and Johnny Ringo fought and gambled here. Wyatt Earp rode shotgun on the Overland Stage on the road from Tombstone to Benson, the same road that you drive on hunting tokens. The stories of Cochise County are the stuff that Western legend is made of. Mexican smugglers, gunfighters, stage robbers, silver strikes, Indian attacks, frontier forts and buried treasure (aside from tokens).

Its all less than an hour or two by car from Tucson, and if you plan to attend either of Tucson's big coin shows in January and February, it is a tour highly recommended to hunt tokens.

The little town of Benson is the starting off place for a tour of the San Pedro Valley. Benson is a railroad town and has been since its founding. It was Benson in the 1880's that stagecoaches loaded with silver from the mines of Tombstone, arrived almost daily to have their cargo shipped by rail to California. Not too far south of Benson on Arizona Highway 80 is the spot where one of these stages was robbed. On March 15, 188[illegible], three masked men stopped the stage and demanded the silver ore it was carrying. In the fight that resulted, the stage driver, Bud Philpot and a passenger were killed. Bob Paul, the shotgun messenger, managed to drive the stage in safety to Benson. The robbery was the beginning of the feud between the Earps and the outlaws of Cochise County. The "outlaws", led by Ike Clarton, started the rumour that Doc Holliday (a close friend of the Earps) was one of the three highwaymen. Although this was never proven, it planted the seeds that were to grow into the most famous gunbattle in western history. Tombstone lies on a sloping plateau in front of the Tombstone Hills. The economy is mainly on the attraction of touriests. It may be a bit over commercialized, but the sense of Tombstone's historical value is strong. The wind swept Boot Hill contians the remains of the Clantons and McLowry's who died in the O.K. Corral gunfight. But there is also the body of Lester Moore who's tombstone reads "Here lies Lester Moore three slugs from a 44 - No Les, No More."

The Crystal Palace Saloon can conjure visions of dry cowboys stopping in for a drink and mixing it up with outlaws, gamblers and painted women the likes of Big Belinda, [illegible] pounds of passion. A hundred years ago Tombstone was a boom town of over 15,000 persons. The silver mines in the hills behind the town were discovered by a U.S. Cavalry scout by the name of Ed Schieffelin of Fort Huachuca.

One of his friends warned him "Ed, you'll find nothin' in them hills but your tombstone". But when Schieffelin found his mine, he called it "The Tombstone". During the 1880's, millions of dollars worth of silver were taken from the various mines in the Tombstone Hills until the 1890's when miners struck underground water and the mines were flooded. It was only a few years before the town began to die as the population dwindled to less than a 1,000 people. But now the tourist trade has revived Tombstone, as the legend of Tombstone keeps the town alive.

About an hour south of Tombstone on State 80 is the town of Bisbee, located in a valley of the Mule Mountains at more than [illegible]00 feet. The town sprang up in the 18[illegible]'s when copper was discovered there, and it continued until a few years ago when the huge Lavender Pit Mine was shut down. Today Bisbee has about 10,000 people, mostly artists, sculptors and craftsmen. A tour of the towns winding hilly streets may yield tokens of Bisbee as this was the most proficient town to issue tokens. Many of the old establishments are galleries, craft shops and other businesses ripe for tokens. Bisbee doesn't have the romantic past that Tombstone does, but there was one infamous chapter in its history, the 1917 strike. In that year, copper miners, many of them Irish and Chinese immigrants, attempting to form a union and strike for better wages and working conditions. The strike was broken by force and many of the miners were shipped out of town in railroad box cars into southern New Mexico. Many miners never returned to Bisbee nor were they ever heard from again as they were left to fend for themselves in the New Mexico desert.

From Bisbee, you can take State 92 past the "pit" and south from Bisbee to the little border town of Naco. Naco isn't a border tourist town like Nogales or Tijuana, but an old town with excellent cafes. Highway 92 runs west from Naco across the bottom of the San Pedro Valley. The view from the foothills of the Mules is worth the trip as you drive toward the Huachuca Mountains where the highway turns north toward Arizona's new boom town of Sierra Vista. It is a thriving town of over 25,000 growing around the Fort Huachuca U.S. Army Base. The same fort that Ed Schieffelin rode away from to find his "Tombstone" mine. Once a dusty calvary outpost, Fort Huachuca is an important center of communications, electronics, and intelligence. Permission is granted if you wish to metal detect on the base.

If you are ever in the area, this trip is highly recommended!!!

A UNIQUE NORTH DAKOTA TOKEN

By Bob Clark ATCO #67

The old Painted Woods Hotel and Pavilion stood on the shore of Painted Woods Lake in McLean County for about 20 years. The town of Painted Woods, North Dakota was in Burleigh County.

The large lake on the Missouri River bottom was known to the Indians as Broken Axe Lake. Early trappers and the Fur Traders renamed it Medicine Lodge Lake and the later settlers as Painted Woods Lake. The later name was attributed both to the colors of the woods after the fall frosts, and to the legends of the Indians of various tribes who dabbed war paint on the trees in gestures of warning and bravado.

One of the first white men to come to the area to stay was Joseph Henry Taylor, an early McLean County printer, author and naturalist who came there in 1869. The Lake soon became a favorite picnic site for the homesteaders from the nearby townships. A local homesteader, James C. Every, soon realized the value of the lake and bought some choice lake front land and in 1909 built the combination dance pavilion and hotel. Every constructed a swimming dock and purchased a fleet of row boats which he rented out to the visitors to the lake.

About 1912, Every saw the need for a confectionery store which he built at one end of the pavilion. At this time a Mr. Bailey became a partner to the concession stand. Bailey was running a Billiard Parlor and Restaurant with a Mr. Lower in Wilton. Thus the Every & Bailey Co. came into being and a token was used with this business between 1912 and 1923. Every sold his farm and the lake property to John Anderson of Washburn, N.D.

The Wilton news of January 14, 1927 reported the dance pavilion and hotel burned to the ground last Friday night.

So, on a dark night in January, 1927 the end came to a once lively pavilion that had provided so much entertainment to the people of the area over a 20 year period. All that remains are a few old photos and this token to remind people that it even existed.

THOSE CONTROVERSIAL WHITE BEAR MEMORIAL BEACH TOKENS

BY CAL WOODS

Sometime in the late 1960's and early 1970's I accumulated four tokens that I did not understand, but they seemed to be of a local nature. I finally took them to a local token club meeting and showed them around to the members who had not seen them before. One member believed them to be parking tokens, another a bath house token and a third member believed them to be fantasie tokens.

I was pretty sure that they had something to do with White Bear Lake, Minnesota, a lake and town about 20 miles north of St. Paul. I decided to search and it seemed that the Chamber of Commerce might be a place to start. I found that White Bear Lake had a Chamber of Commerce so I gave them a call. A nice lady answered and remembered this beach and the story behind the tokens.

In early 1950 a group of residents living near and on White Bear Lake formed a civic committee to provide a place for their young children to swim in safety. They obtained permission to use a beach on the lake between 10th and 11th and Lake Avenue, and had a section of it fenced off. To help defray the cost of fencing and providing some summer supervision they decided to have tokens made as passes. The young children and toddlers could be left there for a few hours in safety to dig sand castles and splash around in the shallows while being kept out of the danger of the deep water until picked up by their parents. The committee decided to charge $1.00 for the pass (token) which was to be good for all summer. Any child with a pass could come and enjoy the sun and warm water inside the fence.

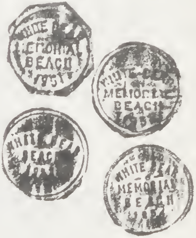
Same 1952 25mm Round Alum.

Same 1954 25mm Round Brass

Same 1957 25mm Round Alum.



THERE IS GOOD REASON TO BELIEVE THAT TOKENS EXISTED FOR 1953, 1955 and 1956. And, any having a maverick and wondered where it was from now knows the story behind the White Bear Memorial Beach tokens.

TOKENS OR COINS - THE CURIOUS STATUS OF NOVA SCOTIA'S EARLY ISSUES

by Paul Nadin-Davis

Several of the provinces which today constitute Canada issued coins and tokens before Confederation, with the sanction of the appropriate colonial authorities. Perhaps the best known of these series is that of Newfoundland, which ran in various denominations from 1865 to 1947, and today is widely sought by collectors of British Commonwealth series and Canadian collectors. One of the most curious, however, is the early issue by the colonial government of Nova Scotia, today the easternmost mainland province of Canada.

As in much of British North America, many rackets and schemes involving the use of underweight copper tokens had threatened the economy of Nova Scotia in the early 1800s. The solution sought by the authorities was to use the issue of an official coinage to quiet the demand for small change, and to outlaw the issue of private tokens. Outlawry for the private issues was accomplished in 1817, and six years later, in 1823, the first government coinage was released. As Nova Scotia was at that time under colonial rule, permission was needed from the British government. As this was given, there is no doubt of the legal tender status of the early issues - this wasno longer a central coinage from the British authorities, but did have a direct chain of authority therefrom. Therefore, it would seem logical to regard the pieces as regular coins.

The 1823 issue consisted only of 400,000 halfpennies, the British units of coinage thus being chosen as the base for the new currency. Later, in 1832, a further issue of pennies and halfpennies was put out, curiously this time bearing the bust of a King, George IV, who had died two years earlier. Apparently this curiosity arose from the copying of the design from an 1824 issue, during the life of George IV. Under Queen Victoria there were further issues, of 1840, 1843 and 1856.

There are many fascinating aspects of these series, arising from die varieties, counterfeiting, and in particular a die-sinker's error in dating some counterfeit pieces 1382! But of particular interest is the legend used for the early coinage.

As can hopefully be seen from the above photograph (Lepczyk sale of the Buckley Collection, November 1981, lot 290), the reverse legend is "One Penny Token". A similar legend, with "Halfpenny", is used for the halfpennies. Why did the government use the term "token" for its official issues? Was it, perhaps, that the people of Nova Scotia were more likely to accept pieces thus designated on the basis of long usage, or were the local authorities not prepared to give the piece claims to being a "coin", and thus competing with, or challenging the authority of, the British pieces still having legal tender status in the province? Whatever the reason, the designation causes some problems of classification, though Krause and Mishler in their Standard Catalog of World Coins have consistently listed these items as coins. Nevertheless, Canadian practice is somewhat different: most collectors of Canadian and provincial coinage do not acquire these pieces for their collections, but do add the later Nova Scotia coinage of 1861, 1862 and 1864, this designated simply as "one cent" and so on. The penny and half penny pieces are, of course, not "decimal", which may account for this practice by the "decimal collector"; but what of the token collector? Most collectors of Canadian tokens will be found to have these early "coins" in their collections of pre-confederation material!

Curiously, the early Nova Scotia pennies and halfpennies are missing from many Commonwealth type collections also, though most are not particularly scarce. The reason is that while these items are listed as coins in standard references such as Krause-Mishler, Canadian dealers generally regard them as tokens and either do not list them or list them as tokens. Consequently, there is not infrequently a decreased chance of the Commonwealth collector outside Canada putting the two issues together and acquiring the "coin" from "token" listings.

We've set out the problem, but failed to provide an answer. Perhaps precedent would be of help, if there is any. It is easy to think of illegal issues of revolutionary governments, some of which are designated tokens, some coins. Some today are regarded largely as fantasy pieces, such as the Hutt River issues of Australia. But what of an issue bearing all the characteristics of a regular provincial coinage, but thought by the subordinate government issuing it to be a token? What do you think?

The Rare Saloon Token of Alexander Pihl, Sitka, Alaska

The name on the 10¢ brass token listed in the Benice Alaska token catalog, page 150, Sitka: 1-8.A, is mis-spelled. After much research, and thanks to Kaye Dethridge of Sitka, Alaska, positive attribution of the token, and correct spelling of the name have been made. The errors found in spelling this name during research are as follows....

A. Piehl:
Benice Alaska token catalog, page 150.

Alexander Peihle:
"True West Magazine", Oct. 1976, page 31.

Piehle Passage:
Alaska Place Names, page 754.

Alex Piehl:
Alaska-Yukon Directory, 1911-1912, page 737.. Piehl listed as having a saloon at Sitka, Alaska.

I have the 10¢ brass token listed in the Benice catalog. The token, plus a letter written by Alex Pihl dated July 16.'07, were found in Sitka, Alaska during 1967. Note the signature on the letter, and the spelling of the name on the token...

The 2 listings below were found by Kaye Dethridge, both taken from the,"Report of The Governor of Alaska", Sept. 30, 1901-pages 137,138.

W. E. Nickell 432 1/2 So. Franklin St. Juneau, Alaska 99801

Mr. Sing Lee,
Chichagoff Id Alaska.

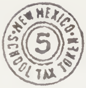
Kind Friend:

Tell the boys, am much obliged for checks received. For Charlie Peterson, paid Mills $10.00 for two trips, $15 for doctor, $25 to Hirst, $37 for myself, am sending $20 in letter to him + have a balance of $48.00 to his credit. For Fred Johnson took out $14.00 that you (Sing) owed me, and have a balance of $85 to his credit.

My regards to all the boys, and I remain

Yours respectfully,
Alex Pihl

SALES TAX TOKEN TOPS $100



On November 30, 1982 an uncirculated New Mexico Five Mills black fibre School Tax Token sold at mail auction for $101.00, $12.00 over the next highest bid of $88.80. This is the first time that any Sales Tax related item has sold at that level. The auction was held by Jerry F. Schimmel of San Francisco, widely known author in the field of Sales Tokens. The buyer was Mr. Tim Davenport of Corvallis, Oregon. In a previous sale held by Paul Cunningham of Tecumseh, Michigan, a similar piece sold for $72.00

The token is listed as NM-6 in the book, U.S. STATE-ISSUED SALES TAX TOKENS, by Mr. Schimmel and published in 1980. In that book the piece is priced at $9.00. In a 1977 work, CHITS, CHISLERS AND FUNNY MONEY, Michael G. Pfefferkorn and Mr. Schimmel, the piece is listed as NM#12 and priced at $15.00

Other items selling unexpectedly well were a rare Denver Woolworth's private paper piece (CCFM-CO#17) at $65.00 and a unique pattern Missouri state issue (CCFM-MO#2) at $53.00. Yet another fibre piece sold at $33.00, the Alabama 1 Mill bright blue token AL-11 (CCFM-AL#17) in uncirculated condition.

Collectors should keep in mind that most Sales Tax Tokens, especially those in circulated condition, are abundantly common and worth at best only a few cents each. States issuing the tokens put millions into circulation, and many were never redeemed. Collectors should also be wary about paying more than 50¢ per token unless they have taken the time to familiarize themselves with the current literature. On the other hand the abundance of these tokens makes them quite accesible and easy to collect. Varieties of these tokens run into the thousands.

In Mr. Schimmel's forthcoming January list more rare Sales Tax pieces will be offered including another of the above, a previously unknown "I.D. CAFE, STATE SALES TAX 1/3¢" and the Kansas Cessna 26¢ token in steel. Other exonumia for sale will be several scarce pre-Israel Palestine pieces, New Mexico Indian Traders tokens, Nevada merchants' tokens, Coal Mine Scrip in the R-4 to R-7 range and a good representation of tokens from Costa Rica, Chile, Guatemala and Europe.

Mr. Schimmel's book, U.S. STATE-ISSUED SALES TAX TOKENS, is available for $3.75 with his autograph, the only source for the latter, at P.O. Box 40888, San Francisco CA 94140. The other work mentioned is out-of-print.

Persons wishing to receive a complimentary copy of Mr. Schimmel's next lists should simply drop him a line and include their names and addresses. Copies of List #2 are available with prices realized for $1.00.

Dear Bill: I'm sure it's not true but just in case it is....you can't possibly be thinking of re-assigning ATCO membership #'s. If a member "retires", then his number should not be re-issued. I'm quite sure the vast majority of ATCO members feel the same.

Alan Weinberg - -

Editor's Note: Dear Alan. I don't know how such rumors get started. No, that is not our intent. If a member in standing dies, or retires from the collecting field his # will be held open in honor of he or she!!!! PERIOD! However, we did have four curiosity seekers who just wanted to see what ATCO was all about. They did not renew their membership. There is no sense to having a false and high membership that does not actually exist. Such numbers will be re-assigned to active members.

Dear Bill:

Off to a good start in '83. Had a token meeting and New Years party combination. Picked up some nice tokens, but some of the weaker collectors brought their wives and that cut into some of the trading. The wives kept pulling their husbands away from the swap sessions. The only thing I can say is, it was just a total lack of control.

Bill, why don't you appoint a committee to check into the possibility of having an ATCO convention this year. I think it would be quite a turnout if it was held in a central area of the U.S. For example Kansas City - that's a location that could pull from all areas.(Quite a trip for some but beats coast to coast) just a thought.

Keep on trucking,

Binky

MANY THANKS!!!!

TERRITORIALS, POST TRADERS AND ALASKA

I'm a serious collector of Territorial tokens from Wyoming (W.T.), the Dakotas (D.T.), Montana (M.T.), Arizona (A.T.), Washington (W.T.) and most other Territorials ... except for Oklahoma. I will pay $200.00 and up for ANY Territorial token

AND .... UP TO $2,600.00 FOR THE RAREST OF THE RARE!!!!!!

☞

Also wanted: Post Traders, Saloon tokens (including saloon "mavericks" ... send 'em on ... I'll pay good money for saloon mavericks), early classic style military tokens, and rare Alaska tokens - particularly the gold nugget tokens. I'm quite willing and able to pay TOP market price. Contact me.

I also avidly collect mavericks and will pay good prices for your accumulations of nice old mavericks ... one or hundreds of 'em. I'm not afraid to pay $5, $10 or much more for a maverick that has a nice style and appeals to me.

Note: I will also trade to obtain good tokens for those few of you that don't place any value on cash money.

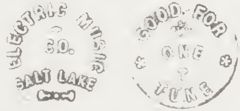
WANTED

A Tune for a Token



ELECTRIC MUSIC CO. SALT LAKE
GOOD FOR ONE TUNE

GOOD FOR A TUNE TOKENS WANTED - - - - - -

I AM AN AVID COLLECTOR OF NICKEL-SIZE, PRE 1920 TOKENS FROM ANYWHERE IN THE UNITED STATES, MARKED OR UNMARKED AS TO LOCATION WITH INSCRIPTIONS RELATING TO PIANOS OR MUSIC, SUCH AS "GOOD FOR A TUNE" FOR THE PIANO OR SOMETHING SIMILAR. I DESCRIBED MANY VARIETIES IN MY "A TUNE FOR A TOKEN" MONOGRAPH PUBLISHED SIX YEARS AGO. I CAN PARTICULARLY USE ANY ITEMS NOT DESCRIBED IN THIS REFERENCE (MANY VARIETIES HAVE COME TO LIGHT SINCE THEN).

SEND WHAT YOU CAN TOGETHER WITH THE PRICE DESIRED!!!!

ALSO WANT: **NEW HAMPSHIRE**

FOR MY COLLECTION: I DESIRE TO PURCHASE ANY AND ALL PRE-1920 TOKENS RELATING TO NEW HAMPSHIRE. I AM ALSO INTERESTED IN MEDALS OF NEW HAMPSHIRE, OBSOLETE PAPER MONEY FROM THE STATE, AND OTHER NUMISMATIC MATERIAL. MY COLLECTION OF THESE IS JUST BEGINNING, SO WHATEVER YOU SEND, I PROBABLY WILL BE ABLE TO USE IT! UNFORTUNATELY, I HAVE NOT PURCHASED A TRADING STOCK OF TOKENS, SO I WOULD PREFER IF YOU COULD PRICE WHAT YOU HAVE WHEN YOU OFFER IT TO ME.

THANKS FOR YOUR INTEREST. I LOOK FORWARD TO HEARING FROM YOU BY MAIL!!!!!

RE: TRADE DOLLARS

Dear Customer:

The 1983 Trade Dollars have already started to appear on the market, and it shows that this coming year should be a very good one for Trade Dollar collectors.

In order to help the collectors ensure they will receive all their 1983 Trade Dollars, we offer the following suggestion: "Automatic" mailing of the Trade Dollars as per customer's authorization.

The customer can choose one of the three methods of payment, and one or more methods of purchase.

Price for the $1.00 issues will be $1.60 each, in shipment of 5 or more. Price for the $2.00 issues will be $3.50 each.

A small charge will also be made for postage.

If you are interested in participating, please provide all the necessary information on the attached form, and return one copy to this office.

Sincerely,

Jim Quinn

PA TOKENS FOR TRADE! PA TOKENS FOR TRADE! PA TOKENS FOR TRADE!

Most of these tokens are from eastern Pennsylvania. I will trade for any tokens from western PA or eastern OH. I am especially interested in Independent Brewery tokens of the Pittsburgh area and savings checks for banks from OH and PA. Most are octangonal and aluminum. They were mainly issued around 1917-1918. I have a few duplicate checks from Ambridge, PA and will trade for towns I need (for example: Carnegie, Etna, and Meadville, PA). I can also use rubbings for I plan to make a listing of these tokens for future publication in ATCO.

I also collect tokens stuck by Jas. Murdock of Cinti. OH, H. Rice of Dayton OH, H. Miller of Louisville KY, and PA tokens like Miller 595 struck by F. Koehler of Baltimore MD. Some Trans. Tokens needed: OH- 270A,785A,785B. PA- 25B,65B,65E,65F,65G,65H,65I,65J,65L,65M,65O,65P,340A,340B,860A.

NEW BOOK NEW BOOK NEW BOOK

The California Association of Token Collectors has published their bimonthly TOKEN TOPICS newsletter since 1966. Now, highlights of the first 100 issues have been reprinted in convenient book form, "The Best of Token Topics," edited and published by current CATC President Stephen P Alpert.

A wealth of information on exonumia is contained in this illustrated book. One valuable reference is a large in-depth listing of Uncle Sam Play Money coins by dates, mintmarks, and die varieties, with background data. Other features cover amusement arcade tokens, transportation tokens, Las Vegas tokens, Sambo wooden tokens, and many California tokens and medals. In addition, short articles discuss mavericks, foreign tokens, ice vending tokens, gambling ships, and many other topics.

Everyone should find interesting the token hunting tales and anecdotes. Read about the lucky finds of Elaine Willahan and Andy Crusen; Steve Alpert's postal theft case; and if you've never read John Barnes' accounts of his token hunting travels in New England and Europe, you're in for a treat. Also included in the book are newspaper clippings and cartoons, first reports of new tokens in use, and club news, activity, and history.

Previously all this information was accessible only to the lucky few who possess a complete set of original issues of Token Topics. Now it's available in this 90 page soft cover book, priced at $7.00 postpaid. Order from Stephen P. Alpert, P.O. Box 66331, Los Angeles, Calif. 90066.

Membership in the CATC is open to all interested collectors. Dues are $3.00 per year. (It's OK to send dues to me when you order the above book.)

MAIL BID SALES MAIL BID SALES

My quarterly token and medal mail bid sales are going stronger than ever, with about 2,000 lots per sale. If you are not on my active mailing list, send $1.00 for the next catalogue, or $5.00 for a year's subscription with prices realized lists. Regular successful bidders do not have to subscribe to continue receiving catalogues.

Don't miss Sale 13 (closing in April). It features trade tokens, casino gaming tokens, and good selections of encased cents and Civil War tokens. And as always, there will be a selection of almost everything else: dog tags, old & new medals, expo items, coal tokens, transportation tokens, masonic, Boy Scout, military, political, bulk lots, store cards, souvenir trade coins, foreign exonumia, etc., etc., etc.

I need to purchase exonumia for resale. If you have material for sale, please write or ship for my cash offer, I'll refund all your postage. Consignments of better material is also needed for my mail auctions (now new lower commission rates for lots selling for over $25 each).

FOR SALE FOR SALE FOR SALE

Acquire an instant Amusement Token collection! I can assemble a lot of over 1,000 different amusement tokens, for sale at less than 30¢ per token postpaid. Many good tokens will be included, worth up to several dollars each. Only one such lot available, with the tokens in holders or envelopes with the catalogue number. Satisfaction guaranteed.

GENE L. KIRSCHTEN OREGON MERCHANT TOKEN SALE

MAIL BID NUMBER 2

Scarce and rare tokens have been selected for this Part II mail bid sale of the Kirschten collection. Even though the token may be from a common town the token itself may be rare or unusall. Please check your bids carefully. Minimum bids will be $3.00 unless otherwise indicated. No bids will be reduced and I reserve the right to refuse any or all bids. Postage will be added. ANOTHER BIG ISSUE. ABOUT EVERY THREE MONTHS I'LL PUT OUT A "CATCH-UP" ISSUE SO THAT WE DO NOT HAVE ADS LEFT OVER TO OFTEN.

I DID NOT GET THE MEMBERSHIP LIST DONE AS PLANNTED. WE STILL HAVE ABOUT 30 MEMBERS WHO HAVE NOT SENT THEIR CARDS BACK. MAYBE THEY DO NOT WANT TO BE LISTED IN THE MEMBERSHIP LIST. THAT IS WHAT I WILL ASSUME AND GO AHEAD WITH THE LIST FOR NEXT ISSUE, REGARDLESS OF THOSE WHO HAVE NOT RESPONDED. SOME HAD LOST THEIR CARDS, BUT SENT IN THE INFORMATION ANYWAY. THAT IS APPRECIATED!

I WANT TO AGAIN THANK GARY BENDER WHO CONTINUES TO SUPPORT ATCO AND IS RESPONSIBLE FOR GETTING MORE NEW MEMBERS FOR ATCO THAN ANYONE ELSE.

WE HAVE REQUESTS TO REPRINT THE ATCO MAIL BID RULES. WE WILL DO THIS EVERY THIRD ISSUE, OR SO. THEY WILL ALSO BE LISTED IN THE MEMBERSHIP LIST.

ATCO MAIL BID RULES:

1) MAIL BIDS CLOSE THE 15TH OF THE MONTH IN WHICH THE SALE APPEARS IN ATCO, unless otherwise noted.
2) BID BY LOT NUMBER(S)
3) BID THE AMOUNT YOU ARE WILLING TO PAY!!!
4) BIDS WILL NOT BE REDUCED.
5) POSTAGE AND INSURANCE WILL BE ADDED TO SUCCESSFUL BIDS.
6) PAYMENT DUE ON RECEIPT OF INVOICE AND/OR LOT(S).
7) FIVE DAY RETURN PRIVILEGE IF LOT MISREPRESENTED BY HOLDER OF ACUTION.
8) ANY CHANGES IN THESE RULES MUST BE EXPLAINED TO THE BIDDERS BY THE HOLDER OF THE AUCTION. THIS EXPLANATION SHALL BE MADE PRIOR TO THE BEGINNING OF THE SALE (PRIOR TO THE FIRST LOT OFFERED). SUCH AS: ATCO RULES, EXCEPT ....
9) HONOR YOUR BIDS. IF YOU BID, HONOR YOUR BID. DON'T MAKE THE "LIST".

LETTERS TO THE EDITOR:

Dear Bill: Binky has a heck of a good idea - AN ATCO CONVENTION!!! I'd strongly support a Midwest location. Don't rule out Minneapolis/St. Paul or LaCrosse, Wisconsin.

Best,Gary G. Ascher

Editor's Note: I feel that we need a more central location like that suggest by Binky. More than a location, we need someone who can put on this type of meet. HOW ABOUT IT?

* * *

Dear Bill: Some time ago I wrote to ask if there was going to be an election of ATCO directors, or were they lifers, so to speak. You noted in a recent issue that there would be an election if the members so desired.

I would like to see a "retention" election where the membership could vote to retain or not retain the current directors.

If one or more were voted out, then there would need to be nominations for a replacement. If none were, nothing further would be needed.

I don't think that lifetime appointments are good in any area with the possible exception of judges, and I'm not very convinced of that!

Thanks and best wished. Sincerly,

E. Donald Kaye

Editor's Note: Since making my comment in a recent issue, Don, your letter is the first that I have received about an election or a "retention" election. I certainly did not intend to infer that our directors were "lifers". ATCO is young and I hate to see an election this soon. Let us get another year behind us. But, as I said in that recent issue, I will do what the membership wants and the issue is still open. If I get a number of letters requesting the "retention" vote, then we will have it. If I do not, then we will leave it as it is until January, 1984. O.K.?

* * *

Dear Bill: I got to bed at 6 A.M. this morning in an attempt to catch up on my token letters, trades, etc. You know, Bill, it's a good thing I'm retired, because since joining ATCO, I'm too busy to work.

Joe Bidwell.

Editor's Note: Sorry that we caused you to miss some sleep. I just hope that ATCO's effect on others is about the same. HA!

* * *

Dear Bill: I like Binky's suggestion of a once a year ATCO get together. Would like to suggest that it be rotated through the country, such as one year in the midwest, the next year the east coast and the third year the west coast.This would serve a good purpose in that it would give everyone a chance to go at least once every third year.

Ron Lerch - -

Editor's Note: Sounds good to me, but first we have to get the first one off the ground here in the midwest. Murphy's Law: There will never be a general agreement on any type of meeting until we get a person to head it up. Then everyone has to agree not to disagree.

A CARLESSLY PLANNED PROJECT TAKES THREE TIMES LONGER TO COMPLETE THAN EXPECTED; A CAREFULLY PLANNED PROJECT TAKES ONLY TWICE AS LONG.

LETTERS TO THE EDITOR:

Dear Bill: Arizona token collectors have asked me to speak in their behalf. I have read ATCO, and I must say that is is a fine publication which has brought token and medal collectors out of the closet. As I understand it, ATCO stand for Active Token Collectors Organization; and it certainly lives up to its name. The 400 plus members have joined because they want to increase their knowledge and their collections.

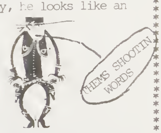
Now comes the argument of who are the most active token collectors, or what type of collector is the most active. Granted, I am biased toward Arizona Collectors, but in looking at my latest ATCO (February issue), it appears that Arizona Collectors dominate the issue. This is my reasoning: Out of seven articles, two are about Arizona tokens; in the next issue, out of five articles, two concern Arizona tokens. Prices of Arizona tokens surpass those for any other state except Alaska. In economic terms, high prices are a factor of demand, in reading Hal Birts's List, the demand for Arizona tokens is tremendous. Finally, let us examine the ads: More than eight ads deal directly with Arizona tokens. Also, in any trade, if an ARizona token is included, the trade will usually go through. This is because Arizona tokens make good trades. All ATCO members know this.

So, as for Mr. Spooner's joke about ATCO standing for Arizona Token Collectors Organization, he stands on firm ground at the present time. As for Binky, he looks like an Arizona Token Digger!

Yours for more Arizona and Active Token Collectors' interest.

Sincerely, TUMBLEWEED.

Editor's Note: Oh, Boy! Binky has competition now.



* * *

Dear Bill: About Binky - - I think he makes an excellent conscience for our organization. Some people's conscience bother them more than others as we all know. I think we need to listen and heed the lighthearted messages as they were intended.

Sincerely, Garry Young

* * *

Dear Bill: I am one of the many who think ATCO is great and wish continued success as you can tell by my having sent more than the requested assessment and dues.

I do want to express my opinion on Binky. I like humor, but when it comes to Binky or an ad from a member, adios Binky.

Another thought, if ads help pay for the costs of the publication why limit to 4 pages? If ads don't reach you by your set date, then discard them or put them in the next issue. No exceptions! People will then realize that you mean business.

I note that there are no board members from the southeastern U.S. There are many good qualified people in this area.

I think that the following should be printed as information to our members. I joined TAMS in January 1982 and during that year received only two copies of TAMS, and the issues were six months late, the auctions had closed. I wrote several TAMS people and got no results. Only Chas. Littlefield of our ATCO Board showed some interest in my dilema. Needless to say, I did not renew my membership in TAMS. I agree we should reassign numbers of ATCO members who no longer belong to new and active members.

Joe Copeland. (Editor's Note: The reason for the 4 page limit is so that someone does not send in a 10 or 20 page ad and squeeze others out of having ads in ATCO.)

Dear Bill:

TO CLARIFY MY BEING AGENT FOR THE GENE KIRSCHTEN COLLECTION. I AM ONLY THE AGENT FOR THE OREGON PORTION OF THE GENE KIRCHTEN COLLECTION AND IN NO WAY DID I INTEND TO INDICATE THAT IT WAS FOR THE ENTIRE COLLECTION OF GENE KIRCHTEN. I HOPE THAT THIS HAS NOT PLACED ANY HARDSHIP ON EITHER BUYERS OR SELLERS OF THIS COLLECTION.

THANK YOU, JIM HEMPHILL

Dear Bill:

I don't know which is worse, ducking bullets in this Truckers Strike or having my ears pierced by that hot wind coming out of Arizona. I have to agree with "Tumbleweed", the Arizona collectors are super when it comes to writing articles for ATLO, but I don't agree that Arizona collectors are the most Active in our organization. He needs to open his eye and/or eyes and look at the activity in Ore., Wash., Utah, Ida , Mt., N.D., S.D., Mo. and on and on. Just because Ariz. is loud don't mean they are the liveliest. I have talked with Mr. Spooner and I knew he was just joking when he made his little remark. In fact, I know several of the Ariz. collectors and they are some pretty good old boys. Knowing these guys makes me wonder why they would have something that breaks away from its roots and wanders around with no aim in life to be their spokesman, a "Tumbleweed" - give me strength. I know the members of ATLO will thank Tumbleweed because when they see something that looks like me, they will know he must be a citizen of Arizona.

Bill, I didn't strike, so if I'm still around, I'll check with you next month.

Binky

JOSE, TONTO & THE GROCERY BILL

The Gold Road Mine, Mohave County, Arizona

Many "bonanzas" in the early days were found by gamblers, naive prospectors, stock swindlers, and wanderers who just lucked out. Only those present at the time actually knew how the discoveries really were made, and all thoes participants and witness are long gone.

Jose Jerise, his Indian wife, Maria, and their nine children lived from day to day. During hard times Jose would ask Henry Lovin, a storekeeper at Kingman, to grubstake him to tide the family over.

No one knew exactly how the Jerise family kept alive; but survive they did, trapping rabbits, cultivating a few crops during the rainy months, and depending on the generous credit of Senor Lovin.

Always Jose kept hinting about the rich ore he had seen somewhere, but he couldn't quite remember where. Always he promised to bring back a few samples and lead Lovin to his find.

At long last, in 1899, Jose's bill crept up to the astronomical height of $13.85, and Lovin called it quits.

"Either you find that claim, or no more grubstake from me!" Sadly, Jose went back to his little home, his hungry children and his patient Maria.

"Que Lastima!" he sighed. "What can I do? There is no claim and Senor Lovin now knows it! But, I did promise to find it and that I must begin to do."

Jose decided to start looking for a gold mine the very next day. Early the next morning, he found Tonto, his little burro, feeding near the shack. He placed himself firmly on Tonto's back and gave the creature it's head.

Tonto plodded off, turned down the road and, with no guidance from the rider, paused now and then to graze.

Finally, Jose and his burro reached an arroyo near Sitgreaves Pass where red-stained cliffs sometimes held back swirling flood waters, but which on this day provided only cooling shadows.

Feeling no urge to continue, Tonto paused and Jose slid off to nap in the shade. When Jose awakened Tonto was nowhere to be found. While searching for his burro he picked up a few interesting rocks. One pile especially intrigued him, so he filled his pockets. After finding Tonto, Jose mounted his burro and prepared to continue his journey.

"Instead of going on," he thought, "I'll go by Senor Lovin's and show him these rocks; he will think I have tried, even though I failed, and perhaps grubstake me once more."

Somewhat dejected, he paused before Lovin's store. Finally gathering enough courage, he entered hesitatingly and humbly offered his few samples. Henry Lovin looked at them, hefted them, and took them to the door for a better light.

"Jose, you have indeed found rich ore!"

The little Mexican looked up, startled!

"Your bill is paid with these few rocks, because they are worth far more than you owe me. Now take me to your mine!"

Thus was the discovery of the Gold Road Mine. Eventual gold production was about $7,300,000...a tribute to the wandering of a little burro and to Jose's laziness.

LEMUEL SHATTUCK

By Jink Livingston

Lemuel Shattuck ran away from home in 1882 and came to Arizona Territory at the age of sixteen, where two older brothers, Enoch and Jonas, were running a million acre cattle ranch, The Erie Cattle Co., owned by the City fathers of Erie, Pa., one being Henry Shattuck. Headquarters were located at Tombstone.

Sixteen year old Lem was given the job of breaking wild horses and in the end became an accomplished cowboy. He was known as "the kid", the strongest man in his part of the territory. This ranch empire was abandoned during the droughts of the 1890's and Lem Shattuck went to Tombstone. Later he walked, stone-broke, into Bisbee and began prospecting. After a few years he staked a rich claim but lacked the capitol to develop the mine and sold it to Calumet an Arizona Company. Then he ran a lumber yard and the St. Louis Beer Hall in Brewery Gulch with a partner named Keating. During these years drinking water was carried in skin sacks on burros and sold by Mexicans who obtained it at a spring near town. Periodic Typhoid epidemics hit the mining camp killing many. Lem drew cards with Keating and the low one was to buy out his partner. Lem drew low so he and his family stayed behind expecting to die, but Mrs. Shattuck boiled the water and all survived.

In 1904 prospecting paid off for Lem Shattuck. He and a small group of associates organized the Denn Arizona Development Co. and began to develop the Denn Claim. The next year under the name of Shattuck Arizona Copper Co., the syndicate began work on the Shattuck Mine. Later the two companies merged and changed the name to Shattuck Denn Mining Corp. Production began in 1906 and soon ran into large figures. A navy blue semi-precious stone was found in the Denn shaft and named Shattuckite. The mine was one of the richest in copper ore in the camp. Deposits yielded 17% copper on the average. At the time the Shattuck contained the highest grade ore and was the lowest cost in production in the world. The company shipped ore to the smelters in Douglas and shared hospital services with Calumet and the Arizona. As a result of the huge production of high grade ores from the Copper Queen, Calumet and Arizona along with the Shattuck Denn, Bisbee became the most important mining center in Arizona and one of the most renouned copper centers in the world.

Lem was "Lem" to boards of directors in New York and sourdough prospectors alike. He died a millionaire in 1938. The Shattuck Denn remained on the New York exchange until about 1975. Here is a rare collection of Shattuck tags and tokens dating from 1895 to 1915.

School Lunch Tokens

by Daniel Manasselian # 309

For school lunch token collectors, Fresno must be heaven. I know of at least 84 different school lunch token varities of which 52 are in my collection. There are 59 Lunch, 16 Milk, 8 Cafeteria and 1 plain lunch tokens. The school with the largest number of varities is Columbia School with six varities with Jackson School close behind with 5 varities. When I do acquire a school lunch token which is not in my collection, I sometimes acquire a new variety of a listed token or a token which is not even listed. A good example of this is a Pinedale School lunch token which I just acquired. The best lunch tokens to acquire are from Fresno County. (Herndon, Washington Colony, Raison City, Lone Star, and San Juaquin) For town collectors I know of only two tokens from the towns of Easton and Lone Star, the milk and school lunch tokens. I started collecting school lunch tokens from Fresno County since they were easier to obtain then trade tokens. Of course since I have started collecting them the local supply of lunch tokens has dried up. I have acquired my school lunch tokens mainly from the local swap meet and a few of my best ones coming from a local treasure hunter. After asking some older residents of Fresno County I believe the brass and aluminium tokens were used in the 1940's to the 1950's, with the plastic ones still being used. Below is listed the variety of metals of which school lunch tokens are made from.

Lunch Tokens	Cafeteria Tokens	Milk Tokens
44 Brass	5 Brass	9 Alum
11 Alum	3 Alum	4 Brass
4 Plastic		3 Plastic

There is also one aluminium token with the initials of the school only. (J.B.S. = John Burroughs School)

JAMES K. McCLENAHAN WHERE HAVE YOU BEEN SINCE 1847?

By John Hamilton III

Many years ago I obtained an interesting maverick: "J. K. McClenahan, good for a drink or cigar/Mormon Temple." The token is nickel and appears to have been made by St. Germain.

I thought I would have little trouble tracking down this token as the name is unusual and with the Mormon Temple reverse it is very likely Utah. The reading of a great many directories produced nothing.

A week ago I received in the mail "Utah Gazetter and Directory for 1884" by Sloan & Dunbar. I promptly got to work trying to find any of my hundreds of mavericks. An initial reading identified only one token; a saloon from Ashley, Utah. Frustrated by my lack of success I started reading through various odd listing in the directory. One of the listings is as follows: The Pioneers - "The following is a complete list of the Pioneers who came to Utah in the years of 1847 and 1848 and as correct as to spelling of names as could be obtained."

The name JAMES K. McCLENNAHAN appears following the date of 1847. It is followed by Nancy; his wife? Although the name in the directory has 2 n's and the name on my token has only 1 n, I am sure it is the same man, as the middle initials match. Can any readers shed any light on what old "J.K." has been up to for the last 136 years?

A SALOON TOKEN THAT FOUND A SECOND HOME

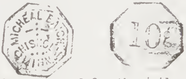
By Cal Woods

Four years ago while vacationing through the Minnesota Iron Range country I meandered into Hibbing, Minnesota, a large iron mining town. It occured to me to check out the town's parking meter junk. Most every town with parking meters accumulates some "slugs" from their parking meters which are of occasional interest to collectors. In the smaller towns and cities the place to stop is at the police department, who usually handle the parking meters. A nice police officer, properly approached, will generally allow you to dig through this junk and keep the "non-coins" that you find.

I showed the duty sargeant what we were looking for and hoped that they had such an accumulation. "Well, we have some of those things", he said, and took a cigar box out of the safe, showing me the bottom of the box which was covered with brass tokens. They all seemed identical, maybe a hundred of them and they looked very old in style.

They were from Chisholm, Minnesota, just a few miles north of Hibbing and read:

MICHAEL BIACH/CHISHOLM,/MINN.
Rev. 10¢ 22mm, Oct. Brass



When I begged him for one, he said, "They are used for the jail prisoners." I just could not imagine even Hibbing having such a swinging jail-house that the prisoners were allowed to gamble in the cells, or to even play cards with the tokens used as chips. That was not the case.

The police department came into these tokens quite by accident and they used them as tallys. They contracted with a neighborhood restaurant to supply meals to the jail prisoners. They would call the restaurant each morning and tell them how many morning meals to send over to the police station. When the restaurant employee delivered the meals, the duty sargeant would hand him an equal number of these tokens. At the end of the week the owner of the restaurant would bring the tokens to the city controllers office and would exchange them for the value of the meals. The controller would then return the tokens to the duty sargeant and the operation was completed.

I did get a single specimen of this token for my collection after I promised not to attempt to negotiate it. Upon researching the token I found that it was used in a saloon in 1914.

THIS IS WHAT IS CALLED RECYCLING SCRAP METAL.

COLORADO REAL ESTATE TOKENS DATED 1921

By Merlin Bondhus

I have in my collection a couple of tokens GOOD FOR $1.00 PER ACRE, 1921 ONLY. THESE TOKENS ARE MADE OF ALUMINUM AND ARE 38mm in size. ONE TOKEN IS FROM SHERIDAN LAKE, COLORADO AND THE OTHER FROM CHEYENNE WELLS, COLORADO. THESE TOWNS ARE ABOUT 30 MILES APART.

in 1921 good level wheat land was selling for about $20 to $50 per acre, depending upon the condition of the soil and the improvements on the land. A few years later, during the dust bowl years of the mid 1930's much of this real estate was sold for the taxes due on them.

Looking at these two tokens would make you think that probably the same token salesman sold these tokens.

I wanted to share these finds with the other collectors.

ALASKA GASTINEAU MINING CO.

Thane, Alaska 1911-1921

The old township of Thane is located 4 miles S.E. of Juneau, Alaska. The name "Sheep Creek", was the original miners' name for the town. This being changed in 1914 in honor of Bartlett L. Thane, general manager of the Alaska Gastineau Mining Co.(A.G.M. Co.), which had its' mill here.

The A.G.M. Co. inoorporated January 14, 1911. The mill site was started Oct. 31, 1913, and had a 6000 ton capacity by November 1915. With more electric power later on, tonnage would increase to nearly 12,000 tons of ore per day.

The main camp was located at Thane. The Company provided its' mill employees with 6 - 50 man boarding houses, and a dining room to seat 350. The food was good. Room, and board costs were $1.00 per day. Private rooms cost an extra $3.50 per month. 50 houses were leased to married employees. Their children attended a two room school house on the beach. The Company maintained a cold storage plant, meat market, a general store, and a fine gymnasium. A library housed 11,000 volumes .. donated by the widow of a man that died during the construction of the mill...Another attraction was the "Thane Club House" ... The unlisted "Thane Club", 5¢ aluminum token shown here, has been in my Alaska token collection for many years.

ORIENT SALOON - - BY: INKS LIVINGSTON

A faro game at the Orient Saloon, Main Street, Bisbee, Arizona, 1903. The group includes Tony Downs, one of the owners, the case keeper wearing the silk hat, the "Dutch Kid", wearing the derby, the "Sleep Kid", Smiley Lewis and Jonney Murphy, the dealer.

The Orient opened in 1902 and was totally destroyed by the fire of 1908. It had four owners: Whaley, Walsh, Downs and Roberts.

The photograph has been somewhat misrepresented in that a bar in Prescott keeps a large copy on the wall and implies that is is their saloon. A book about Tombstone uses it for the cover. In a gunfighter book, the author claims that he is in the picture and a liquor company uses it to promote its product.

All information regarding this picture is courtesy of the Bisbee Mining and Historical Museum.

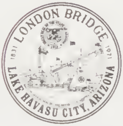
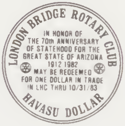
PRODUCER, DESIGNER, PROMOTER OF THE
"HAVASU DOLLARS"





As it is each year at this time, I am very pleased to announce, and send you the newly released "Havasu Commemorative/Trade Dollar."

The longest continuing series of trade dollars issued in the U.S. continues. On 9 October 1982 during the annual celebration of the dedication of the historic London Bridge, in Lake Havasu City, Arizona, the London Bridge Rotary Club proudly released the 12th issue of the "Havasu Dollar." Each year, since the re-opening and dedication ceremonies of the London Bridge, a new commemorative/ trade dollar honoring that event is released by the London Bridge Rotary Club.

What started out in October, 1971 as a fund raising project for charitable and community projects, has grown to a recognized international collector's item. Each year, in addition to honoring the London Bridge and its two thousand years of history, the "Havasu Dollar" also recognizes other important events. In October of 1975 the "Havasu Bicentennial Dollar" was issued in bright copper as the regular trade dollar for the year. It was recognized as an official Bicentennial Commemorative by the Bicentennial Commission, and the Rotary Club issued only one thousand in .999 fine silver at that time. The seventh issue, released in October, 1977, had its design adopted by newly incorporated, Lake Havasu City, as the official city seal. The October, 1979 release, for 1980, honored the 75th anniversary of Rotary International. During the October, 1980 celebration of London Bridge Days, and the 150th anniversary of the London Bridge, the tenth issue was released honoring the anniversary by duplicating in the inner circle on the obverse and reverse, a token issued in 1831 when London Bridge was first dedicated. The eleventh release, issued for the 1981-82 period, honored the bridge's tenth anniversary in Lake Havasu City, Arizona.

The recently issued "Havasu Dollar" for 1983 honors the 70th anniversary of Arizona statehood. The 12th "Havasu Trade Dollar" carries the Great Seal of the State of Arizona, in a field above the design adopted as the official seal for Lake Havasu City, on the obverse. The reverse carries the "dollar's" legend, and the London Bridge Rotary Club's identification and the trade dollar expiration date of 10/31/83.

Orders for new issues at $1.50 including the p.&h. charges, will be accepted by the designer and manager of the program, Art Tuberman, "Havasu Dollars", P.O. Box 1590, Lake Havasu City, AZ 86403. Collector's sets containing the issues #3 to and including the 12th issue are available in a plastic display box for $25.00 plus $3.00 P.&H. Any further information about the "Havasu Dollars" or Lake Havasu City and the London Bridge can be obtained by writing to Art Tuberman. (all orders in U.S. funds Please.)

Sizes and metals can be found in the attached 1983 pamphlet.

"Havasu Dollars"

THE TROC PLEASURE PALACE TOKEN

BY: RUSS & JANE SEARS

The Troc Pleasure Palace began using the illustrated token in 1976. It was ordered 3 times in quantities of 1000 each at a cost of 88 cents per piece. The token was used as an advertising promotional piece and in machines at the 400 East Baltimore Street location on Baltimore's famous Block.

Sold and used for a value of one dollar each, the token was used in the "dial a doll" machine. After a show, the girls were scheduled at various times in one of two booths. The visitor was separated from the girl by a glass window covered by a curtain. When the visitor put his token or an Eisenhower dollar in the machine, the curtain would open allowing the visitor and the nude girl to see each other face-to-face. A telephone on each side of the glass allowed the visitor to talk to the girl.

Because of the size and weight of the token (and the Eisenhower dollar)the coin boxes filled up quickly resulting in jamming of the micro-switch which caused the curtain to open and close. This problem continued until the introduction of the Susan B. Anthony dollar and a new token of comparable size. At that time, the old larger tokens were discontinued. It should be noted that the new token does not show the business name or location.

WANTED TO BUY

ILLINOIS SALOON TOKENS

I am particularly interested in purchasing all Illinois "SALOON" tokens (must have the word: Saloon). I have the more common ones and will pay retail prices for needed specimens. OR I will trade (see Mail Bid Sale #1 listing), and make you a super trade for your needed tokens. Sorry, other tokens not currently available for trade. I prefer to purchase outright, and will pay your reasonable price. Please send rubbing and describe condition. All SALOON inquiries promptly answered, and will refund your 20¢.

PRE-1901 ILLINOIS TRADE TOKENS

& STORECARDS WANTED

I also collect all 19th century (1900 and earlier) Illinois trade tokens and storecards. I especially want all Hard Rubber and Bi-Metals (even post-1900) of Illinois. As I purchased the George Owen collection and most of the needed specimens from the Joe Schmidt collection of 19th Century Illinois, I am only seeking scarcer material, as listed by Schmidt. Unlisted items wanted, even including identified mavericks. Please send rubbing and/or description of suspected pre-1901 Illinois mavericks for verification (allow 2-3 weeks, at least!). Will trade (see list), or purchase all early Illinois tokens and medals. See detailed want list for other areas collected.

INDIANA SALOON TOKEN

I wish to acquire one IN Saloon token needed by Steve Tanenbaum for completion of a trade. Your assistance appreciated.

TERRITORIALS, POST TRADERS AND ALASKA

I'm a serious collector of Territorial tokens from Wyoming (W.T.), the Dakotas (D.T.), Montana (M.T.), Arizona (A.T.), Washington (W.T.) and most other Territorials ... except for Oklahoma. I will pay $200.00 and up for ANY Territorial token

AND .... UP TO $2,600.00 FOR THE RAREST OF THE RARE!!!!!!

☞

Also wanted: Post Traders, Saloon tokens (including saloon "mavericks" ... send 'em on ... I'll pay good money for saloon mavericks), early classic style military tokens, and rare Alaska tokens - particularly the gold nugget tokens. I'm quite willing and able to pay TOP market price. Contact me.

I also avidly collect mavericks and will pay good prices for your accumulations of nice old mavericks ... one or hundreds of 'em. I'm not afraid to pay $5, $10 or much more for a maverick that has a nice style and appeals to me.

Note: I will also trade to obtain good tokens for those few of you that don't place any value on cash money.

NUMISMATIC NEWS SPECIAL - - -

Arlyn G. Sieber, News Editor of Numismatic News informs us that there will be a "Special Look At Token Collecting for the April 30 editor of Numismatic News." Try and get a copy of that issue if you are not a subscriber of the Numismatic News.

Editor's Page - - -

At this writing we are four days from going to the printers. It has been an uneventful month. No one got angry at me this month.

I have had a busy month with my business so have not had time to work on the membership list to any degree. It is a slow and tedious job but little by little I'm getting it done. My main interest is to get ATCO out each month on time and as interesting an issue as I can make it.

Chuck Littlefield has been in and out of the hospital and by now I hope he is feeling better.

Guess that is about it. No further comments except that some of you article writers need to get busy!!!!

Letters to the Editor:

Dear Binky: You're half O.K. some of the time. The idea about an ATCO convention is alright. I suppose you had to make the brain cells work overtime to come up with that idea. Obviously, the idea needs more work. We need two annual conventions: One in the Spring in the Centeral East Region, say Indianapolis, and one in the fall in the Central West Region, say Salt Lake City. Most collectors would attend the convention closest to their own geographical collecting interests, while the true fanatics will attend both conventions.

Regards, Floyd Holliday #331

(Editor's Note: More than anything we need someone who can put on such a meet!!!!!)

WHAT'S HAPPENING WITH THE TAMS JOURNAL

I'm sure that many of you are asking that question, and quite frankly I've also wondered about it recently. As you know, the Journal has been published with less and less frequency, and TAMS members have a right to be concerned. The present status is that the last editor has just resigned, on rather short notice, and I have agreed to assume editorial responsibilities for the publication. Paul Cunningham, whom many of you know, will be handling the publication and mailing end of the job.

On March 8th I received a large box filled with unanswered letters, unpublished articles, etc. As of this date (March 11th) I have answered most of the correspondence, and have been busy rewriting articles and preparing an issue of the Journal. I have been told that the previous editor has just mailed out the August, 1982 issue, her last one. Assuming this to be true, my first issue will be the October, 1982 one. We'll get it out as soon as possible, and from there will publish issues frequently until the Journal is up to date.

For over twenty years the TAMS Journal has been a major publication for the exonumia collecting fraternity. I intend to see that it maintains this status. As a member of TAMS for nearly twenty years, and a life member, I have a vested interest in the organization. Paul is also a life member, and shares my commitment to publish the Journal on a timely basis. I would like to point out, however, that although we can, and will, get the Journal back on its feet, the quality of its contents remains the responsibility of you TAMS members. I will not be writing the Journal, but merely editing articles and assisting writers in their preparation. So, if you want to receive a quality publication, why not sit down and prepare an article or two. I'll be happy to work with you on it, and I have the facilities to photograph your exonumia to illustrate the articles, if necessary. And, be assured that if you write me, for any reason, you WILL receive a prompt reply.

One final thought. I've heard many derogitory remarks about TAMS recently, and some members have aired their feelings publicly. Bill Clapper, who very generously offered me the opportunity to write this message, sent me a copy of a letter he recently received. It was written by a member to the TAMS President and members of the Board, according to its heading (I didn't receive one, even though I'm currently serving as 2nd Vice President). In the letter the member pointed out the benefits of a TAMS membership, which he feels he isn't getting. While I certainly won't disagree with anything this gentleman says, I must ask him, what have you done to support the Journal? We come back to my earlier point, which is that the Journal is only as good as the members make it. At this point it is senseless to dwell on the past; let us concentrate on the future!

Thanks for listening.

IS THERE A STORY TO TELL?

BY ED SAUNDERS

If only we could hear some of the stories that a token could tell it would be a time of enlightenment to us all. We would pass through the now deserted streets of Gold Road, ARizona. See buildings singing with laughter and gambling, shootings and miners with gold so abundant that it fell to the ground with little concern. Silver Bell was one of the wilder places that you could visit in its hayday. Riches were there and one would pay highly inflated prices for a pound of butter, a loaf of bread or a pick and shovel.

If tokens could only talk, we would hear names and go to places that are now only the memories of ghosts. We would hear names like Savage, Gila Bend, Seldovia, Yes Bay, Fane, Sun Dance, Eckley, Horseshoe Bend, Ft. Douglas, Rawhide, Idaho City, Wise River, Carthage, Central City, Sun Rise Springs, Sumatra, Allison and Fort Assinniboine.

We would pass through lush forests and cross the rockies, fight the chill of the Alaskan coasts. We would cross the Lo Lo Pass to Hot Springs. We would hear stories of the great Salt Lake and stop and pick some fruit in Willard. We would spend the night in the Lakeview Hotel in Sheridan, Colorado. Buy some groceries at the Detout Mercantile in a small town near the Great Divid, Wise River, Beaver City, Post Falls, Clarks Fork where we would rest before continuing our journey. We would see pack trains , cross rivers, and lay on the tables of some of the most famous gambling tables in the west. For as a token we pass from hand to hand.

One day we would be in the pocket of a miner in French Gulch and as he hears of a strike in Sumpter we are off for the blue mountains to seek his newly awaited fortune. We would be left laying in the sands of the desert, or found in creeks after a town had been razed by fire. Some of us would go to the melting pot while others of us would be thrown into holes and covered up. Some of us would find ourselves mixed in concrete or being used as a washer on a bycicle.

Yes, if we could go to the places that tokens have been we would spend some time in the famous mining camps - sweet Mine, Placerville, Goldfield, Mohrland, Manhattan, Duck Water, Gold Road, or Silver Bell. We would spend some of our time in places like Rico, Elbert, Papeton, Hanna, Frannie, Edgar, Harrison, Schole, Springer, Lake Port, Skelton, Jarbridge, Centerville or Rose Lake. We would see many different uses of ourselves. We would be exchanged at the local saloon for a drink or the General Store for supplies. We would be found in the lumber camps, the cattle towns and quiet little towns along the path of the early pioneers.

I hope each one of us can see by now that tokens tell a story. They take us to towns now gone or lying in waste in the desert. They give us a clue of the elegance of the times. Look how fancy some of the early tokens are. They tell us that a man left his name on a piece of metal. It tells that he was the proprietor of some business in some now longgone town. Probably the only thing left that tell that this man really existed. He did not care, at the time, about the future of his token. He was there today, doing business and looking to the future of his town.

The token tells that he was there, that the town did exist at one time and that it was a thriving town with a future, and then something happened. It tells a part of the story of the man and the town. The man is gone and the town is gone. WE HAVE THE TOKEN!

TRAVELIN' WITH CAL (How to Scrounge for Tokens)

By Cal Woods

Jim Ruhland, an old token scrounger, once told me that the reason he had trouble finding tokens in Texas was because the people of Texas don't save anything. Not true with Minnesotans.

One day June and I were scrounging tokens in southern Minnesota and stopped at an old moulding looking tavern. When I flashed my samples the owner said that they never used tokens, but "if you wants something old, come on down the cellar with me". I followed him down a trap-door into a spooky dark area, and he showed me a case. From it he pulled a full bottle of beer with a crumbling label that was a brand that dated before prohibition. I was not interested, but it struck me that Minnesotans save everything! A good thing to keep in mind when scrounging for tokens.

Once when we stopped at a little place called St. Thomas, Minnesota, I walked into the only business in town, a combination grocery and beer tavern, and asked a nice middle-aged lady if she had ever used tokens like those I showed her. "Yes, we used tokens here and we had the bottom of a drawer full at one time. I think that I gave them to the kids to play with. After some had found their way back I had the kids bury them in the back yard." With shovel in hand I marched the two girls out to find them. They remembered where they had buried them and we dug them up. We found about two dozen. I paid the girls for their work and thanked them.

On another hunting trip June and I stopped at an old pool hall in Lake Crystal, Minnesota. "No, we don't use chips, but I think there are some old tokens in the bottom of a drawer in the back room." We looked and found about 30 tokens of various shapes and sizes in a thick syrup of "goo" in the bottom of the drawer. "You can have them if you can get them out", he said. I borrowed a spatula from the cook and dug for half an hour and wound up with a paper bag full of "mess". The next day I soaked it all in water and then in mineral spirits and they all came out clean and dark brown. The best haul in weeks.

While on vacation in the north country June and I stopped at a tavern in Brainard, Minnesota and inquired. "No tokens, but Cully Nelson who used to own this joint retired and he had some." I aksed where Cully Nelson was now. He said, "well he lives upstairs but he is out cutting the lawn at present." Sure enough he had a few tokens.

On still another trip we stopped at a little place - West Union, Minnesota at a very small beer and cigar shop. It could not have been swept out since the Hoover Administration. An old tight-lipped fellow sat behind the cash register. He looked at my tokens and then stared out the window as if I did not exist. He finally rang the cash register and pulled out a decaying leather bag from a back drawer and dumped out about 30 very old tokens. He said, "What you give for them?" Rather than open a can of worms I said "Face". He added up the amount on the old cash register which came to about $3.00. As he shot a long dark brown squirt of tobacco juice into the old spitoon, he shoved the cash into the cash register and slamed it shut. It was a windfall for him and a heart-pounding delight for me as I poured the tokens into the bag and left with the whole thing.

My old buddy, Harry Sailor used to drive down from Warren, Minnesota for the monthly token club meeting in Minneapolis and would "token" all the way. When he went thru Glenwood there was one joint that he could never get a token from. The owner just would not give him one. I was determined that I would break them loose! When June and I went through Glenwood we stopped and I told June to read her paper as I was going to be gone for awhile. The owner was not there but a pretty young girl of maybe 19 was tending the bar. That was bad! Usually girls were filling in for the boss and did not know anything about tokens. This one knew about the tokens and it was not long before she had given me some of them. The ice was broken and I got the tokens that Harry was not able to break loose.

Tokens are out there. You just have to scrounge for them!!!!!

STATELINE, MONTANA (A MONTANA NAME PLACE MAVERICK IDENTIFIED) By Eldon Schuttler

On highway #2, approximately 18 miles west of Williston, N.D., at the Montana State Line, a night spot, tavern or night club - call it what you wish - straddling the border of Montana and North Dakota, as nearly as possible, stood this old drinking, gambling (and suspected call house girls)and popular meeting place of Montana and North Dakota people.

The night spot was on the Montana side with the parking lot on the North Dakota side to take advantage of Montana's more lenient laws on liquor and gambling.

At the time that E. Christianson's token was issued there was a house, a motel and a bar. The El Rancho Motel was later moved to Williston. A dance floor occupied the second floor of the club, while the main floor housed the bar, dining room and gambling area (slot machines, etc.).

The motel was, as the rumor goes, a meeting place for "shady ladies" and it was reported that they were easy to meet if you had the price.

A 100 foot bar gave it its calling card of the 'longest bar in the Northwest'.When the building burned in the 60's it was not rebuilt to its original size.

Emil Christianson operated this establishment during the late 30's and during the 40's. His token bears his name, E. Christianson.

(Editor's Note: The tokens are reported in solid nickel and nickel plated brass and are quite scarce)

MILAN SABO AND THE VIENNA BAKERY OF BISBEE, ARIZONA ....By Jinks Livingston

Two years ago I checked with an old timer who had operated the Vienna Bakery in Bisbee, Arizona for many years. I had hopes that he might have some tokens left from from the old Vienna Bakery, but he didn't. He said, "Ah, they aren't worth nothin."

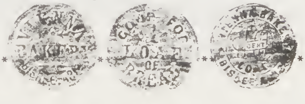
When I met Milan Sabo he was 93 years old and in remarkable physical condition. He attributed his longevity to his bread. He invited me in for a slice, baked in a loaf pan saved from the bakery. "Whole wheat," he said, "always eat whole wheat."

Asked about the bakery, he said, "Well, it was all a very long time ago." He showed me a picture of himself in front of the bakery which was taken before the automobile was invented. As to the use of tokens, he said, "I tossed one in the bag when someone spent a dollar at the bakery."

Milan Sabo was born in Igalo, Yugoslavia in 1888 and came to Bisbee, Arizona in 1906 and went to work at the Vienna Bakery in Brewery Gulch. He went to the bakery every day at 4AM and mixed 1000 pounds of flour for bread.

He told me about the Mexican revolution, World War I, the labor strike of 1917 and the depression of the thirties which closed the bakery. After those years he worked in the mines until he retired at the age of 72.

Milan Sabo went to Yugoslavia for a visit a few weeks after I talked to him and hasn't been back. It is common to find small pieces of the Vienna Bakery tokens but there are only a few known whole specimens. They were made of Aluminum and the soil here is corrosive.



****WANTED WYOMING****

HELP!

I AM CATALOGING THE COLLECTABLE OF THE

A. Y. P. E.

ALASKA YUKON PACIFIC EXPOSITION HELD IN SEATTLE, WASHINGTON FROM JUNE 1 TO OCT. 16 1909

THIS IS A MAJOR CATALOGING EFFORT AND I NEED YOUR HELP!!!

IF YOU HAVE ANY ITEMS PLEASE SEND EXACT DESCRIPTIONS AND BE LISTED AS A CONTRIBUTOR. I KNOW THAT IT IS WORK, BUT WHAT WE ALL CONTRIBUTE WILL MAKE THE CATALOG WELL WORTH IT.

WHAT I DON'T NEED IS YOUR UNLISTED PIECES AFTER THE CATALOG IS OUT. THEY WON'T BE WORTH A DIME MORE. LIST YOUR COLLECTABLES AND HAVE A RARITY ASSIGNED TO IT OR THEM. THEN YOU HAVE SOMETHING TO BASE A VALUE ON.

THERE WILL BE A POST CARD SECTION FOR YOU POST CARD COLLECTORS - - WITH YOUR HELP!!!! LIST YOUR POST CARDS - - SEND PHOTO COPIES OR SEND THE CARDS. I'LL RETURN THEM TO YOU.

IF YOU ARE A WILLING CONTRIBUTOR AND HAVE SOMETHING TO CONTRIBUTE I'LL SEND YOU A CHECK LIST. LET ME KNOW WHAT YOU HAVE TO CATALOG.

WRITE TO:

LES BURZINSKI 2105 OAKRDIGE AVENUE MADISON, WI 53704

Editor's Note: When a cataloger goes to the trouble, expense and headache (along with other frustrations) to cataglog a worthy addition to our collecting field, then we should co-operate with him or her. I'd get mad as ~~hell~~ heck if someone sent me a description of something that should have been cataloged, after the catalog is out. You just hurt the effort by not listing what you have.

HOW YOU KNOW WHEN YOU ARE GOING TO HAVE A BAD DAY:

Your wife tells you that she forgot to mail the bid on a special token you wanted and it is now to late.

Your mail man tells you he thought you had move and has been sending all your token mail back.

A dealer calls and tells you your check bounced and he wants his tokens back.

A collector calls to tell you that he did not get the tokens you mailed him a month ago.

NOTICE **Any Coin & Banknote Collectors Left Out There--FOR SALE
Fourteen Cardboard Boxes of Numismatic Material, 1971-1981. This includes 225 Auction Catalogs with prices realized-includes practically all the important sales of the ten year period; such as the 4 Garret Sales and the Lepczyk 1977 Sale of the Geo. Sobin collection of French Ecu's--Many of these are now important references and selling for $10 to $25. The prices realized is what make these good reference material. Also 20 Bowers & Ruddy "Rare Coin Reviews", 7 complete years of the "Numismatist"--Journal of the O.[illegible].N. 1974-1980. The CNA "Numismatic Journal"1972-1981, less 5 issues--Several issues of WPNA "Proof Collector's Corner"--14 copies of IBNS Journal,1978-81--16 Stamp Auction Catalogs with prices realized (Matthew Bennett & Paramount)--"World Coins" Magazine 1971-1976(No Longer Published). Also Many Superior's "Money Talks", Paramounts Rare Coins & Stamps, Steve Ivy's Numismatic Monthly & Special Coin Letter plus boxes of price list coin magazines & old issues of Coin papers.

I have eleven pages(8½x13) typed. Costs me 10¢ per page to be copied plus 40¢ postage. Fairly well itemizes the material. If you want a copy send me $1.50

*** LARGE MINNESOTA TOKEN COLLECTION WANTED ***

The prospect of adding a Minnesota token or two to my collection once in a while is, quite candidly, trying my patience!

I am anxious and able to purchase a major MINNESOTA token collection (the LARGER the BETTER!) to give my collection a significant boost. I'm looking for a collection of at least 350 different towns and at least 1,000 different tokens. I know the value of a prime collection of this type and will realistically reflect that knowledge in a serious and aggressive offer.

We all know that, as our own collections expand, it becomes more difficult to buy a large collection - simply because the duplication becomes more extensive and burdensome. If I do manage to buy a large collection now, it may be the last I'll buy for quite some time.

If you have any thought of disposing of your MINNESOTA collection, I urge you to seriously consider it now. I would have the most interest in the largest collection I have an opportunity to purchase, if more than one collection is offered to me at this time.

Please call or write to me to discuss, on a confidential basis, the possible sale of your MINNESOTA collection. I will be happy to talk to you in this regard.

Of course, I am still interested in buying any MINNESOTA tokens.

WANTED

I am seriously collecting in the following categories and will pay TOP MARKET PRICE for tokens in these fields. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think may be of interest to me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

ALASKA TOKENS - cataloguing $50 and up in Benice. Will pay $3500 for the 1st McCarthy Alaska gold nugget token offered me (cats $500). Paying $3000 for the 1st Willis & Welch Chatanika Alaska shellcard offered me.

NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100 to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-fors. Any and all except for the most common. There are N.M. tokens worth over $100 to me.

TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr (A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction outbidding the most prominent buyers on the market.

POST TRADERS - any old good-for saying "Trader" or "Post Trader"

WESTERN STATES' GOOD-FOR MIRRORS (Colorado on West) - with pictures of the proprietor, fancy women or children on them. Paying $100 and MUCH MORE, depending on the state and the mirror.

SALOONS and OLD MILITARY TOKENS - Mavericks or attributed. Paying top dollar. Also Texas large nickel pictorials (compare me with some of your Texas buyers) and good-fors picturing elephants.

CIVIL WAR SUTLER TOKENS
AND CARDBOARD SCRIP
BY DAVID E. SCHENKMAN

This hardbound volume (8 1/2 X 11 format) catalogs nearly five hundred tokens, many of which have never previously been listed. Complete obverse and reverse descriptions of the tokens are given, and a rarity guide is included in the text. The book is profusely illustrated, and the introductory section includes a wealth of information on sutlers and their tokens. The various die sinkers who struck tokens are also discussed.

Collectors of obsolete paper money will also find this book an interesting reference. In a separate section 98 varieties of cardboard sutler scrip are cataloged, a large number of which are unlisted in earlier works.

CIVIL WAR SUTLER TOKENS AND CARDBOARD SCRIP will surely become the standard reference work on the subject. This book belongs in the library of every serious token collector. The price is $27.50, postpaid (Maryland residents must add $1.37 state sales tax).

Your copy will be autographed by the author on request.

It has been a busy month as you can see from all the various ads. Had a little more time to work on the directory but am still a ways from finishing it. I figure that you are more interested in ATCO being on time than in the directory. It is coming, but only as I have time to work on it.

Nothing else to say. Everyone seems to be happy with ATCO and that is what I am striving for.

Dear Bill:

I just received some tokens I had bid on and I'm trying to figure out if I was the winner or looser. The tokens were in poor condition and their condition was not noted in the sale. I think the holder of an auction should point out defects in the tokens in his (her) sale. I don't mean they should grade tokens but point out specific defects. An example, one of the tokens was so slick if I ever lose the 2 x 2 its in, I won't know what it is. Notation on this token could have been (ALLEGED TOKEN); one of the other tokens was almost as slick. When I first looked at it I thought it was unifaced but after a close examination I found a couple of letters on it. I guess this token could have been graded (SEMI-BLANK TOKEN). Another piece was at one time octagonal but was ground off and made round (MODIFIED). The other was a dug token and was coming apart in layers with some layers missing. This token without a doubt is a (PARTIAL TOKEN).

Bill, the kicker is, I would have bid the same thing on these tokens if they had been graded as above and if these tokens had been graded the seller could look in the mirror and shave without sun-glasses.

Touch base with you later.

ARIZONA "SHOOT IT UP TOKENS"

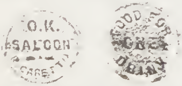
By Jinks Livingston

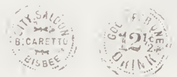
Baptisto Caretto was born in 1864 at Tuscany in Northern Italy and became a citizen in Bisbee, Arizona in 1896. The Carettos and their six children lived above the City Saloon in Brewery Gulch. One New Years Eve in the early 1900's an overzealous celebrant in the Saloon fired a gun into the air. The bullet lodged upstairs in the headboard of a bed in which one of the Carettos offspring was sleeping was sleeping. Mr. Caretto immediately began plans for their new home.

What a unique home it was. It even had a tunnel leading to his new wine cellar and saloon, The O.K. Saloon, across the narrow street from the O.K. Corral. It was perched high on a steep mountainside and completed in 1907. The large dwelling with its seven-arched arcade was enhanced by architectural flavor of Caretto's homeland. He adorned it with chandeliers and furniture imported from Italy.

Caretto made a fortune from the saloon business. He entered into a partnership with Joseph Muheim and the Dubacher brothers and errected the Pythian Castle, Brooks Apartments and the Brewery Building.

Today, tourists photograph and artists sketch these examples of "turn of the Century" architecture. Caretto's wine cellar has been restored and his home still stands overlooking the town. Next to the wine cellar, which was built into the mountainside, stands an old jail house.





PLEASE DON'T SHOOT THE CUYUNAS

By CAL WOODS

I have always taken at least a passing interest in the origin of the names of Minnesota places. Minnesota has three iron ranges; The Vermillion, The Mesabi, and the Cuyuna Range. The smallest of the three and the last one discovered is the Cuyuna. I had always beleived that "Cuyuna" came from the name of a sub-tribe of Minnesota Ojibway Indians.

In reading Indian History I had observed the various tribes of Minnesota Ojibways as the Sandy Lake Tribe, The Leech Lake Tribe, The Red Lake Tribe and the Mille Lacs Lake Tribe, but I could not remember having seen mentioned the Cuyuna Tribe. In my mind's eye I could see a hundred Cuyunas coming over a rise, and attacking their deadly enemies, the Sioux, but my histories were always without mention of the Cuyunas.

When I started collecting trade tokens I acquired a Cuyuna, Minnesota token which I found to be a little mining town in the middle of the Cuyuna Iron Range. My token was not a very old one, having been issued by a Charles Peterson who ran a tavern in that town for a few years around 1940.

To learn something about the origin of "Cuyuna" I decided to dig into the history of the Range itself. In the early 1890's, before the Cuyuna Range had been discovered, A Mr. Adams from Deerwood, Minnesota believed that there must be some iron in the vacinity of his home, and he decided to go about looking for it. Now, prospecting for iron is not done with a mule and a pick and shovel. You use an electro-magnet.

Adams did just that. He and his dog took off through the wilderness of Aitkin and Crow Wing counties with a map and his newly purchased electro-magnet, with plans to find iron ore. There were no rock outcroppings in that area such as there were in the Mesabi Range, so he could only read his magnet and mark the map. He had his dog with him for complanionship. They tramped the wilderness until 1895 before they found the iron deposits deep below the glacial drift.

At that point Adams was discoverer, prospector, and sole owner of the mineral rights of his newly discovered range of iron. But, of course, the range needed a name, and he felt that he had the right to name it. He chose his first name, Cuyler and his loyal dog's name, Una, and combined the two to name it the Cuyuna Range.

This is why my trade token says, "Cuyuna, Minnesota", and how old Cuyler Adams came to name his range. This is also what happened to our imagined friends, the Cuyuna Indians - - they faded away into the sunset. For the interest of all trade token collectors, I include a rubbing of my token that carries this interesting story.

Chas. Peterson/Cuyuna, Minn.

SOUTH DAKOTA CCC CAMPS

By Clem Zambon

Fort Meade, South Dakota was the headquarters for the CCC Camps in 1933 and at that time the 4TH U.S. CAVALRY was stationed at Ft. Meade.

The Camps were as follows:

756... Hill City, South Dakota
757... Custer, South Dakota (One of the oldest camps in the U.S.) Camp Tigerville
760... Mystic, South Dakota
765... Hill City, South Dakota
766... Hill City, South Dakota (Oreville)
789... Nemo, South Dakota (Estes)
790... Custer, South Dakota (Haselrodt)
791... Hill City, South Dakota (Horse Creek)
792... Roubaix, South Dakota - Moved to Savoy-Spearfish in 1935
793... Hill City, South Dakota
796... Pierre, South Dakota
1783... Custer, South Dakota (Pine Creek) Formerly Keystone, South Dakota
1784... Tilford, South Dakota (Calcite)
1789... Pactola, South Dakota
1790... Mystic, South Dakota-Formerly Rochford, South Dakota
1791... Custer, South Dakota - Camp Vestal Springs - Elevation 6,200 feet
1792... Custer, South Dakota - Mayo
1793... Custer, South Dakota - Formerly Keystone, South Dakota (Pine Creek)
1794... Rapid City, South Dakota - (Rockerville)

2767... Camp Crook, South Dakota
2770... Huron, South Dakota
4723... Martin, South Dakota
4726... Chamberlain, South Dakota
4725... Alcester, South Dakota

Notes: Additional Camps from other sources:

Junior White Companies

762... Custer, South Dakota

Other Notes:
Many of these camps moved several times in South Dakota. The listings from above are (or were) the locations at the time of the available information.

Company 2765 was organized in Williston, North Dakota and then moved to Tassel Springs, Calico Rock, Arkansas where they were engaged in soil erosion work. In 1935 they moved to Camp Crook, South Dakota and one year later moved to Ft. Meade, South Dakota.

If others have information that will add to this South Dakota list it would be appreciated.

ARIZONA TOKENS: Rarer Than the 1804 Silver Dollar?

Peter Spooner

Token collectors outside Arizona might ask,"What makes Arizona tokens so popular?" Also, "What should I look for in Arizona tokens?"

Although I will attempt to answer these questions briefly, the explanation is much more complex. First, a quote that I found in an old Numismatic Journal: Dr. Benjamin P. Wright says "so rare are some (tokens) that the 1804 dollar, the dime of 1809 and the '99 cent 'are actually common in comparison.'" Most Arizona tokens were unknown until the early 1960's when Hal Birt, Jr. began to catalog them. Since then new unique Arizona tokens are slowly coming out of the woodwork. Each one of the major Arizona collectors, at some time, has contributed to the discovery of new Arizona tokens.

Because it is impossible to collect all of the Arizona tokens, collectors will specialize: one token representing a town, saloons, territorial ghost towns, Indian traders, military, or all of one particular town, etc. Each one of these areas interrelate, therefore the competition for one unique token is fierce. The active Arizona token collectors do not wait for tokens to come to them, they go out and seek new tokens in unlikely areas. With a current catalog available and an active base of support, it is certain that a popular market has developed.

Some Arizona token collectors think that if the token says "A.T.", it is highly desirable. Recently the popularity of unique or rare tokens has diminished this opinion; in fact in some instances they have outperformed the A.T.'s. What to look for in an Arizona token is history. Most Arizona token collectors agree that the early 1880's style token, or incused brass token, is highly prized. Combine this style with a rare town or saloon or A.T., and then you have a winner. Additionally, if the token says Arizona or has some derivation of Arizona on it then attribution is simplified. If it is a state maverick with the city name on it, the marketability is a bit difficult unless the town is one only known in Arizona, or can be proven to be in Arizona. This is also a problem with tokens having just a merchant's name on them -- until verified to be Arizona tokens, a question of doubt will linger. Naturally every collector wishes his maverick to be special.

So the final point that I want to make is the necessity of research. Get proof, then argue. Business directories or early telephone books are an essential first step. In searching for rare and desirable Arizona tokens, research the area, understand what towns or merchants are atypical to Arizona. And in understanding this history, you will be able to understand also the popularity of certain Arizona tokens.

New coin has economy of words, but not 'In Reagan We Trust'

By Jack Croft
[illegible]

HOCKESSIN, Del — Many U S. presidents have commemorative coins cast as souvenirs after their years in the White House But a carpenter here believes that President Reagan should not have to wait that long.

John F. Brunhammer has spent $5,000 of his own money to mint the first "Ronald Reagan Coin" On its face is a caricature of Reagan, under which is inscribed the motto "Good for Nothing"

The creator of the coin said the motto was not solely a commentary on the monetary value of the coin, which is made of aluminum

"This is the way I really feel about Reaganomics — what's on the coin," Brunhammer, 35, said.

Brunhammer has been selling the coin and a matching key chain for $3 45 and $3 95, respectively He said he got the idea last fall, after months of reading news accounts of the nation's worsening economy

"He came home from work one d
and said, 'I'm going to make ar
employment coin,'" Brunhar
wife, Sue, said during an inte
their home in Hockessin, in
western New Castle County

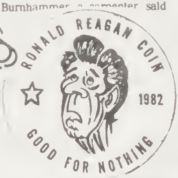
"So I said Why don't you make a Ronald Reagan coin? Good for nothing' And we went from there

"When things get too bad you have to be able to laugh a little," she said

'Good for nothing' chain mocks Reagan

HOCKESSIN, Del — John Burnhammer believes he has a marketable item in a key chain that mocks President Reagan. But a lot of people aren't laughing. "I've already been thrown out ' one store because some of the people took it the wro ''," Burnhammer, a carpenter, said
Thursday. The
caricature c
nothing." T'

Reagan-inspired item said 'good for nothing'



An amusing look at our President... wait until you see the other side...no coin like it in the world.

WANTED

I am seriously collecting in the following categories and will pay TOP MARKET PRICE for tokens in these fields. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think may be of interest to me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

ALASKA TOKENS - cataloguing $50 and up in Benice. Will pay $3500 for the 1st McCarthy Alaska gold nugget token offered me (cats $500). Paying $3000 for the 1st Willis & Welch Chatanika Alaska shellcard offered me.

NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100 to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-fors. Any and all except for the most common. There are N.M. tokens worth over $100 to me.

TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr (A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction outbidding the most prominent buyers on the market.

POST TRADERS - any old good-for saying "Trader" or "Post Trader"

WESTERN STATES' GOOD-FOR MIRRORS (Colorado on West) - with pictures of the proprietor, fancy women or children on them. Paying $100 and MUCH MORE, depending on the state and the mirror.

SALOONS and OLD MILITARY TOKENS - Mavericks or attributed. Paying top dollar. Also Texas large nickel pictorials (compare me with some of your Texas buyers) and good-fors picturing elephants.

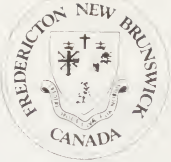
FREDERICTON TRADE DOLLARS

by

G. Neil Sneyd



The Old Arts Building on the University of New Brunswick campus in Fredericton in New unswick, Canada, is depicted on the obverse of the 1983 Fredericton Trade Dollar. The Coat Arms of the City is shown on the reverse. This is the fourth trade dollar to be issued by e Fredericton Chamber of Commerce. The City has a population of approximately 44,000.

The Chamber had 15,000 specimens struck by Sherritt Mint on 33mm blanks in nickel bonded eel. They will be available April 1, 1983, from the Chamber of Commerce, P.O. Box 275, Fredicton, NB, Canada, E3B 4Y9. The 1983 Trade Dollar will also be minted in Antique Bronze, Gold ate and silver. Previous issues available are, 1982 City Hall, 1981 Christ Church Cathedral, 80 Legislative Building, and a Royal Wedding Medallion.

The Old Arts Building at the University of New Brunswick is the oldest college building in e country still actively used for university purposes. The Building was originally constructto house King's College, a forerunner of UNB. An even earlier institution known as the llege of New Brunswick had operated out of a house in downtown Fredericton. However, in 1823, en the New Brunswick Legislative requested that a King's College be chartered in Fredericton ey also granted a sum of 1,500 for the erection of a permanent, stone edifice to properly comodate the school.

In 1859, King's was re-chartered as the University of New Brunswick. As it grew in student mbers, course offerings, and staff, the building became increasingly cramped. In 1876, a local rm completed the construction of a mansard roof, thus providing a third storey expansion to commodate a chemical lecture-room, working lecture rooms, other rooms, and a museum and library.

The Great Hall of the original college building and the adjoining chapel were the scene of l ceremonial occassions during the years UNB was known as King's College. The official openig took place there and on June 24, 1830 the first Encaenia was held there. Convocations in the ll, graduations in the spring, and even discussion evenings and literary and musical entertainents were held there for years.

Today, the building is occupied by administrative offices and the Faculty Club. In the reat Hall are portraits of past presidents and two memorial stained glass windows. Immediately the left of the front entrance is the Edwin Jacob Chapel, named in memory of the Vice-Presinet and Principal of King's College. A permanent display illustrating the history of the niversity is located in the Great Hall. It includes the cornerstone of the Building, laid in 325 and excavated in 1978 prior to the sesquicentennial celebrations.

---

ost of this copy has been extracted from articles researched and written by Linda Squiers ansen for several University of New Brunswick publications - the 1978 esquicentennial rochure King's College and "A Backward Glance" columns in Alumni News (Oct. and Dec. 1981) nd UNB Perspectives (Dec. 1981 and Jan. 1982).

I'm writing this part of my page on the 27th day of April because I got what sounds like a super idea and I want to get it on paper.

ATCO TOKEN MEETING IN DENVER, COLORADO IN OCTOBER

HOW DOES THAT GRAB THE MEMBERSHIP????

I got a nice letter from Clay Welty who stated that he would handle the meet in Denver in October if agreeable with a large number of the members. I like Denver and the time of year is right for me, but I am not the membership.

Getting someone to handle such a meet was the big job and we have a good capable person to do it!!!!

NOW, RATHER THAN MEMBERS WRITING TO ME ABOUT IT I WOULD LIKE ALL CORRESPONDENCE ON THIS DIRECTED TO CLAY WELTY. FROM THE RESPONSE HE WILL DETERMINE IF IT IS FEASIBLE. HE, THEN WILL KEEP ME INFORMED SO I CAN MAKE NOTES ABOUT PROGRESS IN COMING ISSUES OF ATCO.

TOO, OCTOBER IS INDIAN SUMMER IN DENVER AND A BEAUTIFUL TIME OF THE YEAR THERE.

LET CLAY KNOW YOUR THOUGHT AT:

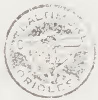
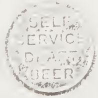
THE BALTIMORE ORIOLE SELF SERVICE DRAFT BEER TOKEN

By Will Depfer

Before the opening of the 1965 baseball season the Baltimore Orioles and the National Brewing Company had purchased eight token operated self service beer dispensers from the Texas Instrument Company. These dispensers were installed in section four at the Baltimore Stadium. They each had a tapped keg attached to them plus each had a keg in reserve. All a thirsty fan had to do is go to the cashier and for each 50 cents he received a self service beer token. He then took his token behind a cage, and when he inserted it in the dispenser he got 12 ounces of beer in a 16 ounce paper cup. The larger cup was to prevent spilling any beer on the way back to his seat.
Going behind the cage was unpopular with the fans, so after only three seasons a more conventional system of dispensing beer was inauguarated. Of course not too many fans decided to keep their token instead of redeeming it for beer; so now baseball, beer, and Baltimore collectors search out the available obsolete tokens from another noble experiment.





LETTERS TO THE EDITOR:

Dear Bill: It would be interesting and valuable if somebody would print a list of token catalogs that are avialable for purchase, with the address where they can be bought, and a brief description of contents, etc., whether there are price and/or rarity lists, etc.

Don Kaye.

Editor's Note: Maybe one of the dealers who deal in these books could send a one page listing of what he has for sale.

* * *

Dear Bill: I wonder what the membership would think of an award as an incentive for members to write articles for ATCO. Maybe the membership could vote at the end of each year for the best article????? Or, a committee could be appointed to judge the articles????

Lee Bowker, ATCO #111

Editor's note: I think that it would be great. I like the committee idea but that does not rule out a membership vote. A membership vote could be on the basis of sending in a vote for the article they thought best. The article that drew the most votes would be the winner. In fact, the votes, when called for, could be sent to the ethics committee. What ever???

* * *

SPECIAL NOTICE:

FREE NEW PROGRAM FOR JUNIOR COLLECTORS: Maryland Amusement Token Collectors Assn. now offers to any junior collector between the ages of 8 and 14 an invitation to join their association. Each of them will receive a membership card, membership token, three (3) different types of collectable tokens, plus a special token issued for them every year. All of this is free of charge to junior collectors. Those interested are asked to send a note or letter stating their name, address and age to:

M.A.T.C.A., P.O. BOX J, BALTIMORE, MARYLAND 21228

* * *

DEAR BILL: I WOULD LIKE YOU TO RECONSIDER YOUR ATCO BIDDING RULES TO LOWER THE HIGHEST BID TO 10% OVER THE SECOND HIGHEST BID. IT SEEMS TO ME IT IS MORE FAIR TO BOTH THE BIDDER AND THE OWNER.

BOB SVOBODA - - -

(Editor's Note: Thanks for your suggestion Bob. It is up to the directors and the ethics committee as it was they who made the rules. If they want to change them it is O.K. with me.)

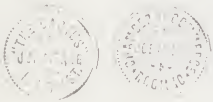
The Value of Directories

By Ed Saunders

I have been trying to pin a token for years, just reciently brought some listings of Portland Saloons from the 1880's to 1915 .... Was looking under the name Henry R. Eaton , first found refrence to the man in 1912. so later decideded to see if I could pin him to the dates he ran the business... this proved to be very interesting. I found him first in 1912 -13, then nothing in 1910-11, picked him back up in 1909. So followed him out up into 1900. By doing so it through light on a token I have been trying to pin ever since I got the token. It look more like an Arizona pc. but was supose to be Portland, Lew Agnew said it was Portland, and had another pc. sinular to the one in question. Lets take the older token and follow both businesses up until we have answered both questions.



We start back in 1891 with no listing found here or before, In 1892 we find Joseph McKee listed at 125 6th. But no business name, but from the token this would have to refer to The Cactus (Saloon), all these listings are found under Saloons. 1893 Same listing. 1894 we pick up the other business Chamber of Commerece (Saloon) in Room 10. Here is the listing.

McKee, Joseph , 125 6th and 10 Cham of Com (Both Businesses) 1894- 1901

Now we can find no more refrence to Joseph McKee , but we start to pick up on the name Herry R. Eaton and see the connection between the two tokens. We Will find this to be quite intresting.

THE TRAVAILS OF TOM TUPPER AND THE TRAVELS OF TWO TOKENS

-E. Donald Kaye-

KAYSER'S
TELLURIDE
COLO.

Back near the turn of the century, mining in Colorado and its neighbor states (some of the latter still territories) was in full swing, and it took strong men to man the drills and swing the drift picks.

One of those men was Tom Tupper, who was strong but - regrettably - not very nice. In fact, he spent almost as much time in jail for breaking up saloons as he did in the mines, and he was kicked out of a lot of places, first the bawdy houses, then the saloons, and finally the towns.

Well, ol' Tom was in a lot of places, and when he was kicked out of Telluride, Colorado (known then as "To Hell You Ride" because of people like Tom) he went to La Plata City, Colorado, where - you guessed it, they mined silver. Well, it wasn't too long before history repeated itself and Tom was kicked out of La Plata City also. What did he do? He went to Arizona territory where they needed miners - first to Globe to work the copper mines, and then to Bisbee for the same work. After Bisbee..... who knows? But Tom kept rememberances of past towns, and lost some every time he moved.

Tom had a token from Kayser's (Diamond Saloon) in Telluride, Colorado, an establishment for drinking men that was run by Charles B. Kayser from 1884 to 1906. Ol' Tom pitched this token out in Bisbee while in a maudlin mood. While in Globe, in a similar mood, he pitched his memory of La Plata City, in the form of a token from Frank Roger's saloon, another establishment for the thirsty that thrived between 1909 and 1914.

Now I must admit that Tom and his story are fictional, but the saloons were and the tokens are real. Until the Rogers token was dug up in Globe, La Plata City, Colorado was not known to have produced any tokens. As far as I know, the Kayser's token, dug up in Bisbee, is the only token known from Kayser's Diamond Saloon. It is interesting to speculate how those tokens did travel to Arizona, and under what precise circumstances they were discarded or lost. Since I invented Tom and his story, it isn't likely that those tokens got to Arizona as I have told, but maybe the story isn't too far off. One thing is certain. We'll never know.

LA PLATA CITY

A MAN, A BURRO & A VULTURE By: Jerri Garland

Vulture Mine, Wickenburg, Maricopa County, Arizona

Henry Wickenburg followed the lure of gold from his native Austria to the wild West of the United States. For ten years he searched for the elusive vein that would make him rich. Somehow it was always just beyond his reach.

Wickenburg missed the chance of a lifetime when he learned that the celebrated Peeples-Weaver party had just embarked for Arizona. Wickenburg raced after them and did indeed catch up--just after they hit their great strikes at Weaver's Gulch and Rich Hill. The "big one" had eluded him again.

Discouraged, the prospector and an unnamed companion took to the road. The companion became ill and was forced to return to camp, leaving Wickenburg to continue the search. He was alone.. a stranger in these parts, thousands of miles from home..with ten years of searching, always hoping, never succeeding.

Now, to top things off, his burro was growing balky. Wickenburg had a desert to cross, but the animal was moving more and more slowly..slowly..until finally it refused to budge another step. A circling vulture landed nearby, eyeing the stubborn burro. Frustrated beyond endurance, Wickenburg picked up a rock and hurled it at the vulture in disgust.

The rock split open. Wickenburg had discovered gold!

The first gleaming nugget was traced to a rich lode nearly 15 feet wide. Wickenburg's partner put no faith in the prospector's story, so Wickenburg returned to develop the claim himself

The mine, naturally named the "Vulture", became one of the richest producers in the area. The only drawback was the absence of water nearby, so the ore had to be washed in the Hassayampa River 12 miles away. Many men were killed by Apaches during their trek to and from the river.

With grinding devices constructed, Wickenburg went into the business of selling ore on a cash-and-carry basis. For $15 a ton, a man could mine his own, transport it to the river and mill it for whatever he could get. It was a popular proposition, and men flocked in from miles around to take their chances.

The ensuing rush continued until all the easily accessible, high-grade ore was taken. At this point Wickenburg sold a 4/5ths share of the mine for $75,000 to a Philadelphian, who built a 40 stamp mill nearby.

The Vulture Mining Company operated steadily from 1866 till 1872. During this time it produced $2.5 million in gold from 118,000 tons of ore, not including the gold smuggled out by "high-grader" miners, who loaded their pockets and lunch pails with whatever they could carry home.

The rich lode petered out, but the large quantities of low-grade ore which had been passed over earlier became profitable. The ore was in such demand that buildings constructed of the old mine-dump rock were torn down to be milled for whatever they might contain. Then there was nothing left to mine, and the Vulture faded into history.

Named for the Austrian prospector whose stubborn burro attracted the vulture, the town of Wickenburg still flourishes some 53 miles northwest of Phoenix.

ANOTHER TALE OF TWO CITIES

By

F.A."Fritz)ROHRMAN

One of the pleasures of collecting tokens is that of attributing the location of a maverick token.

Some time ago I acquired an old copper token that read-"Clasbey and Hogle/Good for/A/Drink" Chalis City,all lettering incuse and on the obverse.It appeared at the moment that it might be from Idaho because there is a Challis,Idaho. Initial inquiries from several Idaho token collectors resulted in no help as to the Chalis City -Challis connection.

An inquiry was made to the postal department in Salt Lake City. At about the same time I noticed the identical token pictured in Campbell's Tokens of Utah,the only difference was Salt Lake City in place of Chalis City.Upon contacting Harry Campbell regarding this token,he was able to offer the information that he had previously found that a James E.Hogle,who is a prominent business man of Salt Lake City,professed to be the son of the Hogle of Clasbey and Hogle and that he was sure that his father had a business in Challis,Idaho in the late "eightees or ninetees".Mirabile Dictu.Now,we were getting somewhere! At about this same time a letter came from a Mr.Earl R. Perkins of the postal department who suggested that Chalis City was Challis. He further offered the infromation that the Centennial issue of the Challis "Idaho Messenger" of May 21,1981 reprinted the May 21, 1881 issue which contained a block advertisement of Clasbey and Hogle inviting the resi dents of Challis to thier saloon.

It should be evident that Chalis City predated Challis because the Idaho Messenger was published in Challis rather than Chalis City. It is quite possible that Chalis City changed its name to Challis much like so many of the cities and towns of Idaho and Oregon such as Boise City to Boise,Baker City to Baker,etc,etc.

Two questions still remain,when did Chalis City change its name to Challis and who was Chalis or Challis?A number of attempts were made though the city of Challis,the County,the newspaper,historical documents and other possible sources of information without success.In most cases the queries went unanswered dispite addressed and stamped envelopes.

Since Idaho achieved statehood in 1890 the token in question is a territorial and must be considered as quite scarce.It is quite possible that the token was issued some time between 1870 and 1880.

The photo of the token and the reproduction of the paper ad are presented for further verification.

THE HERMITAGE SALOON

By Jinks Livingston

The Hermitage Saloon in Brewery Gulch, Bisbee, Arizona was operated by James York, also known as "Diamond Jim" and "Cockeyed Jimmy". It opened around 1900 and continued to operate through prohibition and into the thirties when James York went to Nevada.

He was one of the last of the old time gamblers. He wore leggings and a top hat, and a diamond ring thk size of a golf ball. His poker chips and tokens were marked with his own design in the center. The game of "Pan" originated in Brewery Gulch .

On the back of the A.T. token is a picture of the "mule with the Irish brogue". It served as a warning for fair play at the saloon.

One of the mule skinners in the underground mine had been cheating the other miners at poker in the Hermitage. One of the miners, who was an amateur ventriloquist shook the card cheat up by making him think his mule was talking to him.

The mule told him how he had been taking advantage of his fellow workers. The cheat quit the mines and left town.

Every Token Tells A Story

by

Don Valenziano Jr.

Recently I have been able to date another interesting token from my Chicago collection. The obverse reads, TALK WITH/CARMACK/ABOUT/STATE MUTUAL/GOLD BONDS/85 DEARBORN ST./CHICAGO. The reverse is a truncated representation of Gearge Washington.

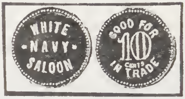
The 1910 Lakeside directory lists Edgar H. Carmack as a general agent doing business at 85 Dearborn, Room 202 and living at 150 E. Superior. For 1911 his business address is given as 122 S. Michigan Ave.

Further, Mr. Carmack is included in the Chicago Daily Journals' 1910 edition of Notable Men of Chicago. Again he is listed as a general agent for the State Mutual Assurance Co. of Worcester, MA. Born July 10, 1852 in Monongahela, PA and graduated from Western University in Pittsburg, PA. At the time of publication he was also President and a Director of the Abstract Safety Vault Co., and a Director of the Congress Hotel Co. He was also listed as a member of many prominent organizations.

To paraphrase a popular TV series from the early 60's, There are many stories in the "windy city" and this has been one of them.

The "White Navy Saloon" Tokens of Skagway, Alaska

Aluminum



Circa 1898

When wrecking crews uncovered a large oil painting of a battleship beneath the siding of an old building recently, citizens of Skagway gaped, and went scrambling through early-day photos and records... Details of the town's colorful past are near and dear to its present day residents, and the picture was the kind of mystery that nagged at them.

Beside the painting were the words,"The White Navy", and the clear signature of the artist, Sengfelder. Old timers remembered the artist as one of the early-day Skagway sign painters. But as far as they could recall, the building had stood empty and unused since the death 50 years ago of S. H. Yeoman who ran a second hand store there. And they couldn't think of any possible connection between "The White Navy", and Mr. Yeoman........

But finally Carl Mulvihill, dispatcher for the White Pass & Yukon Railroad, and the town's unofficial historian, found a picture of the old building in his extensive collection of old photos. It was taken by H. C. Barley in November of 1898, and showed that The White Navy was the name of a liquor store, located at that time on the corner of 4th and Broadway, right next door to the Pill Box Drug Co.(Buy your hangover at The White Navy, and your aspirin at the Pill Box !!) On either side of the store entrance were the words "Pure" and "Liquors".

A second photograph, taken in 1899 by the same H. C. Barley, showed the painting, which turned out to be the battleship Iowa, on the 4th street wall of the building. By that time, Mr. Barley evidently had either purchased or rented the building from the White Navy to house his photo shop

About 1900 the old White Navy, and the Pill Box buildings were moved to State street as the business district rearranged itself closer to the W. P. & Y. Railroad depot. Not to long after that, the painting was covered by new siding and forgotten. Somewhere along the line, a window was cut through the old wall and new siding, taking the bow of the battleship with it..... But when wrecking crews peeled down to the original building, Paul Sincic, curator of Skagway's Days of '98 museum, was right on hand to save what was left of the painting. He plans to reconstruct the wall for display at the museum.

The above article in part, appeared in the May, 1964 issue of the Alaska Sportman magazine.... Reprinted by permission of the Publisher ....

BLOOMING PRAIRIE ..... FROM PROHIBITION TO REPEAL

By CAL WOODS

I doubt if there is a Minnesota collector who does not have one or two tokens from the southern Minnesota town of Blooming Prairie. It was never a large town, having a population of 500 in 1914 and growing to about 1,000 in 1922. It has always seemed to be a clean, prosperous farmer's trading center with the usual number of bars and pool halls. Only very recently did I learn a little bit about it infamous past.

Most of us think of the beginning of Prohibition as the immediate closing of saloon doors. Not so in the little town of Blooming Prairie. The two-fisted drinkers had no intention of letting any outsiders interfer with their recreation. The Fed's finally ordered the state militia to Blooming Prairie by train to lock-up the saloons. The night after their arrival, the troops were helped back onto the Northbound train, nearly dead drunk, for their trip back to St. Paul. The citizens of Blooming Prairie continued to enjoy their recreation at one of the four saloons in town. The militia did not arrive in St. Paul with a hero's welcome.

Eventually the Blooming Prairie saloons were closed by the federal government, enforcing the Volstead Act of 1918, and the town was now dry. It was one of the last towns in Minnesota to go dry. But, Blooming Prairie had long range plans. They constructed and began operating an alcohol manufacturing operation. "The Still" was enormous, located in an old barn about seven miles west of town. It pumped out 1,800 gallons of grain alcohot each day. Some of this was consumed locally, of course, but larger amounts were trucked to Minneapolis and St. Paul, and the largest quantities were trucked in 55 gallon steel drums to Baraboo, Wisconsin. This was a major bootlegger's distribution point which shipped to Milwaukee, Chicago and other major cities in the midwest.

Locally, one bootlegger bottled 55 gallons a week in half pints and pints, and every Saturday night he wheeled his Whippet car into a stable where he sold his alcohol out of his car at $1.00 a pint. There was at least eight to ten places around town where a pint could be purchased. With three trains stopping at Blooming Prairie every day many buyers came for a load of bottles and took off for home territory. Local Merchants pedled suitcases at the train station to the buyers who needed something to carry the alcohol in.

Even the town kids got into the act, picking up empty bottles which they sold back to the bootleggers for 5¢ with a cork and 3¢ without a cork. Most everyone in town benefited from the bootlegging operations, and they did not consider themselves as "Crooks". They were just trying to make a living in those otherwise hard times.

Federal agents looked long and hard for "The Still" and even employed an airplane to try to spot the fumes coming from it. "The Still" was well wired with alarms, so when the feds finally did find and raid it, all the principals and employees escaped through a tunnel that lead into a slough.

This operation has been one of the best kept secrets in Minnesota, and even now the names of the people involved are not known except by relatives who are still alive.

Early in 1933 legal liquor began to move again with the repeal of Prohibition, but the saloons are gone.

I am seriously collecting in the following categories and will pay TOP MARKET PRICE for tokens in these fields. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think may be of interest to me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

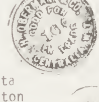
NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100 to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-fors. Any and all except for the most common. There are N.M. tokens worth over $100 to me.



TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr (A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction outbidding the most prominent buyers on the market.

1) Mail Bids close the 15th of the month in which the sale appears in ATCO, unless otherwise noted.
2) Bid by lot number(s)
3) Bid the amount you are willing to pay!!!
4) Bids will not be reduced!
5) Postage and insurance will be added to successful bids.
6) Payment due on receipt of invoice and/or lot(s).
7) Five day return privilege if lot misrepresented by holder of auction.
8) Any changes in these rules must be explained to the bidders by the holder of the auction. This explanation shall be made prior to the beginning of the same (prior to the first lot offered). Such as: ATCO rules except ....
9) HONOR YOUR BIDS. IF YOU BID, HONOR YOUR BID. DON'T MAKE THE "LIST".

SPECIAL NOTES: 4 page limit on advertising per issue, per member. This allows all the members to advertise without someone taking all the space for a huge ad.

Closing date: When we reach 68 pages. We go to the printers on the 20th, unless it falls on a week end and then the Friday before the 20th.

FREE ADS: FOR ALL MEMBERS (ADS MUST BE CHANGED EACH MONTH) .... 40 WORDS

EDITOR'S PAGE:

WELL, AS PROMISED, I'VE RAMMED EVERYTHING IN THIS ISSUE THAT I COULD. IT IS LOADED!

ONE THING THAT I'M PROUD OF THIS MEMBERSHIP FOR IS THE ARTICLES THAT THEY SEND IN. ALL I HAVE TO DO IS HOLLER WHEN WE GET SHORT AND THE ARTICLES POUR IN. SOME OTHER GROUPS MAY HAVE TROUBLE IN THAT AREA - - -WE DO NOT!!!

WITH THIS ISSUE I'LL HAVE A LITTLE VACATION REST AND THEN BACK AT IT. PLEASE DO NOT WAIT UNTIL THE AUGUST 19TH DEADLINE (THE DAY WE GO TO THE PRINTERS FOR THE SEPTEMBER ISSUE) TO GET YOUR ADS AND ARTICLES IN. IF YOU HAVE THEM READY, SEND THEM. WE WILL BE BACK TO A 68 PAGE LIMIT WITH THE SEPTEMBER ISSUE AND IT WILL BE FIRST COME FIRST SERVE. AS I HAVE MENTIONED, ABOUT EVERY THIRD ISSUE WILL BE A BIG ONE.

SOME OTHER BUSINESS!!!

1) THE DIRECTOR'S HAVE STATE: "NO CHANGE IN THE ATCO MAIL BID RULES"!!! THEY BELIEVE, AS I DO, THAT THEY DID IT RIGHT THE FIRST TIME AND THERE WILL BE NO CHANGES!!!

2) SOME WHO RUN MAIL BIDS HAVE STATED THAT BIDDERS SEND IN BIDS WITH JUST A SIGNATURE ON THEIR BIDS - - NO ADDRESS, NO CITY. IF ONE WHO RUNS A BID DOES NOT KEEP THE ENVELOPE HE HAS NO WAY OF KNOWING WHO MADE THE BID OR WHERE HE LIVES. SO, PUT THE FULL NAME AND ADDRESS ON YOUR BID SHEETS!!

3) LET'S GET NEW MEMBERS!!!! THERE IS NO REASON WHY WE CANNOT REACH 1,000 MEMBERS BY 1984 IF WE ALL GET A NEW MEMBER EACH!!! JUST ONE MEMBER EACH WOULD DO IT. AND, I AGAIN WISH TO THANK BARY BENDER. HE SENT US THE METCA MAILING LABELS AND WE MADE A GENERAL MAILING WHICH BROUGHT IN A NUMBER OF NEW MEMBERS. BARY STILL HOLDS THE RECORD FOR THE MOST MEMBERS GAINED BY ATCO.

ATCO TOKEN MEET PLANNED FOR DENVER FOR OCTOBER 29TH AND 30TH.

CLAY WELTY HAS ASSURED US THAT THIS IS INDIAN SUMMER IN DENVER (shirt sleeve weather).

A number have sent letters to Clay stating that they will attend, but many have failed to do so. Please, even if just a card, let Clay know if you will attend.

ALSO, AND MOST IMPORTANT, CLAY NEEDS TO KNOW WHO WANTS TABLES?????? A FIGURE IS NEEDED TO MAKE PLANS ON HOW BIG A ROOM TO GET FOR THE MEET. PLEASE LET HIM KNOW AS SOON AS POSSIBLE.

WRITE: CLAY WELTY, 8410 WEST 108TH, BROOMFIELD, COLORADO 80020

SPECIAL NOTE:

OUR PRINTER CALLED AND IS GOING TO BE ON VACATION STARTING TOMORROW AND ASKED IF WE COULD CLOSE ATCO AS OF TODAY AND GET IT RIGHT IN. SHE HAS BEEN DOING ATCO SINCE THE BEGINNING AND YOU WILL NOTE THAT SHE DOES QUALITY WORK. IT WAS EITHER GO TO THE PRINTERS TODAY OR WAIT FOR 10 DAYS UNTIL SHE GOT BACK. THAT WOULD MAKE ATCO LATE AND WE HAVE NEVER MISSED AN ISSUE DATE. SO, SOME WILL BE DISAPPOINTED IF ADS ARE RECEIVED TOMORROW - - -THEY WILL MISS THIS ISSUE. THEY WILL HAVE FIRST PRIORITY IN THE SEPTEMBER ISSUE.

SO, HOPEFULLY, THIS WILL NOT CAUSE TO MUCH PROBLEM. WILL SEE YOU ALL WITH THE NEXT ISSUE - - - GET YOUR ADS IN EARLY!!!!!

LETTERS TO THE EDITOR:

Dear Bill: Binky shouldn't feel bad. I've been a day late and a dollar short all my life.
Lloyd Andries

* * *

Dear Bill: Do you have a works in progress column listing the research efforts that people have under way? Giving address, etc. and what information data, etc. that they seek to move their studies along?

Dana Roberts

Editor's Note: Not as such Dana, but we do print these efforts when the different collectors let us know what they are working on, and what information they are requesting from the various collectors. Maybe your letter will get a little more attention along this line.

* * *

Dear Bill,

I'm writing in regard to Mr. Svoboda's suggestion of changing the mail auction rules to lower the highest bid to ten percent over the second high bid.

It must be kept in mind that these are small auctions being limited to the membership of our organization, and cannot be compared to mail auctions conducted by large auction houses with participation that runs in the thousands.

In reviewing my records of the three mail auctions I've had in [illegible] plus a couple in [illegible]LTCA, I find that in too many cases there have been too few bids on many of the lots to make an accurate valuation of a token.

The point I'm trying to make is this: Suppose I have a token listed in my auction that I paid $8.00 for and I receive two bids on the lot. #1 is a ridiculous bid of $1.50 and #2 bids $12.00. Results: A loss to the seller and a steal for the high bidder.

This example is not hypothetical. There has been a rather high percentage of unrealistic bids in all of my auctions and I'm sure that I'm not alone.

Before any action on a rules change takes place I urge the directors and the ethics committee to get opinions from the members who pay $15.00 per page to list their tokens in [illegible] mail auctions.

As far as I'm concerned, I won't give an advantage to high bidders with unlimited funds. If they elect to bid extra high to be assured of winning desired tokens, then they will have to pay the price. No reductions.

Sincerely,

[illegible]

LETTERS TO THE EDITOR:

I would like to see a listing of Chas. Pick tokens much like that of Lloyd Wagaman. I would also like to see a history of the Chas. Pick tokens in ATCO. What is the age of issue dates of the tokens???, etc.

Could someone do this for ATCO?

William E. Hamm - -

Editor's Note. I don't have the time to do it but Lew Egnew, who also collects Chas. Pick tokens might wish to undertake this?????

TRAVELIN' WITH CAL - - DIAMOND DOTTY'S PLACE

By Cal Woods

In our Saturday travels around Minnesota in search of tokens back in the late 1960's, my wife, June, and I had encountered a wide variety of bars, taverns, general stores, antique shops, and junk shops, so nothing surprised us as we traveled from town to town. This particular morning we headed out Highway 12, west from Minneapolis and after a short stop at Delano we headed west again and about 50 miles out of town we wheeled the Chevy into the town of Montrose. Montrose was a quiet looking farming community of the type that had a couple of tavern to visit.

The first tavern we encountered was the Owl Club, which had the usual morning drinkers sitting around on bar stools, sipping their beer and chatting about the crops and the weather. The bartender willingly gave up a few octogonal brass 10¢ chips after I recited my mission. The local police man stopped in just then for coffee and looking over my samples of tokens as did a couple of the beer-drinkers, without comment. I thanked the barkeep for the tokens and joined June in the car. She was listening to the morning news on the car radio, and without looking up pointed to another tavern across the street. I gave her my Owl Club tokens and headed for Hank's Tavern. The place was empty but for Hank himself. He had some blue plastic 5¢ tokens which he pushed over the bar - gratis, and I left thanking him.

June said, "There is a place down the street." We swung the Chevy around and wound up in front of DIAMOND DOTTY'S. It looked like any other tavern but I knew I should not have gone there. The drive for tokens was irresistable. Three people were sitting at a table in the middle of the tavern floor, a buxom blond woman about 40 years old, no doubt Diamond Dotty, and two farmer types, playing cards. She said, "Sit Down". I did and she dealt me a seven-card draw poker hand. As I studied my cards she got up, drew a beer and pushed it in front of me.

There was no bidding your hand. If you lost you paid the winner 15¢. If you won you got 60¢. Dotty paid her loses with her red plastic 15¢ trade tokens. After 15 minutes I had won 90¢ and two Diamond Dotty tokens, finished two beers furnished by Dotty and left, thanking Dotty. Dotty was already busy dealing new hands but she took the time to slap me on the fanny as I passed by her.

In the car June was working on a crossword puzzle. She said, "you've been drinking-how was Dotty?"

JEAN FIELD//GF 5¢ IT

THE/CLASSY/INN//(Pattern)

NELLIE'S HIDE-AWAY/87½¢/CARBON, NEVADA// GF 87½¢/IM

ALL ARE BRASS, 22½mm, round, and of equal thickness. The suspected origin is California. All are XF or better and often stained. The Jean Field and Classy Inn pieces were probably made because of their tie with the Bordello interest in tokens.

IN THE NAME OF GOD & THE KING

United Verde Mine, Jerome, Yavapai County, Arizona

It was on the eighth day of May, in the year of Our Lord 1583, that Antonio de Espejo, Captain by Commission from the Viceroy of New Spain, proclaimed, "It is a mine of great richness. We will take possession."

At his order, two small crosses were constructed of poles and thong. One was set in the stope, and the other near the tunnel.

"Hernandez, Barreto, de Luna--your arms!" The three men made ready theirharquebuses. "In the name of God & the King," the Captain proclaimed. Briefly he prayed.

"Make ready. Fire!" Flame and smoke belched from the guns. The guide cried out and bounded away; the Indians who had followed the cavalcade scatered like quail.

This occurred 37 years before the Pilgrims landad at Plymouth Rock and 193 years before the Declaration of Independence.

Captain Espejo led his expedition into Arizona in 1582, traversing wild mountains and steep canyons high above a wide valley with an eastern wall of red sandstone carved by the elements into fantastic designs.

"Magnifico!" the Captain must have breathed. Thus was discovered by men of Spain the first evidence of what later became known as Cleopatra Hill and ultimately the site of Jerome.

When American prospectors arrived in 1876, traces of the old workings on the outcroppings were still visible. In one of the ancient stopes were found stone implements, and to the surprise of the prospectors who knew nothing of the Spanish visitations, a crumbling wooden cross.

Espejo's party was led by a breech-clouted young Indian, proud that he had been chosen to guide the white gods from another world The party included five horsemen dressed in the worn garb of Spanish soldiers; trailed by a pack mule and a ragged line of native Indians, whose curiosity about the visitors was stronger than their fear.

As the party climbed upward, tall and fragrant pines replaced the juniper, mesquite and cactus of the lower elevations. The guide paused and pointed to a pile of loose rock which had spilled over the slope.

"It is the mine," announced the Captain. "But small sign of riches here," declared the older of the Spaniards.

When a taper was lighted, the Captain ordered his aide into the tunnel where he broke several pieces of the glistening ore from the wall.

Three centuries later, Al Sieber stopped long enough to stake a claim. He named it "Verde" because of the green stain that first had attracted his attention.

Senator W.A. Clark of Montana eventually developed the United Verde mine and made $60 million from it. He built frame houses for the miners with families, and an immense stone dormitory that held a thousand men. Jerome had everything, including fourteen saloons--but no water. At one point the townspeople granted a water-hauling contract to a future Mexican revolutionary, Pancho Villa!

Because of the water shortage, fires plagued both the town and the mine. Three times the people had to camp out on the hillside after their homes had burned to the ground.

"Rawhide" Jimmy Douglas (the son of Dr. James Douglas) developed a faulted portion of the United Verde ore body, much to Senator Clarks dismay. Douglas formed a company, called the United Verde Extension, which eventually made a profit of $42 million.

Both the United Verde and the U.V. Extension produced well into the 1930's. The United Verde was sold to Phelps Dodge in 1935 and the UVX ore gave out in 1938. Phelps Dodge mined the United Verde until 1953. During the 70 years of mining in Jerome, the big bonanzas produced almost $600 million in copper, silver and gold. As Espejo said, it was "a mine of great richness."

FROM SOUP TO NUTS

By Ed Saunders

When I first started collecting tokens I had a token given to me "Good For 1.00 or One Chinook." The token was used during a bridge dedication in the 1930's, I was told. I knew little about the piece. It was put out by Gold Beach Chamber of Commerce.

Another token that I have from Coos Bay, Oregon has a quite simular appeal. It is good for a free sample bowl of Clam Chowder.

We have often heard the saying from Soup to Nuts. This is a term that could very easily be labeled on tokens. The variety of Good For's make the field open to ones imagination. We can find tokens for a loaf of bread, a pound of butter, a quart of milk, a glass of beer, a shave, a shine, a drink of water, a Sonny Boy Cigar, a pack of cranberries, almost anything from soup to nuts.

So, if you are becoming bored with your collecting interests - - think Soup to Nuts an start another interesting part to your hobby.

COPPER QUEEN STORE

By Jinks Livingston

When mining first started in Bisbee, Arizona, ore was freighted by wagon over the Mule Mountains to the railroad at Fairbanks. From there it went by rail to Phoenixville, Pennsylvania for smelting.

Some investors put up money for a smelter in Tombstone Canyon. Phelps Dodge Co., operating under the name of Copper Queen Consolidated Mining Co., acquired the property.

In the early days of the West, it was usually the merchants and not the miners who got rich from the diggin's. Most of the merchants following rich strikes brought in shoddy merchandise and this merchandise at exorbitant prices. The customers had little choice for there was nowhere else to go.

Such situations began to develop in Bisbee, so in the mid-1880's, Dr. James Douglas, president of the Copper Queen and guiding light in the development of the mines and community, purchased a store and made it the company store. He bought large supplies of quality foods and merchandise and offered them at a fair mark up.

As a result, he set merchandising standards for the community that other stores had to follow or go broke. Copper Queen Co. was so successful that it made Phelps Dodge into the giant corporation that it is today.

Sometime around the turn of the century, the store issued this blue celluloid token. There are three known blue ones and one red. They are highly prized by Arizona Collectors.

A UNIQUE SALOON "GOOD FOR" FROM EL PASO

Richard D. Worthington

El Paso, Texas, probably has the greatest variety of unusual tokens of any U.S. city. Unusual pieces include a unique ivory die token, poker chip tokens, the spectacular bimetal Model Bar pictorial, the counterstamped Ben Dowell quarters, and others. For almost ten years I had known of an overprinted Mexican Revolutionary note from the Parlor Saloon. I followed the item as it changed hands from one collector to another and was eventually able to secure it.

The uniface note is a Chihuahua 25 centavos Tesoreria General Del Estado (General Treasury of the State) that bears the name Gral. Francisco Villa and is dated 10 Dec., 1913 (Pick Catalog 388B; Encyclopedia of Mexican Paper Money MI-CHI-14). The overprint on the blank side is as pictured in the illustration which is a reduced photocopy (actual size 124 x 61 mm). These notes were created to pay Villa's troops and were known popularly as "Villa's bed sheets." They were not popular with the merchants who were often forced to accept them.

The Parlor Saloon was established on the corner of South El Paso and San Antonio streets in the early 1880's. The saloon had entrances on both streets. The building still stands today. Already known from the Parlor Saloon are the lovely double pictorials with the El Paso Courthouse on one side and the Juarez mission on the other. The saloon changed ownership at least seven times till it ceased to be a saloon in late 1917 or early 1918. The proprietor at the time of the Punitive Expedition was Peter Kraber.

The day following the attack by Villa on Columbus, NM, on March 9, 1916, General Pershing was named to command an expedition into Mexico to pursue the attacking force. The first troops crossed into Mexico on March 15, 1916. The force never made any significant contact with Villa's troops, but the presence of American troops in Mexico brought pressure on the Mexican Government to reach an agreement with the United States to patrol the border. When the agreement was reached the expeditionary force began to withdraw from Mexico. The last troops crossed back into the U.S. at Columbus, NM, Feb. 5, 1917.

El Paso was a hub of excitement at the time of the Mexican Revolution. The overprinted note was probably given as a promotional gimmick in late March or April of 1916. Peter Kraber had just taken over the Parlor Saloon from James Lewis in late 1915 or early 1916. Overprinted Mexican notes with advertising on them are not unusual. The Parlor Saloon piece may be the earliest overprinted note and as far as I can determine is a unique "GOOD FOR."

The "White Navy Saloon" Tokens: Alaska or Seattle?

The article on page 12 talks about the White Navy Saloon of Skagway, Alaska, and attributes to it a maverick which just says "White Navy Saloon". That of course makes it an unlisted Alaska saloon token.

I think it's more likely that the token is from Seattle, Washington. The "White Navy Saloon" in Seattle lasted from about 1898 to 1909 at 1113 Western Avenue, as best I can tell without going out to the U of Washington to check their old Seattle phonebooks (which list business names rather than just proprietors). I have a 1907 phonebook which lists the White Navy Saloon by name there, and the '03 Polks lists the White Navy Restaurant at the same address. Under "saloons," Polks lists Anton Bace & Co. at this address from 1898 to 1905, then a variety of propritors to 1909. I need to do a little more historical research, but my guess is that the "White Navy" was the name given to our naval forces in 1898, when they defeated the Spanish in Cuba and the Philippines and won our shortest war. The Battleship Iowa was in the Cuban battle, and it was commissioned in 1897.

"White Navy" was therefore a popular name. In addition to the saloon and restaurant, there was also a "White Navy Grocery" in Seattle (1123 1st Ave.) that issued tokens; I have a 5 cent and a 10 cent, both 24 mm aluminum. Both are mavericks, with address.

The "White Navy Saloon" token I have is a 5 cent, identified as Seattle by Forrest Dunham. Both it and the 10 cent featured in the ATCO article have very common early Seattle reverses, and I'm quite sure they were made in Seattle. The obverse looks later than 1898, though--the early tokens of this type that I have have a primitive-looking rim design of large dots, and the 5 cent token has a much finer design. This doesn't mean they couldn't be from Skagway, AK, if the White Navy Saloon lasted into the 1900s there as it did in Seattle. But this fact plus the facts that the token was made here, that Seattle had a White Navy Saloon, and that it is not listed in the Alaska book lead me to give Seattle a much better chance for attribution.

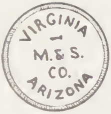
The most obvious point just occurred to me: the Skagway "White Navy" was a liquor store, not a saloon. I'd say Skagway is out.

Harry R. Eaton of Portland and Seattle

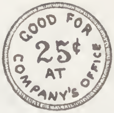
Ed Saunders gives an interesting account of Harry R. Eaton on page 6 of the June issue. Eaton ran businesses in Portland for years, but Saunders lost him in 1907-08. He was probably in Seattle. I have a 12-1/2 cent token inscribed: Harry R. Eaton/ 614 1st Av./Seattle [al. 8-scal. 29 mm]. Eaton is listed as a saloonkeeper in Polks in 1906 here in Seattle. There is also an AYPE business token with his name on it, dated 1909 and at the same address (614 1st Ave.). I have found no Polks listing that late however. There could be two people with the same name, but my guess is that Harry R. Eaton got around.

Thanks for your good work. Hope this additional info is of interest to some.

Sincerely, Robert T. Farrell



AN ATTRIBUTION FOR THE VIRGINIA M. & S. CO., ARIZONA



Richard D. Worthington

Last year I secured a specimen of a Virginia M. & S. Co., Arizona, 25¢ token. I discovered that nothing was known about the location of the company in Arizona. Descriptions of the various denominations of the tokens are to be found under miscellaneous in Arizona Tokens Revised by Hal Birt, Jr. I recently decided to try and attribute the token using some of the mining literature. It proved to be a simple matter using The Copper Handbook (it later became the Mines Register), an extensive reference work listing and describing the mines of the world. The following account is quoted from volume 5 (1905), p. 812:

> VIRGINIA COPPER MINING AND SMELTING CO. ARIZONA
>
> Mine office: Casa Grande, Pinal Co., Ariz. W. P. Guthridge, superintendent. Operates the Reward mine, producing argentiferous copper ore. Has steam power, and 30-ton water-jacket furnace. Employed 30 men at last accounts.

This appears to attribute the tokens to Casa Grande, AZ, a fairly tough town. Later issues of The Copper Handbook reference a more detailed description of the mine in volume 6, which was not available to me in The University of Texas at El Paso library. The Copper Handbook and Mines Register series is an outstanding resource for tracking down information on mines anywhere in the world. Unfortunately, the series starts just after the turn of the century. Some volumes have a geographical index which lists all the mines in a particular state or country for that period of time. The mines are listed in the text alphibetically and some have lengthy descriptions. It is a good place to start researching a mine you want to know more about.

THE WHITE NAVY SALOON TOKENS -- A DIFFERENT OPINION

By: R. J. BENICE

The June 1983 issue of ATCC contained an interesting and excellent illustrated history of "The White Navy," a business establishment in Skagway, Alaska in 1898. Accompanying this was a picture of a "White Navy Saloon" maverick token which the author attributed to this establishment. I disagree with the attribution. I consider it unproven, tenuous and unlikely.

First let's examine the name. On the painted wall sign, on the sign over the entrance and in the newspaper advertisement the name invariably appears as The White Navy. In no case (even within the advertisement) is there any mention of "saloon." Now compare this with the token: White Navy Saloon. Note the absence of "the" and the presence of "saloon." I believe one needs a better match to attribute a maverick.

Second, there is a better candidate for attribution. Whereas the Skagway business operated for only one year, there was a White Navy Saloon in Seattle that operated at least from 1909 through 1915. And it was called a saloon. I understand that Washington State collectors generally accept the 5¢ and 10¢ White Navy Saloon tokens as being from Seattle.

TO CLEAN OR NOT TO CLEAN BURIED TOKENS????

By your editor

I have been asked by many collectors how I clean buried tokens. Some collectors do not clean them, I do. Most all large grocery stores have long handled brass brushes in various strength bristles. Depending on the amount of dirt or corrosion, I select the brush I need and gently brush the token. You'd be surprised how good they look after the crud is brushed off. Do this dry. Then, if you want to clean them a little more use Ivory dish soap and light brushing. I've turned old crud tokens into almost new tokens. Do not use a steel brush. A steel brush will scratch the heck out of tokens. Also, various cleaning powders will give the token a dull look. Brass will not hurt brass and does very little in scratching aluminum tokens. A brass brush will add a new look to old tokens.

Whether you clean them or not is up to you - - they are your tokens!

INGLE SYSTEM MAVERICKS
CLEARING HOUSE

PROGRESS REPORT

This report is intended to keep the collectors informed of the progress that is being made concerning the Ingle System attribution project. Overall the project is progressing extremely well, really much better than anticipated. However there is still quite a number of well known, advanced collectors that have failed to cooperate. If you have Ingle System mavericks, you can help the project and yourself by reporting them. You will be advised of any you have that are already attributed, and your name will be placed on the file card of your unattributed pieces, and you will be notified when and if any of your pieces are attributed.

As of this writing (Jun 1, 1983) we have a total listing of 2,625 different merchants. Of this amount there are 1,630 of them attributed. This amounts to over 61% of the total listings attributed, so your chances of learning where your Ingles are from is pretty good. In the past 60 days we have had 39 new listings and have made 82 new attributions.

So far we have scanned every name in the 1914 Bradstreets of the following States, IN, OH, WV, KY, AR, MO, and TX, as well as the 1918 R G Dun for IN and KY. Currently we are working on the 1915 Bradstreet of Illinois. We have come a long way, but there is still a long way to go. We urge you to list your Ingles now, while there are still several directories yet to be scanned. To wait for the listing to be published is poor logic. The piece you own just might be the only such piece in existance.

When this project was started, we had hoped for publication to be by the end of 1982. It soon became evident that the information necessary for publishing such a listing could not possibly be obtained in such a short period of time. Even now I wouldn't project publishing by the end of 1983. It will be beyond that, as information is currently coming forth at such a rapid rate that it just wouldn't be sensible to publish now. The listing would be obsolete before it came off the presses.

Whether you have one Ingle token or a hundred, we urge you to cooperate on this project. We have spent hundreds of hours in compiling our present listing and many more will be necessary before publication. The real success of this listing depends on the cooperation of you, the collector. Won't you help on this worthwhile project. Please list us your Ingles, giving the name exactly as it appears on the token, along with any mention of the type of business, and also the patent date and the denomination.

Token Hunting in Cochise County, Ariz, Part 11

By Bob Temarantz

The Sulphur Springs Valley that makes up most of the western corner of Cochise County is as filled with matural wonders and romantic history as its sister valley to the east, the San Pedro. Since I received much interest in my last article about Cochise County in the February 1983 issue of ATCO, the other section of Cochise County and its tokens are of interest too.

The Sulphur Springs runs roughly southeast between the Dragoon Mountains on the west and the Dos Cabezas (two heads in spanish) and Chiricahuas on the east. A visit here takes a little more time than the one to the San Pedro so you may want to plan on spending a night in Douglas or Willcox so that you won't have to hurry or make a long day out of your drive from Tucson.

Just before entering Sulphur Springs Valley as you pass over the northern end of the Dragoons and begin to come down into the valley you suddenly begin to drive between piles of huge red rocks, sculptured by erosion into a beautiful mass of balanced and fallen boulders stacked high on each side of the highway. This is Texas Canyon, so named because a family from Texas settled here in frontier days. As you drive through the canyon, don't miss the turnoff to the little town of Dragoon. As you drive three miles down the road that weaves through the canyon to Dragoon, there's a small private museum of southwestern artifacts unearthed at sites at Arizona, New Mexico and Mexico. The Amerind Foundation must be seen by appointment only so plan to call ahead.

Back on Interstate 10 you coast down the east slope of the Dragoons and into the huge flat Sulphur Springs Valley. To head to the ghosttown of Pearce where many rare tokens were found, turn off 1-10 onto State 181 and head south down the Valley to one of the toughest little towns in Southern Arizona. Even though most of Pearce has been metal detected, you may have some success there and the nearby ghosttown of Black Diamond. In the early 1890's "Uncle" Jimmie Pearce and his wife "Ma" were losing their livelihood. Jimmie had worked in the Tombstone silver mines for 14 years, but now the mines were flooding and being shut down. While Tombstone was dying, Pearce's sons convinced him to try his hand at ranching, so in 1894 he moved with Ma to the east side of the Dragoons and started a small spread in the Sulphur Springs. But Jimmie was a miner at heart and he kept searching the Dragoon foothills for ore. Finally one day he happened on a quartz filled with silver and gold. After he and his sons stacked five claims , word spread to Tombstone and hundreds of people flocked to the area around the ranch. Within days a saloon opened and a town began to spring up.

The Pearce's named their mine The Commonwealth and began taking ore out of it. As the town named after the family grew, Jimmie and Ma became rich and sold The Commonwealth in 1896. But as part of the deal, Ma demanded she be given exclusive rights to operate a boarding house in the thriving town. At its peak Pearce had a population of about 2000, but by 1917 the mines began to play out and the town began to die. Only 20 people were left to run the post office and the old general store (which issued tokens). You can still sit on the porch of the old general store, buy a cold drink and look out to the horizon and imagine Geronimo's warriors on lookout on top of the peaks. IN 1930

Driving east from Pearce on State 181 you might want to make a turn south on State 666 for a visit to Douglas. Douglas sprang up in 1901 when copper was discovered nearby. The old Gadsen Hotel which rivaled the Copper Queen in Bisbee as the most ornate hotel in Southeastern Arizona. With gold-leafed ceilings, decorated pillars and old stained glass, you get a sense of old territorial richness. The Gadsen hotel issued tokens which occasionally show up during renovations. Just across the line from Douglas is the Mexican town of Agua Prieta, Sonora. Five future presidents of Mexico defended Agua Prieta during Mexico's revolution. It was the only town that Mexican Bandit/Revolutionary Pancho Villa could not take in Northern Mexico.

Back on 181 you soon turn north and pass the bulk of the Chiricahua National Range on the right. As you continue on, you run into State 186 in which you have only to drive north a few miles before you see the turnoff to Fort Bowie. A small sign marks the dirt road that you must travel over for 12 miles before you reach the top of Apache Pass, a saddle of high ground between the Chiricahuas and the Dos Cabezas mountains.

When you park in the parking lot, you will have about a mile to walk up the pass to where the ruins of the old fort and the National Park Center lie, spread out over the desert scrub of the pass. [illegible] There is a good trail winding around and between the eroded adobe walls. The for was founded in 1862 to protect a spring in the pass that the Army(and the Apaches too) needed. All through the 1860's, 70's and 80's the fort grew as the war with the Apaches intensified, and the Army became more determined to defeat the Tribes.. In 1886, Geronimo surrendered at Fort Bowie and the western Indian wars were over. In 1894 the fort was abondoned by the Army and it is now a National Historic Site. Some of Arizona's best tokens came from Ft. Bowie, including the only known Post Trader of Arizona. The Ft. Bowie, A.T. tokens go well into the four figure mark more than any other "town" token of Arizona. Near Ft. Bowie is the town of Bowie, Arizona. Unlike Ft. Bowie, Bowie may be metal detected and screened for tokens.

As you follow 186 back toward Willcox, you will see the twin peaks of Dos Cabezas to the northwest. At the base of these mountains is the little town of the same name. The old stage depot is still standing, along with several other old adobe buildings. From Dos Cabezas you'll his Willcox as you head to 1-10 to go to Tucson.

Willcox has always benn an important cattle shipping town of the southwest. Even though it has always been low key, there's an interesting aspect of Willcox's history. Warren Earp, Wyat Earps youngest brother was killed in the Headquarters Saloon in 1900 over a cattle deal. A token from the Headquarters Saloon and many others from Willcox exist, all but a few are very rare. From Willcox you head to Tucson if not to many tokens, than a sense of Appreciation of Arizona's most historic county, Cochise County.

GERMAN NOTGELD TOKENS
OR
EMERGENCY COINS OF GERMANY
BY
V.F. YATES ATCO # 241

I have advertised several times in the traders pages of ATCO wanting to buy or trade for these German tokens. Most of my ads were non-productive and it occurred to me that maybe a short article about German notgeld might be helpful to some of the members of our organization.

World War I drove good money out of circulation in Germany and created a shortage of small change, **bringing** about the neccessity to issue emergency coins or tokens. These tokens were produced in a multitude of types and many varieties.

The basic typing of these tokens lie in the issuing authority. Tokens were issued by cities, towns, villages, retail and manufacturing firms, societies, transportation companies, gas and electric companies, and by individuals. Tokens were also issued by prisoner of war camps and by firms using POW inmates as a laboring force. All tokens were a medium of exchange and circulated within the boundaries of the issuing authority.

Most notgeld are dated 1914-1923, although some are undated. The most common metals used were iron and zinc, though considerable aluminum was also used. Many plated tokens are also to be found. They were issued in all shapes and sizes.

More often than not, these tokens are found in a condition that is unpleasing. The iron notgeld rusts very easily and the ones of zinc often have white corrosion spots. Other than, perhaps using a brush on them, do not attempt further cleaning. They are still collectable.

Collecting German notgeld in depth could be an endless task, as there are tokens from more than 1330 locations and over 6500 listings. With this vast amount of tokens available, many collectors elect to collect only one example from each city or town, or they may concentrate on any one of the following categories: (1) Privately issued tokens. (2) Tokens issued by municipal authority. (3) Prisoner of war. (4) Street railway or transportation tokens. (5) Gas and electric companies. (6) Food and beverage tokens.

As with our own merchant trade tokens, a lot of notgeld tokens are very common, but there are also some that are quite difficult to obtain. So, as with all collectibles, you have a rarity scale and a need for reference material.

Two very good reference books have been published on German notgeld: (1) "Emergency coins of Germany" arranged and edited by Richard [illegible] 1970. Now out of print. (2) My preference, "Catalog of German War Tokens" by Robert A. Lamb. The valuations in both of these books are obsolete, but they give a basis for rarity and most importantly they help the collector in attribution.

Should anyone be interested in acquiring the reference book by Lamb, they can contact me and I may be of assistance.

Hey Bill - Just in case "Binky" don't tell you, I understand he's been in the slammer in Mexico for selling the Mexican Government screen doors to use on their submarines. Somehow screen doors on submarines that are made of adobe leads me to believe that Mexico doesn't have its act together. R. B. "Dick" Worthington

BOB'S MISTAKE.

Bob, being engaged to a young lady wished to send her a pair of gloves to replace a pair he ripped the previous evening while assisting in putting them on.

Bob and his sister went shopping, she purchasing a pair of drawers, he gloves for his sweetheart. By a mistake in delivering, the drawers were sent to the girl instead of the gloves, with the following note:

"My Dear Mary:—In the accompanying package you will find a little token which please accept for the ones I ripped. Wish I were with you when you receive them, as the saleslady suggested several things about putting them on. If they are too long, let them wrinkle down as many of the girls wear them that way. Now dear, next time we meet tell me how they please and should you have any trouble buttoning them wait until I come and I will do it for you. Be careful that some fellow with dirty hands don't soil them, till you might clean them with benzine but you can wear them a long time first. The saleslady said she had a pair she wore for two years and only cleaned them once. It is needless to caution you against wetting them, as they never smell the same after, and perfume on them is vulgar. Now dear, please do not take them off on the street or in a car, as the skin chafes very easily in damp or cold weather. With fondest love, BOB.

A Saloon Man's Prayer.

"All Wise God. Thou didst command thy servant Noah, to make wine and didst punish him for making intemperate use of it, and Thy Son, Jesus did make wine at the wedding banquet, and Thou hath commanded us to take a little wine for our stomach's sake, and to remember our troubles no more. We humbly ask Thee to have mercy upon those ladies who have worked so hard for prohibition, for they would have us drink water, like the beasts of the field, and we hope they will be satisfied with the results of this election, for we know, oh Lord, that we are not satisfied, not even with the color Thou hath given them for they paint and pencil their faces like clowns. We know, oh Lord, that they are not satisfied with their forms, for they wear humps upon their backs like camels, to say nothing of the cotton batten and spiral springs they wear in their bosoms for no other purpose than to make them look voluptuous in the sight of man, and to create a passion in him far greater than the use of a little wine. Now, oh Lord, have mercy upon them and make them good wives and mothers, for we know Thou didst command them to marry and multiply and to replenish the earth; but they are too lazy to raise their children, and, oh God, Thou knoweth the crimes they commit. Now, oh Lord, remember us poor men in this drouth, and keep us out of the path of temptation, and especially away from hypocritical women, and we will give thee [illegible] praise, forever Amen."

HELP!

INFORMATION WANTED

In the January, 1983, issue of ATCO, page 62, I asked for help in identifying the location of seven maverick tokens, Three were identified. I would like to repeat my request for help in locating the four not so identified:

Kermode Bros., Indian Trader
Weidemeyer & Co., Commissary, Colorado
Roy E. Hayes, Indian Trader
P. Quinones, Indian Trader

and ask help on two more Indian trade tokens:

The token of J. W. Bush, Dickon has in the center of the obverse the letters $\overset{T}{A}$ (a capital T over a capital A). Can anyone tell me what these letters stand for? According to Birt, Bush operated well after Arizona became a state.

A token from TOH-DO-CONGE, N.M., has been defaced and the letters LT crudely scratched over the original issuer's name. Three questions I would like answered: 1) Where was TOH-DO-CONGE, N.M.?; 2) who originally issued this token?; 3) for whom did the L.T. stand?

I will appreciate any information and I would like to buy any of the above tokens as well as other Indian trade tokens from Arizona and New Mexico.

ALL OTHERS MUST PURCHASE THESE TOKENS FOR 25 CENTS EACH PLUS A STAMP SELF ADDRESSED ENVELOPE.

WANTED

I am seriously collecting in the following categories and will pay TOP MARKET PRICE for tokens in these fields. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think may be of interest to me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

ALASKA TOKENS - cataloguing $50 and up in Benice. Will pay $3500 for the 1st McCarthy Alaska gold nugget token offered me (cats $500). Paying $3000 for the 1st Willis & Welch Chatanika Alaska shellcard offered me.

NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100 to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-fors. Any and all except for the most common. There are N.M. tokens worth over $100 to me.

TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr (A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction outbidding the most prominent buyers on the market.

POST TRADERS - any old good-for saying "Trader" or "Post Trader"

WESTERN STATES' GOOD-FOR MIRRORS (Colorado on West) - with pictures of the proprietor, fancy women or children on them. Paying $100 and MUCH MORE, depending on the state and the mirror.

SALOONS and OLD MILITARY TOKENS - Mavericks or attributed. Paying top dollar. Also Texas large nickel pictorials (compare me with some of your Texas buyers) and good-fors picturing elephants.

Dear Bill: BINKY almost did it again. He got out of the Mexican Jail and almost got caught again for selling dynamite caps for cigarette lighters. The Mexican Government won't be so lenient if they catch him again.

EDITOR'S NOTES: I have few comments to make this month. It has been a hot and muggy summer and I have been about as busy as I wanted to be. I had some rest from ATCO, but my business was busy. Too, we did not have as many ads as we usually do and that is no doubt because others took vacations too. Hope everyone enjoyed the summer. I for one will be glad to see fall and winter come. It was a lousy summer for tokens too. I do better during the winter. So, let's get back with token collecting.

You can see, ATCO is packed again with what ads we did get in. I did manage to find a little room for my ad.

If I seem to be rambling on, I am. I'm trying to fill this little space with something.

See you next issue.

PLEASE SEND ATTRIBUTIONS TO
DICK WORTHINGTON, 2511 LAURA LANE, PEARLAND, TEXAS 77581

Dear Bill,

Sorry for not writing sooner, but I have been as busy as a long tailed cat in a room full of rocking chairs. I did take some time off to attend a three day collector show. The bad part about it, the first day was for dealers only. I knew of some tokens that would be there, but they all changed hands the day it was open to dealers only. I know there is nothing that can be done about this type of thing, but the dealers should understand how much money it cost us to attend one of these shows. They should either hold a three day show for dealers only or a three day show open to the Public.

Another thing that makes about as much sense as a screen door on a submarine is trying to deal with some of these guys that offer to pay ridiculous amounts for certain tokens. They come up with some dandy excuses why they can't use your token. I think some of these guys just run the ads to find out where certain tokens are located and who owns them. I know I have used my last 20¢ stamp on them.

Bill, I have to run, so have a nice vacation because you sure deserve one.

Binky

SECOND BRETON TOKEN AND MEDAL BOOK TO BE REPRINTED -

Collectors of early Canadian tokens and medals will be delighted to learn of the imminent availability of a new reprint of Breton's Classic Work, "POPULAR ILLUSTRATED GUIDE TO CANADIAN COINS, MEDALS, &&." A limited printing of the book, expected to sell out quickly, is being made available by NADIN-DAVIS PUBLICATIONS OF BOX 95, STATION A, OTTAWA, CANADA K1N 8V1.

Earlier this year Nadin-Davis released a new printing of the earlier Breton work, which however does not contain listings for early Canadian medals.

Nadin-Davis expect to begin mailing the new reprints in late July or early August. Until that time a special pre-publication price of just $11.00 is available to those ordering in advance. Nadin -Davis also has available several original hard-bound copies of the original Breton Catalog (1894) and a reprint of Jos.LeRoux's classic work on Canadian medals.

Another Classic work to be available soon is "THE COINAGE OF SUFFOLK", A classic 19th Century work by Charles Golding. The pre-publication price for it is $10.00.

NEW WASHINGTON STATE TOWN LIST NOW AVAILABLE - 1983

BY MICHAEL L. SHONG

THIS IS A BEAUTIFULLY DONE PIECE OF WORK. IT DOES ONE THING THAT I HAVE NOT SEEN OTHER CATALOGERS DO. IT NOT ONLY LISTS THE TOWN, BUT ALSO THE COUNTY. THIS HAS BEEN DONE IN THE CATALOGS OF ENTIRE STATE COLLECTIONS BUT THIS IS A FIRST (SO FAR AS I KNOW) FOR TOWN LISTS.

WELL DONE MICHAEL.

INVESTORS, INVENTORS, INGENIOUS ENGINEERS

New Cornelia Mine, Ajo, Pima County, Arizona

Not all bonanzas were discovered by prospectors chasing wandering burros, by blind luck or by prospectors' picks. Some required a large cast of strange characters.

Although mineralization was known in the area as early as 1750, it was around the beginning of the 20th century that A.J. Shotwell used three low hills in the center of Ajo's basin to attract his gullible investors.

One investor was John R. Boddie, a St. Louis dry goods salesman. He was attracted to the hills, which were stained by copper carbonate assaying one or two percent copper.

Shotwell laid his plans well. He gophered after rich streaks of ore, stockpiled it and later showed possible investors how they could dip their knife blades into a solution of copper carbonate and weak sulphuric acid. The steel was at once coated with pure copper!

The scam was on! Boddie sold interests to all his friends in a mining com½any named for his first wife--The Cornelia Copper Co.

The story is a long one and includes promoter Shotwell being duped himself, by a forty-year old medium who brought him in touch with a beautiful spirit maiden, "Little Bright Eyes."

Her seances produced remarkable information, including directions on how to tunnel. Every turn meant twenty dollars for the medium, so before long the tunnel looked like a flattened corkscrew! In time it made a perfect circel and the medium lost a customer.

The gullible Boddie next engaged the inventor of the McGahan Vacuum Smelter, which supposedly was constructed to melt off all the elements of the ore--gold at the bottom, then silver, copper, calcium, sodium and silicon. Better yet, once started, the smelter ran without any fuel--it ran forever!

Shortly before the test of the smelter, the inventor vanished and the awful truth burst upon Boddie and his friends. They had been fools and dupes.

Finally, when all seemed lost, science replaced the charlatans and the ignorant promoter.

John C. Greenway, who had just finished successfully mining and milling low-grade iron ore at a big profit, decided to drill the Ajo hills. Bad starts didn't discourage Greenway. Within two years, 25,000 feet of drilling proved that thoes Ajo hills were underlain by 30 million tons of 1.5 percent ore.

But the porblems of treating such ore had not been solved, and Dr. L.D. Ricketts was called upon to develop a method. A pilot plant was built at Douglas and ran for several months, treating one ton of ore a day.

Water was needed to treat the ore at Ajo, and a deep well was drilled, producing an inexhaustible supply. In the end all worked out--the ore yielded exactly the estimated grade; the leaching plant generated the estimated recovery; and the cost remained within the estimate--a magnificent triumph of engineering skill.

Ajo is still in operation today as the New Cornelia Branch of Phelps Dodge Corporation.

LEARN ABOUT YOUR GHOST TOWNS

By Ed Saunders

One thing that I like about our hobby is that it takes us back into history, which can never be lived again except in our fantasies. The American Frontier is uncovered in little pieces of metal - - THE TOKEN. They tell us stories, long forgotten. They take us to ghost towns and all that remains is a mount of sand, a corn field or a few old foundations.

Ghost towns were once thriving communities, busy towns with a future to look forward to. Some once were hubs of other thriving communities, places of importance, power and industry. But something happened. The price of copper plunged, the silver and gold ran out, the railroad by-passed the planned route, or one of many other mishaps. Now all that remains are the ghosts of these past communities.

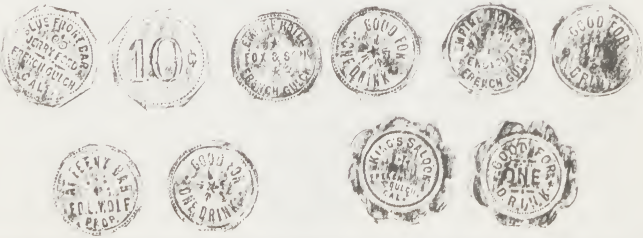
Some of these ghost towns had thousands of people at one time. One rather famous ghost in Oregon is Shaniko. This town was the World Wool center in 1900. But by 1916 it was on its way to becoming a ghost town. In 1971 the town had 50 people and soon there after the old folks home shut down leaving few remaining people.

I have enjoyed reading about ghost towns and have gathered quite a library on ghost towns. One of my recent books is called "What's In A Name" by Goethe. The book has a town list of over 100 towns in California Mother Lode country giving the origin of the towns, such as: Cabbage Patch, Chile, Bedbug, Bootjack, Brandy Flat and so on.

Here are some of the books in my library:

The U.S. West-The Sage of Wells Fargo (1949) and The American West (1955) by Lucius Beebe and Charles Glegg.
Ghost & Shadow Towns of the Glory Road by Thomas W. Moore (1970)
Ghost Towns of the North West by Norman D. Weis (1974)
Ghost Towns & Mining Camps of California by Remi Nadeau (1965)
Nevada Ghost Towns & Mining Camps by Stanley W. Paher (1980) Excellent
Ghost Towns of the West Sunset Pictorial
Ghost Towns of the West by Lambert Florin (1970)
Roaming the American West by Donald E. Bower (1971)
Gold Creeks & Ghost Towns by N. L. Barlee 1972) Canada
The Bonaza West by William S. Greever (1968)
Saloons of the Old West by Richard Erodes (1979)
Lost Towns and Roads of America by J. R. Humphreys (1967)
A Pictorial History of American Mining by Howard N. Sloane (1970)

One of my favorite ghost towns is French Gulch, California. Here are just a few of the known tokens from that ghost town.



HIGH AND LOW VALUE TOKENS

By F. A. (Fritz) ROHRMAN

For starters, these two, illustrated tokens are submitted as candidates for the highest and lowest denominations among the U.S. merchant tokens.

The first, is the rare, aluminum token issued for the two communities of Bandini and Montebello Park in Los Angeles, California for $100 on a lot in either of these two communities. They were probably issued to stimulate interest in prospective purchasers of real estate. This token is listed in Kappen's California token book as Bandini #1 or Montebello Park #1.

The second is the brass "Chicago Worlds Fair souvenir 1/10 cent/Wm. F. Dunham/United States One Mill 1933" token.

To compare these two tokens one recognizes that they differ in value by one thousand. Even though the Chicago token was issued during the great depression, one tenth of a cent would not buy anything nor would it be considered as being a viable piece of currency.

It would be interesting to learn if any higher or lower values of tokens are known.

ANOTHER MAVERICK EXPOSED - ARMY CITY, KANSAS

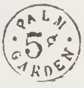
By RALPH R. BURRY

I bought a small horde of mostly Alberta tokens the other day from an old lady here in Victoria, B.C., and in this little horde was a token of Aluminum, which said: Palm/5¢/Garden/Rev. the same. I asked the lady if she could tell me where she got the token. She said, yes, as she had had this piece the better part of her life.

Mrs. Angie Vockeroth (Nee Strom) was born in Dwight, Kansas in 1911, the daughter of Anshelm Strom, a local farmer. In 1918 the family moved to Odgen, Kansas which was near Fort Riley, Kansas and this is where the story begins.

During the first world war, there was a soldiers camp near Ft. Riley called Camp Funston. The solders in this camp who were married could have their wives living near the Camp Funston at what was called Army City. The little Army City grew and it was here the small store and ice cream parlor called the "Palm Garden" started.

The people of Army City went over to Odgen to go to church and many made friends with the people from Odgen. Mrs. Vockeroth remembers the small store but the years have dimmed her recollection of how the token was used. It was found in her father's effects. Mrs. Vockeroth remembers soon after the closing of Camp Funston and the desertion of Army City. Soon after, the once proud little town of Army City was flattened and nothing remains today except some fond memories.



WHO WAS FRIDTJOF NANSEN?

By Cal Woods

How quickly we forget our great men but remember the scoundrels. In 1893 Fridtjof Nansen left Norway on his husky sailing ship "Fram" to explore the North Polar regions of the world. In 1896 he and a companion attempted to assault the pole with Kayak and sled and reached within 272 miles of the pole; closer than any man had done. This Norwegian explorer returned to Norway and found world fame for his accomplishment.

In Minnesota, the land of Norwegians, he was celebrated with a Nansen Fest on November 20, 1897, and an aluminum unifaced medalet was struck in his honor which read: "NANSEN FEST ST. PAUL, MINN. NOV. 20, 1897". He was 35 years old.

Minnesotans took him to their hearts and in 1898 through their efforts a U.S. Post Office was established in Goodhur County Minnesota and called NANSEN in a place nothing had been before. Nansen's first Postmaster was O. J. Pynten, a good Norwegian, who opened a general store in conjunction with the Post Office at about that time.

When Rural Free Delivery was established most of the small post offices were closed. Nansen P.O. was closed in 1905. But the little community of 10 people lived on in the name of Nansen and by 1914 T. B. Thompson owned the general store and there was a Cheese factory operating along with the general store. Thompson issued tokens. I have a 1¢ token from this store which reads:

T. B. Thompson/Gen'l Merchandise/Nansen, Minn.
G.F. 1¢ In Merchandise 20mm Round Brass

Fridtjof Nansen died in 1930 at the age of 69 in Oslo. After his arctic exploring fame he went on to win a Nobel Peace Prize, was a stateman, marine zoologist and pioneer oceanographer.

When I visited the tiny community, the General Store was still in operation and the place was still called Nansen. This was in 1969.

WANTED

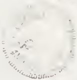
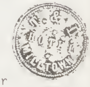
I am seriously collecting in the following categories and will pay TOP MARKET PRICE for tokens in these fields. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think may be of interest to me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

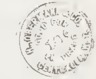
ALASKA TOKENS - cataloguing $50 and up in Benice. Will pay $3500 for the 1st McCarthy Alaska gold nugget token offered me (cat $500). Paying $3000 for the 1st Willis & Welch Chatanika Alaska shellcard offered me.

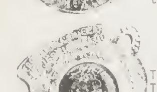




NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100 to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-fors. Any and all except for the most common. There are N.M. tokens worth over $100 to me.





TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr (A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction outbidding the most prominent buyers on the market.

POST TRADERS - any old good-for saying "Trader" or "Post Trader"

WESTERN STATES' GOOD-FOR MIRRORS (Colorado on West) - with pictures of the proprietor, fancy women or children on them. Paying $100 and MUCH MORE, depending on the state and the mirror.

SALOONS and OLD MILITARY TOKENS - Mavericks or attributed. Paying top dollar. Also Texas large nickel pictorials (compare me with some of your Texas buyers) and good-fors picturing elephants.

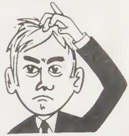
HELP!



INFORMATION WANTED

In the January, 1983, issue of ATCO, page 62, I asked for help in identifying the location of seven maverick tokens, Three were identified. I would like to repeat my request for help in locating the four not so identified:

Kermode Bros., Indian Trader
Weidemeyer & Co., Commissary, Colorado
Roy E. Hayes, Indian Trader
P. Quinones, Indian Trader

and ask help on two more Indian trade tokens:

> The token of J. W. Bush, Dickon has in the center of the obverse the letters $\overset{T}{A}$ (a capital T over a capital A). Can anyone tell me what these letters stand for? According to Birt, Bush operated well after Arizona became a state.
>
> A token from TOH-DO-CONGE, N.M., has been defaced and the letters LT crudely scratched over the original issuer's name. Three questions I would like answered: 1) Where was TOH-DO-CONGE, N.M.?; 2) who originally issued this token?; 3) for whom did the L.T. stand?

I will appreciate any information and I would like to buy any of the above tokens as well as other Indian trade tokens from Arizona and New Mexico.

TOKEN MARKET NEWS

For years Sales Tax Tokens have been a low cost, slow-moving field. To a large extent that is still true. But auction sales of the past two years suggest that at least with a few of the scarce pieces we should take a different view. From Paul Cunningham's sale of my collection in 1981 through my recent auctions here are a few figures: Astoria, Illinois, Provisional Sales Tax up 22% from $41 to $50; Depue, IL, rising 24% from $25 to $31, and Casey up to $22 from $17. The State-Issued New Mexico 5 Mills black fiber rose 20-35% from $75 to $90-100. Alabama's 1 Mill dark blue fibre came up from $21 to $34 in one of my recent auctions. The condition for all of these at sale time was EF or better, usually Uncirculated.

In other collecting areas here are some sample figures for auction top bids: Nevada Merchants' Tokens, common to moderately scarce, in low to medium grades $4 minimum, up to $18. Military tokens: 2nd Washington Infantry PX (Curto R-50) - $51, and a Ft. Crook NE (F-39) - $37. Top Transporatation Tokens have done better. Green Bay WI-25A, Fox River- sold at $77 and Toledo Ohio's 860-B, Ottawa Coach, sold for $26. Maverick saloon tokens went for above $20. A collection of 240 California Sambo's wooden nickels sold at fixed prices for $110.

British Tavern tokens sell from $7 to $15. Continental European, mainly French and German merchant, military and better Notgeld sell from $5-10. Most Latin-American Hacienda and related pieces sell from $5-12, except for Central American tokens, of which there seem to be a large number on the market. These are mostly from Costa Rica, El Salvador and Guatemala. However, a rare Puerto Rico Hacienda Santa Ysabel token sold at $250 with a companion piece going at $135-150.

My future sales will include many of the above fields with special emphases on Masonic Mark Pennies, Elks' fraternal tokens, and Minnesota Merchants' Tokens. If you would like a complimentary copy of my future sales list, please just drop me a line: Jerry F. Schimmel, P.O. Box 40888, San Francisco CA 94140.

Oh yes, I can always use a few more pieces on consignment. Just ship anytime, any amount.

I GUESS I HAVE A LOT TO TALK ABOUT IN THIS ISSUE. THE BIG THING IS THE COMING ATCO SHOW AND THAT INFORMATION IS ON THE NEXT PAGE. HURRAH, HURRAH!!!!!! I'M LOOKING FORWARD TO THE SHOW AS MANY OF YOU ARE.

CLAY IS SHIPPING THE MOTEL RESERVATION CARDS AND HOPEFULLY THEY WILL GET HERE BY PUBLICATION TIME, BUT IF THEY DO NOT, THEN WRITE YOUR RESERVATIONS IN OR CALL THEM IN, BUT GET THEM IN. FROM WHAT I HEAR THERE WILL BE A LARGE TURNOUT - SOME COMING FROM ALASKA AND CANADA.

NOTHING ELSE ON THAT EXCEPT TO SAY " BE THERE "!!!!!!!!!

THE ATCO MEMBERSHIP LIST!!!!!

THE MEMBERSHIP LIST IS ALMOST COMPLETE AND IT IS THE BIGGEST SINGLE JOB I'VE UNDERTAKEN IN SOME TIME. THERE ARE SOME 20 LEGAL SIZE PAGES TYPED SO FAR. THE MAIN LIST IS DONE. IT LISTS ALL THE MEMBERS ALPHABETICALLY WITH ADDRESS AND COLLECTING INTERESTS. THE SECOND SECTION LISTS ALL THE MEMBERS NUMERICALLY. THE SECOND SECTION IS FOR FINDING THE COLLECTORS NAME AS THE THIRD SECTION LISTS THE CATEGORIES THE COLLECTORS ARE INTERESTED IN, SUCH AS: ALASKA (AND THE MEMBERSHIP NUMBERS OF ALL THOSE WHO COLLECT ALASKA AND SO FORTH DOWN TO THOSE WHO COLLECT MEDALS, ETC.

NOW, THERE IS A HITCH!!!! I DID NOT FIGURE THIS INTO THE BUDGET FOR THE FOR A LARGE SEPARATE BOOKLET (NOT A PART OF AN ISSUE OF ATCO, BUT A SEPARATE MEMBERSHIP LIST). SOME OF YOU ARE FAMILIAR WITH THE LAST TAMS MEMBERSHIP LIST, RIGHT? THE ADS IN IT HAVE ALWAYS ATTRACTED MY ATTENTION AND I'M SURE THAT THEY HAVE ATTRACTED MOST OTHER COLLECTORS INTEREST. TOO THE MEMBERSHIP LIST WILL BE THE MOST USED PART OF ONES MEMBERSHIP AS IT WILL BE CONSTANTLY REFERRED TO.

SO, I WILL BE TAKING ADS FOR THE MEMBERSHIP LIST. THESE ADS WILL PAY FOR THE LIST AND GIVE THE ADVERTISERS A PLACE TO ADVERTISE WHERE THERE ADS WILL BE SEEN YEAR AROUND.

AD COSTS:		
	FULL PAGE	$60.00
	HALF PAGE	$30.00
	QUARTER PAGE	$15.00

GET YOUR ADS IN PRONTO SO THAT THE MEMBERSHIP LIST CAN COME OUT WITH THE NEXT ISSUE OF ATCO - - NOVEMBER ISSUE.

MEMBERSHIP: THIS IS THE FIRST MONTH SINCE ATCO STARTED THAT WE HAVE HAD A SLOW MONTH AS FAR AS NEW MEMBERS ARE CONCERNED. I'M SURE THAT YOU GUYS AND GALS KNOW OTHERS WHO SHOULD BE•LONG TO ATCO, RIGHT?

LET'S START GETTING NEW MEMBERS. AN INCENTIVE YOU SAY? O.K.!

STARTING WITH THE NOVEMBER ISSUE AND RUNNING FOR ONE YEAR THE PERSON WHO GETS THE MOST NEW MEMBERS IN THAT YEAR WILL RECEIVE A LIFE MEMBERSHIP IN ATCO. THE PERSON WHO GETS THE SECOND MOST NUMBER OF NEW MEMBERS WILL RECEIVE A ½ PAGE AD (FREE) EACH MONTH FOR ONE YEAR. THAT SHOULD BE WORTH WORKING FOR.

ENOUGH - - SEE YOU NEXT ISSUE JUST BEFORE THE BIG, BIG, BIG ATCO SHOW.

CHARLEY & THE KING

King of Arizona (Kofa), Yuma County, Arizona

"You go up on the mountain toward the water tanks," Charley Eichelberger said to his partner. " I'll try down in the canyon. We'll meet again in two days. If neither of us finds water, we can head for Squaw Peak and try there."

Charlie Carmen agreed. Eichelberger soon found a water tank where he filled his canteen and sat down under a lone desert tree. He rested, drinking the lukewarm water thirstily, and looked out over the canyon.

Suddenly his experienced eyes caught an unexpected flash of light It seemed to be coming from a cave some twenty feet away--a cave that had probably been used by long-ago Indians, judging from its soot-blackened walls.

With his prospector's curiosity fully aroused, but afraid to let his hopes run wild, Eichelberger walked slowly into the cave where he had seen that arresting glint.

Sure enough, it was gold!

When Charlie Carmen returned days later, he found Eichelberger in the canyon, glorying in his luck. Water and gold--what more could any prospector ask?

Henry Gleason, the Yuma engineer who had grubstaked Eichelberger in the exchange for a share of any findings, wasn't so sure. This might be a fraud. He asked Charley to bring back samples of the ore "so we can see what the assayer has to say about it."

"It's gold, Henry. Trust me," Eichelberger insisted.

"Show me the ore," Gleason replied.

So Eichelberger agreed to bring back several burros laden with ore. The thought struck some town loafers--why not follow him and see where he had staked his claim?

Expecting this, Charley set out early in the morning to elude his followers. But two rose before dawn and tracked him to his canyon. Hiding until they were sure it was safe, they staked claims for themselves. Eichelberger had to go to court to have his prior claims declared valid.

Meanwhile, Gleason was satisfied with the samples of ore, which proved to be worth about $500 a ton. The men took in a third partner, Epes Randolph, who managed the Southern Pacific Railroad in Arizona. Together they organized the King of Arizona Mining Company and set up a mill.

The ore washing through that mill was so rich that the miners had to shut down the mill every few hours to clean the clinging gold dust from the plates The mill produced $1200 worth of gold from the first two tons of ore.

A mining town called K of A, or Kofa, sprang up almost overnight. Most of the miners were Cornishmen, dubbed "Cousin Jacks," who brought their families with them. Because of this there were few of the street fishts and barroom brawls common to other mining camps.

In its lifetime the King of Arizona Mine had a total production of $3.5 million. The mine flourished from 1896 until 1910, when the rich ore gave out. Kofa became a ghost town. Charley Eichelberger spent the rest of his fortune and his life trying to revitalize another mine near Quartzsite, without success. Apparently one gold strike in a lifetime was enough.

THE CASE OF THE SICK DOCTOR

By Jinks Livingston

This small space is hardly fitting for the memory of a great man and Mason, school teacher, civic servant, humanitarian and medical doctor, for it describes a man who loved and lived a life to its fullest.

Nelson Charles Bledsoe was born on the first day of September, 1876 in Ventura, California. Graduating from the Los Angeles Normal School in 1896 he taught school for six years while attending the University of Southern California Medical School, graduating in 1903. Dr. Bledsoe joined the Calumet and Arizona Mining Company in Bisbee, Arizona in 1904 and was the principal physician in Bisbee until 1931 when he moved to Tucson, where he practiced medicine for 35 more years.

The practice of medicine in Arizona 75 years ago was vastly different from today with all the support facilities and rapid transportation. Dr. Bledsoe often told of treating the injured miners underground and of his emergency rides by horse and buggy to save the life of ranch folks. On one occasion he recalled that during a smallpox epidemic in Bisbee, all the townfolk who had been exposed to the disease were rounded up and locked in a corral under armed guard.

Dr. Bledsoe held practically every Masonic office in the state of Arizona and at the same time carried on a highly successful medical practice. Considering the required memory work and the transporation conditions during these times, it was an attainment that is unlikely to be repeated. Dr. Bledsoe died 22 February, 1974 at the age of 97.

Dr. Bledsoe was a perfect examplar and truly lived the tenets of brotherly love, relief and truth, meshing each into every aspect of his life, be it medicine, civic affairs, or fraternal.

Dr. Bledsoe forever branded his name into the history books on July 12, 1917. He was a good company man and because the miners had gone on strike for better working conditions he had been trying to get some of the miners hung in front of the company store. The idea was rejected in favor of the great deportation of 1917. It turned into one of the most colorful chapters in the history of the American Labor movement.

Twelve hundred miners were arrested in their homes and on the streets without warrants, marched five miles in the hot sun, loaded into sealed boxcars and dropped off in the middle of the New Mexico desert. Several people were shot to death, several dies of thirst and all the miners suffered intensely. Some families were never reunited and law-suits went on for years.

So, on July 12, 1917, Dr. Bledsoe, who was the most zealous of the deporters, walked up to a man on main street, the man was holding a baby, and struck him with his rifle butt knocking the baby to the sidewalk. He then went and closed down the telegraph office and struck the telegraph operator with is rifle butt. On the hot march to the railroad cars he passed the word, "NO WATER".

Dr. Bledsoe was armed with a Krag-Jorgensen rife, a six shooter, cartridge belt of revolver shells and two bandilleros loaded with rifle bullets criss crossed over his shoulders. He continued to hit men in the line with his rifle stock all during the march.

Dr. Bledsoe issued a token used at the Ball Drug Co., 30 Main Street, Bisbee, Arizona, good for 5¢ In Trade, Brass 21mm, made by the Los Angeles Rubber Stamp Co.

A NEW DISCOVERY

H.A. (HARV) CAMER

WHILE VACATIONING THIS PAST JULY IN MY HOMETOWN OF WINNIPEG, MANITOBA CANADA. I PURCHASED FROM A LOCAL COIN DEALER A VERY INTERESTING TOKEN WITH THE NAME " THE GOULD HOTEL FABBRI BROS. JARVIS AVE " ON THE OBVERSE, AND GOOD FOR 10 ¢ IN TRADE ON THE REVERSE.

MY FIRST REACTION WAS TO LOOK IN THE MANITOBA TOKEN BOOK TO SEE IF THIS WAS A LISTED TOKEN(IT WASN'T). I THEN BEGAIN ASKING SOME OF MY WIFE'S FAMILY, BUT ONLY HER GRANDMOTHER WHO IS 85 COULD REMEMBER A GOULD HOTEL. SHE SAID IT WAS LOCATED NEAR MAIN STREET AND THAT WAS OVER 60 YEARS AGO, AT LEAST.

WITH THIS LITTLE BIT OF INFORMATION IN HAND I PROCEEDED TO THE PROVINCAL ARCHIVES BUILDING WHERE I WAS DIRECTED TO THE CITY DIRECTORIES MICRO-FILM SECTION. DECIDING ON THE YEAR 1899, I BEGAIN MY SEARCH FOR THE GOULD HOTEL. IT WASN'T UNTIL THE YEAR 1905 EUREKA!! I HIT PAYDIRT. THE GOULD HOTEL APPEARED AT THE CORNER OF JARVIS AND DERBY AT 251-257 JARVIS AVE. THE FIRST LISTED OWNERS WERE A J.P. GOULD AND A MR. PETERS. THE HOTEL REMAINED THIS WAY UNTIL 1911, WHEN PETERS SOLD HIS INTREST TO J.A. JOHNSON. THEN IN 1912 THE HOTEL CHANGED HANDS AGAIN, THIS TIME TO THE FABBRI BROS (THE NAME ON THE TOKEN). THE HOTEL REMAINED IN THE HAND OF THE FABBRI BROS UNTIL 1918, WHEN IT WAS SOLD TO MR. EDWARD GAGG.

THE LAST LISTING FOR THE GOULD HOTEL WAS 1920 AND AT THE SAME ADDRESS. AFTER 1920 THE DIRECTORY LISTED THE ADDRESS 251-257 JARVIS AS A VACANT LOT. THIS CAN MEAN ONLY TWO THINGS EITHER A FIRE DESTOYED THE HOTEL, OR IT WAS TORN DOWN.

THE FINDING AND DISCOVERING THE HISTORY OF A TOKEN IS A FEELING OF GREAT SATISFACTION.

AS A RESULT OF MY RESEARCH IT APPEARS THAT THIS TOKEN WAS ISSUED BETWEEN THE YEARS 1912 AND 1918, AND IT SHOULD APPEAR IN ANY FUTURE MANITOBA TOKEN LISTINGS.

AT THIS TIME, I AM IN THE PROCESS OF NEGOTIATING A TRADE OF THIS PRESUMABLY UNIQUE MANITOBA TOKEN FOR A SMALL BUT SELECT COLLECTION OF NORTH DAKOTA TOKENS.

DANIEL G. TRENCH AND THE SPRAGUE CANNING MACHINERY COMPANY

PART I HISTORY

In 1888 Welcome Sprague of Farnham, N.Y., sold his first corn cutter to Louis McMurray, owner of the Mountain Sugar Corn Factory in Frederick City, Md. After successfully testing the corn cutter, McMurray sent Sprague to Chicago to see Daniel G. Trench who was then primarily in the tinplate brokerage business as the manager of the Charles S. Trench Co. although he had already established his own firm, Daniel G. Trench & Co., Canning Factory Outfitters.

Sensing the future of the infant canning industry was bright, Trench bought the patents of Welcome Sprague in 1892 and with Sprague established the Sprague Manufacturing Company. Trench was a consumate businessman who, using Sprague's corn cutter as a nucleous, proceeded to acquire patents and production rights to numerous new devices for the canning trade. These were brought under the umbrella of the Sprague Canning Machinery Company which Trench organized in 1901 in Hoopeston, Il., although the firm's corporate headquarters were in Chicago.

By 1908 the Sprague Canning Machinery Company had absorbed no less than 14 other companies including the well-known Merrell-Soule line of corn cookers, the C.H.Plummer pea filling and blanching machines, and C.S.Bucklin's tomato filling machines. Trench himself wrote in the introduction to the 1901 edition of the Sprague General Catalogue, "it is well recognized throughout the trade, that our company has done more, in recent years, to perfect automatic labor saving canning machinery and general canning appliances than any other concern in the business."

Trench, a naturalized citizen born in Jamaica, was educated in New York and graduated from the College of the City of New York. Throughout his life, education was one of his main interests. He served for many years as a Trustee of Lombard College in Galesburg, Il., and was long active in the Universalist Church, even serving as President of the National Universalist Laymen's League.

He did not, however, reserve his intense interest in education and public service for only his private life. Out of his own firm's pocket he financed the establishment of the first fully-equipped laboratory for chemical and bacteriological research into food preservation. This, the Sprague Canners' Laboratory, was set up around the turn of the century in Aspinwall, Pa., under the able direction of Dr. Edward Wiley Duckwall whose father was a pioneer canner in Ohio. The lab was available to any canner who chose to bring canning problems to it. Included in the research was a systematic attempt to standardize cooking times and temperatures in an industry that hitherto had lived by "rule of thumb." However, as Trench wrote in his firms publication Cannery Notes in 1916, "the Laboratory gave such valuable service to the canners that other machinery and supply interests became exceedingly jealous of the prestige it added to the Sprague concern and much knocking was indulged in which promised to affect the cause.'" Accordingly Trench turned the lab and all equipment over to Duckwall with only the agreement that general service continue to be given at modest fees and that the name be changed to the National Canners' Laboratory.

Both Duckwall and Trench were strong advocates of national pure food laws, feeling that the industry could not police itself nor could state regulation provide a uniform enough set of standards to mechanize and modernize the industry. They were devoted to the scientific investigation of canning methods. In 1902 the Sprague Canning Machinery Company published, under the editorship of O.L.Deming, editor of the Canner and Dried Fruit Packer, a short volume collecting the state of the art research and titled Science and Experiment as Applied to Canning. Duckwall himself a short time later wrote and published in 1905 a treatise, Canning and Preserving of Food Products with Bacteriological Technique, the foundation for which came from his experiments in Trench's lab.

In short, Trench, through his support of scientific investigation into the problems of canners and through his systematic approach to equipping canneries through the Sprague Company almost single-handedly brought the canning industry into the Twentieth Century.

Trench died unexpectedly of an appendicitis at the height of his career in 1917 at the age of 55. At that time he was a resident of Oak Park, Il., having built a still-standing 16 room Victorian mansion complete with stables which occupied an entire city block. The top level of this architectural gem contained both a ballroom for civic entertaining and a gymnasium for its owner's private use.

The story of Sprague Canning Machinery Company does not end, however, with Trench's death. While Trench was busy building his company on the foundation of Sprague's corn cutter, William Sells was grappling with the other major impediment to the mechanization of corn canning, the husking of corn. Until Sells perfected and marketed the Peerless Husker, all corn husking was done by hand, necessitating huge armies of cannery workers at the height of the harvest and pack. But Sells brought an end to this intensive use of hand labor and the Peerless Husker Co. grew rapidly from its founding in 1906. William Sells surrendered management of the company to his three sons, most notably Ogden and Neal, who, like Daniel Trench before them, served on the Board of Directors of the Canning Machinery and Supplies Association.

In 1924 these two giants of the canning machinery industry, the Sprague Canning Machinery Company of Chicago and Hoopeston, Il., and the Peerless Husker Co. of Buffalo, N.Y., were merged into the Sprague-Sells Corporation whose rightfully chosen slogan was "If it's used in a cannery, Sprague-Sells it."

In 1931 Sprague-Sells bacame a division of the Food Machinery Corporation. Portions of the original Sprague factory in Hoopeston are still in operation as a part of the FMC Corporation to whose generous cooperation through Jean Theis and Dave Foster I owe a debt of gratitude for the permission to use materials they maintain in Hoopeston.

A SAGA OF THE SWEDES, JENNIE, MINNESOTA

By Cal Woods & Wade Renstrom

In about the year 1880 thirty two closely related families from Varmland, Sweden left their home land and migrated to America. They were looking for rich and fertile land that they could farm. These hard-working Swedes decided to settle in Minnesota, and found a lovely, rich spot of land in Southeastern Meeker County. They chose the west side of a beautiful lake called Lake Jennie. The area was on the western edge of the "Big Woods", a huge hard-wood forest that covered much of Central Minnesota. As land was prepared for crops, the men cut trees, grubbed stumps, and removed boulders. The trees were made into ties and sold to the Great Northern Railroad that had recently built a line through Dassel which was six miles to the north.

The settlers needed a closer trading center so one of the settlers, OTTO OLSON, about 1885, built a large general merchandise store next to this home, and close to the lake. A blacksmith shop and creamery soon sprung up in Jennie, near the Olson Store to help round out the community. The store soon became the social center of the community of Jennie Lake. The store was open both days and evenings. The men gathered at the store after a day of work on the farms and engaged in singing,card-playing, arm wrestling, smoking and story-telling. The store was always open as a youth club for the young people.

The language of Jennie Lake was Swedish. A school and a Covenant Church soon sprung up in the community and sermons were given and classes were taught in Swedish. English was a second language.

Otto Olson was a fine merchant for his little farming community. Food was stocked along with clothing, yard goods, lamps and lamp oil, harnesses, dishes, tobacco, candy, hats, cheese and crackers, etc. Otto Olson had a surprise for the youngsters who stole from the cracker barrel; he planted a mouse trap in the barrel.

He purchased eggs, chickens, and fresh produce from his farmer-customers and gave aluminum trade tokens called "Due Bills" to pay for the farm goods that was not traded out for other merchandise. He also provided a custom-milling service to his customers when he installed a wind-driven grist mill as a part of the store building.

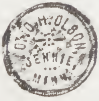
Otto had a real sense of humor too. He installed a small hand-driven electrical generator in the store which was wired to the nails on the front porch railing. When young couples leaned on the railing on a warm summer evening, fun loving Otto gave them a juicy electrical shock.

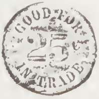
It was not until 1898 that Jennie got a Post Office, and Otto became the first Postmaster. The Post Office was installed in the general store. In 1903 Rural Free Delivery came to Meeker County and the Jennie Post Office was discontinued.

In about 1920 Otto Olson sold his general store. He had served the community for almost 40 years. The new owner, Alfred Mogren, was Jennie's merchant until 1935 when he sold the store to Lester Corkens. Corkens moved the store across the street into the old creamery building, carrying mostly groceries. In 1943 Corkens closed the store for good.

Now, in 1983 everything is gone, the store, creamery, church, school, blacksmith shop, everything. There is nothing left to tell us where Jennie existed for over sixty years. Even the historical society have no record of Jennie.

Three years ago Wade Renstrom of Sandstone, Minnesota turned up a round aluminum token with a metal detector.





THE SELLER'S RIGHT TO REJECT BIDS AND OTHER HUMBUGS

BY Mike O'Brien ATCO 49

Regarding the title of this article, let's put rejected bids aside for a moment and read about one-upmanship in token dealing. Let's imagine a seller has a token you see and want, and you are trying to buy-bid on it-or trade for it. The other party takes you to task or kind of puts you down, saying words to the effect - what are you doing, trying to get such a valuable token at such a low price? Don't you know one of these traded last year for one of the Crown Jewels? What do you take him for, a fool? You must realize there is such a disparity in this deal, etc., etc. You and I would either retreat in confusion or bargain as best we could from our position of inferior knowledge, or perhaps give in and accept the terms the great man proposes.

In defense of you-the humble offerror of this trade, most token collectors are truly in the dark about many kinds and styles and types of tokens and bid on an interesting item in complete ignorance of its true value. Most of us know quite a bit about a very few areas of collecting tokens and have scant knowledge about the rest of the hobby. So, I think it is small minded for a person who may make his living from tokens (and therefore extremely well informed) to ridicule or summarily dismiss and offer from a less well informed collector. All of us have ventured into new collecting areas through the winning of a "ridiculous" bid of a couple of dollars on some token which caught our interest. In my case, the collecting of charge coins began in that way, buying the first one for $3.00 or so, not knowing it was I bought until I later tried to get more information on this peculiar token type. Also, in many cases I have made the same rather casual purchase only to find it really didn't interest me and so ultimately the token was forgotten, but no matter because of the small investment I made.

Like a gambler, we tend to remember only our successes and forget the losses or failures. Many collectors have boxes full of these inexpensive, rather haphazard purchses. But some of these tokens ignite a full-fledged collecting interest in the buyer.

Perhaps I speak for many in saying I'd be happy to recover my costs in tokens in which I am no longer interested and would like to sell. But, I think I am a bit ashamed to list in an ad all my stupid purchases of the past. But if did sell them, they would be offered without reservation, or, if I wanted a certain selling level on a token, I'd put a minum bid on it.

The right to reject any or all bids tends to discourage this (my) type of collector, and as I set forth above, correspondingly limits the growth of the hobby. The purpose of the ad is to sell, not to retain, the token. With 500 token collectors reading ATCO, failure to get good bids is a reflection of the material being offered, not the readership. Last month, member V. F. Yates mentioned a hypothetical mail bid (See Vol. 2, No 6, page 4) in which a token costing him $8.00 would be a "steal" for a bidder at $12.00. A 50% profit is not bad; it helps pay the ad cost. Reading something into his letter, I wonder if he would be tempted to reject all bids as not being up to his expectations? If so, I'd say it's a poor way to run a sale, and a disservice to bidders.

Why don't advertisers use a minimum bid rather than reserve the right to reject bids? If they want to sell the items, I think sellers should put down what they expect to get. Is the right to reject reserved because seller hopes someone will plunk down a nice high bid on a low value item? If, in a mail bid sale, you'd see a $3.00 minimum bid, would you bid $20.00? Would you bid $20.00 if no minimum were set? I think minimum bids help set the price; but by rejecting bids and not stating minimum bids, a seller has the best of both worlds; he can reject bids and re-advertise or happily collect on a much higher bid. Certainly this is not an ideal state of affairs for the bidder.

Finally, the last observation; many readers make their living in some service business where the public(Your customers) are in control and can give you a piece of their mind or criticize at any time by phone or letter, and some are particularly nasty when they can hide behind a telephone or a letter and not disclose their name. You must discount that written or said by those who prefer to be covered by the cloak of anonymity.

A LETTER TO THE EDITOR: Bill: I think that Dick Worthington must have Binky mixed up with Binky's brother as I know that I saw Binky, just last week, playing first base for the Weaver, Iowa Cow-Chips. Lloyd Andries, Jr.,

EDITOR'S NOTE: You guys be nice to Binky. He is too big, ugly and mean to be nasty to. Besides, he may be at the Colorado show and we want him peaceful.

23. WORLD FAIR: This item is a fancy little round medallion, hinged on pins in an ornate little yoke. On one side is a picture of a bear on all fours, and the initials P.P.I.E. (Pan-Pacific International Exposition). On the reverse is a bear on his hind legs, and the date 1915. If you hold the yoke and spin the medallion, it appears to be two bears mating. Looks like it might be silver, but is not marked.
24. TERRITORIAL: Something different for sure! A body tag or toe-tag! Brass, about 3" long, 1 1/2" wide, tapering to about 1", with a hole in the small end. It's engraved, "Bureau of Indian Affairs/Wyoming Territory/Corpse No. ☐" and in very small print across the wide end, "Property of U.S. Government"

I'M INTERESTED IN ANY TOKENS FROM CALIENTE, PANACA, PIOCHE,FAY, JACKRABBIT, OR DELAMAR, NEVADA. MANY OTHER NEVADA ITEMS TOO. ALSO ANY FROM SOUTHERN UTAH.

WANTED

I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICE for these tokens. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think might interest me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

ALASKA TOKENS - cataloging $50 and up in Benice. Will pay $3,500 for the 1st McCarthy Alaska gold nugget token offered to me (cats $500). Paying $3,000 for the 1st Willis & Welch Chatanika Alaska shellcard offered me (cats $750).

NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100+ to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-fors. Any and all except the most common. There are many N.M. tokens worth $100++ to me.

TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr(A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction, outbidding the most prominent buyers on the market.

POST TRADERS and WESTERN STATES' MILITARY - any old good-for saying "Trader" or "Post Trader". Military tokens (old) from Colorado on West.

WESTERN STATES' GOOD-FOR MIRRORS - with pictures of the proprietor, fancy women or children on them. Paying $125 and MUCH MORE, depending on the state and the mirror.

TEXAS PICTORIAL GOOD-FORS - Will pay TOP DOLLAR for brass or white metal Heidemann-struck pictorials ... more than a big advertiser who is so advanced that he needs next to nothing and only wants the great rarities.

SALOONS and INTERESTING OLD MAVERICKS - Paying top dollar. Attributed or maverick saloons and ornate or pictorial mavericks with steers, cows, burros, ELEPHANTS, etc. on them.

ALABAMA LUMBER TOKENS

UNLISTED TOKENS!
DELISTED TOWN!

SUTTLE-PATTON
LUMBER CO.
FELIX, ALA.

G/F 1.00, 50¢, 25¢, 10¢ & 5¢ in merchandise.
Round-Aluminum

I have 65 sets (5 pcs to the set) priced at $90 per set, postpaid. Master Charge-Visa-Lay-A-Way OK. Will trade some for Territory tokens.

(Brief History)
Felix, Ala. started out as a plantation, then grew into a town. In the 1920's they were trying to get land for a school. Suttle from above company said he would donate the land if they would name the town after him. They would and he did. What was Felix is now Suttle in Perry Co., Alabama.

OSAGE NATION INDIAN MEDALS

I have recently purchased the remaining 235 sets of original 500 mintage sets struck in 1958.

A set consists of 13 pieces - in size 20, done in a goldine lacquer finish.

Each medal has on the obverse a portrait of an Osage leader or Council member. The reverse has the Seal of the Osage Nation. The sculptor of the medals was Mr. Ferdinand Rebechini of Rock Ridge, Ill. The medals were produced by the Chicago firm of Meyer and Wenthe, Inc.

With each set comes a pamphlet telling a brief history of the Osage Nation from 1673 to 1957.

The price for the 13 piece set is $78 post paid.

Each medal is dated 1958 and in perfect condition, stored in the original container from the manufacturer.

Your Steadfast Hobby Guardian

The travel was time-consuming. Room and board was expensive. And corporate benefits were intangible. Yet, when Chet Krause and Numismatic News were asked to testify at the Olympic coinage hearings, they jumped at the chance to represent your hobby interests.

Before the smoke cleared, Chet and company testified on three separate occasions.

*** LARGE MINNESOTA TOKEN COLLECTION WANTED ***

The prospect of adding a Minnesota token or two to my collection once in a while is, quite candidly, trying my patience!

I am anxious and able to purchase a major MINNESOTA token collection (the LARGER the BETTER!) to give my collection a significant boost. I'm looking for a collection of at least 350 different towns and at least 1,000 different tokens. I know the value of a prime collection of this type and will realistically reflect that knowledge in a serious and aggressive offer.

We all know that, as our own collections expand, it becomes more difficult to buy a large collection - simply because the duplication becomes more extensive and burdensome. If I do manage to buy a large collection now, it may be the last I'll buy for quite some time.

If you have any thought of disposing of your MINNESOTA collection, I urge you to seriously consider it now. I would have the most interest in the largest collection I have an opportunity to purchase, if more than one collection is offered to me at this time.

Please call or write to me to discuss, on a confidential basis, the possible sale of your MINNESOTA collection. I will be happy to talk to you in this regard.

Of course, I am still interested in buying any MINNESOTA tokens.

HELP!

INFORMATION WANTED

In the January, 1983, issue of ATCO, page 62, I asked for help in identifying the location of seven maverick tokens, Three were identified. I would like to repeat my request for help in locating the four not so identified:

Kermode Bros., Indian Trader
Weidemeyer & Co., Commissary, Colorado
Roy E. Hayes, Indian Trader
P. Quinones, Indian Trader

and ask help on two more Indian trade tokens:

The token of J. W. Bush, Dickon has in the center of the obverse the letters $\overset{T}{A}$ (a capital T over a capital A). Can anyone tell me what these letters stand for? According to Birt, Bush operated well after Arizona became a state.

A token from TOH-DO-CONGE, N.M., has been defaced and the letters LT crudely scratched over the original issuer's name. Three questions I would like answered: 1) Where was TOH-DO-CONGE, N.M.?; 2) who originally issued this token?; 3) for whom did the L.T. stand?

I will appreciate any information and I would like to buy any of the above tokens as well as other Indian trade tokens from Arizona and New Mexico.

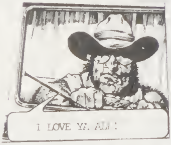
Dear Bill: Thought I was going to have to miss the big ATCO show but I'll let this load of mellons rot before I miss it. Beside, I want to meet some of those collectors who have been giving me all the trouble.



I LOVE YA ALL!

By nature I'm peaceful but I get my dander up when someone starts making fun of me just because I drive a truck and give people HE-- for not doing right by us collectors.

You Better Show up!!!

Or I'm really gunna get mad!

EDITOR'S NOTE: BINKY YOU BE NICE AND WE'LL BE NICE TO YOU. DON'T MAKE A SHAMBLES OF OUR FIRST TOKEN MEET.

ATCO DIRECTOR'S MEETING

A MEETING OF ALL THE DIRECTORS WHO MAKE THE DENVER MEET WILL BE AT

SATURDAY 7:30AM - - - - BREAKFAST MEET - - - - IN THE DINING ROOM - - - -

HOLIDAY INN NORTH

* * *

ABOUT THE DENVER MEET!

QUESTIONS THAT HAVE BEEN ASKED:

1. WILL DISPLAY CASES AND LAMPS BE AVAILABLE? Yes, there will be display cases and lamps available.
2. WHY NO SECURITY? To get this location Clay was able to obtain the rooms only from 8:30AM to 4:30PM. The rooms are rented by others after 4:30PM so you would have to take your displays down anyway. TOO, AND KEEP THIS IN MIND, THIS IS A TOKEN COLLECTORS ASSEMBLY (OR MEET) AND SHOW, NOT JUST A BIG SHOW. YOU CAN BELIEVE THAT THERE WILL BE PLENTY OF GOOD CONVERSATION, TRADING, SELLING, ETC. GOING ON. WHAT I PLAN TO BRING I CAN CARRY IN A BRIEF CASE AND I CAN KEEP IT WITH ME WHEREEVER I GO.
3. WILL ATCO MAKE ANYTHING ON THE ASSEMBLY AND SHOW? Clay has assured me that if he makes money on the show that a good part will be given to ATCO.
4. WILL BINKY BE AT THE SHOW? Yes, I've been assured by Binky that he will be there.

BE THERE!!

LETTERS TO THE EDITOR:

Dear Bill: Some time back, a collector asked, in an issue of ATCO, if anyone who has tea plantation tokens of Ceylon would describe them for him, as he is compiling a listing or catalog of same. At the time I was unable to find my Ceylon tokens, but since, have done so. If this cataloger would write to me I'll describe those tokens that I have.
CHARLES V. KAPPEN, 2201 Peachtree Lane, San Jose, California 95128

* Dear Bill: I still protest "BINKY" occupying space where ads could be. Our money is being wasted. Joe Copeland.

* Dear Bill: Just received my copy of ATCO. Thank you and as usual I have enjoyed it thoroughly. Who is Binky..?.?? Anyway, I like to see what he has to say each time I get ATCO. Quite a guy!!! Ha, Ha. John G. Nicolosi.

Editor's Note: Everytime we get a letter jumping on Binky, we get two or three letters urging him on. Sorry, Objectors, but you are outvoted.

* *

* Bill - - The clearing point for those working on catalogs is an excellent idea! Why not do the same for those doing regular or infrequent mail bid sales? I find some of my subscriptions expire, and they seldom send out notices. A listing of the dealers (or collectors), the cost of a subscription, if any, and the frequency of sales in a regular listing seems appropriate! I would even volunteer!

M. W. MASSEY, 1141 WAGON WHEEL, SAN DIMAS, CALIFORNIA 91773

Editor's Note: Bill, you just got yourself a job!! Those who run mail bid sales as described above, please send the information to Bill and we will run the information as a regular feature in all future issues of ATCO!!!!

---

* Dear Bill: Enclosed is a double page ad for the next issue of ATCO or whenever it can be inserted (this issue). Also a check for $35.00 - - $30.00 for the ad and $5.00 for the work on the membership list. Many thanks for the good work you are doing with ATCO!!!!

William A. Kelly, Lufkin, Texas.

Editor's Note: Thanks much Bill!!!!!

EDITOR'S SECTION:

FINALLY, THE MEMBERSHIP LIST IS DONE AND ENCLOSED. I HOPE THAT IT MEETS WITH THE MEMBERS APPROVAL. IT WAS A LOT OF WORK AND WITH THIS MUCH TYPING I WONDER HOW MANY ERRORS I MADE.

BEFORE SOMEONE ASKS ME WHAT THE $5 ON THE UPPER RIGHT HAND CORNER OF THE MEMBERSHIP IS FOR, I'LL ANSWER. EACH MEMBER RECEIVES ONE FREE COPY AS PART OF HIS OR HER MEMBERSHIP. IF YOU WANT ADDITIONAL COPIES THEY ARE $5 EACH. WE PRINTED AN EXTRA 100 COPIES OF THE MEMBERSHIP LIST BUT THEY ARE OR SHOULD BE RESERVED FOR NEW MEMBERS JOINING ATCO. I'M SURE THAT IT WOULD NOT HURT ANYTHING IF WE SOLD 25 to 50 EXTRA COPIES.

SOME MAILED ADS IN FOR THE MEMBERSHIP LIST TO LATE TO BE INCLUDED. I RETURNED SOME 11 ADS AND CHECKS AND GOT A HOT LETTER FROM ONE MEMBER THAT HE HAD GOTTEN HIS AD IN BEFORE THE 20TH, ETC., ETC. THE MEMBERSHIP LIST AND ATCO DO NOT COME TO ME NICELY FOLDED AND STAPLED AS YOU GET THEM. THEY COME IN STACKS OF PRINTED PAGES. MY SON AND I SPEND UNTIL THE WEE HOURS OF THE MORNING GATHERING THEM TOGETHER, FOLDING THEM AND STAPLING THEM. THERE WAS NO WAY THAT WE COULD HANDLE BOTH JOBS AT THE SAME TIME. MY EXACT WORDS IN THE LAST ISSUE OF ATCO WERE "GET YOUR ADS IN PRONTO." SO IF YOU MISSED GETTING AN AD IN YOU DID NOT ACT "PRONTO". All I can say is I'm sorry. Next time, please get your ads in "PRONTO".

SEE YOU AT THE SHOW

12 September 1983

P.O. Box 1[illegible]
Sioux Falls, 57101

[illegible]ay--an open letter to the membership of ATCC.

Hello from Japan' I was transferred out here recently, and I'm slowly getting used to being the only Air Force person on a Navy base. (Don't ask, it's a long story.)

One BIG problem with being a military member overseas--it takes forever for your mail to catch up with you. When it finally does, and everyone (hopefully) knows your new address, it still takes 1½-2 weeks for a letter to get from here to the States and vice versa. This brings up several points. (1). If I've been dealing with you regularly, and I haven't ordered anything for a while, PLEASE don't drop me from your mailing list. In most cases, I haven't been able to order for the simple reason I haven't received any catalogs for a while. The U.S. mail service is the best one going, but it's not perfect. I'm still getting mail postmarked June and receiving it in September. (2). What are the chances of EXTENDING the ATCO mail bid deadline PAST the 15th of the month? Often, I don't even receive my ATCO until the 10th or so. Even if I order immediately, my letter(s) won't reach the States until the 20th or so. Therefore, I'm out of the bidding before I even start. Maybe if the bid is postmarked by the END of the month the ad appears??? (Just one man's opinion). (3). Even as letters take 1½-2 weeks to arrive, packages take about a MONTH. For you few dealers gracious enough to let me receive goods on credit, I'm still sending out a Money Order THE SAME DAY I RECEIVE YOUR PACKAGE, same as always. It'll just take a while longer for it to get to me, ergo, the M.O. will arrive there a little later. Is good?

When my household goods were shipped over to Japan, my encased coins made it, my cigar tokens and traders did not. So, I'm still collecting encased coins but no longer collecting cigar tokens. (I'm also interested in any Shell's "Mr President Coin Game" tokens from 1968.) And, as my traders are somewhere between Atsugi, Japan and Denver, Colorado, along with 257 cigar tokens, it'll have to be cash only on any deals, O.K.?

I realize I'm just one person and I'm not expecting ATCO to change any rules just for me (no, I'm NOT Binky) I'm just throwing out some things to think about, O.K.? (Just kidding, Binky, I really do enjoy your columns. Sometimes.)

Please note new address one more time:

Bob Ziegler
DMA Box 47
FPO Seattle, 98767

Thanks for taking the time to read this. If you disagree with anything, as Bill says, take me to task. If you agree--got any nice encased coins?

Bob Ziegler

PART II TRENCH AND SPRAGUE TOKENS

From the earliest catalogues onward, the Sprague Canning Machinery Co. advertised "peeling checks" for sale. The 1901 General Catalogue offered "checks furnished with our business card on one side and any lettering or figures desired on the reverse, in either brass or aluminum." The business card could be either Daniel G. Trench & Co. Canning Factory Outfitters or the Sprague Canning Machinery Co. An order of 100 cost $1.25, 200 to 500 at $1.00 per hundred and 1000 or more at $.85 per hundred. That early ad showed an example of a "reverse" from the Sun Prairie Canning Co. of Sun Prairie, Wisconsin.

By 1916, the Trench card was no longer offered but red fibre checks "which are light in weight and do not tarnish" were offered.

In 1922 prices had risen to the following:

Checks furnished with business card on one side and any lettering or figures desired on the reverse in either brass or aluminum as follows

Orders of 100 Checks, made of brass for lot	$ 2.75
Orders of 300 Checks made of brass for lot	5 75
Orders of 500 Checks made of brass, for lot	8 45
Orders of 1,000 Checks, made of brass, for lot	15 00
Orders of 100 Checks made of aluminum	2.30
Orders of 300 Checks made of aluminum	4 75
Orders of 500 Checks made of aluminum .	7 00
Orders of 1 000 Checks made of aluminum	12.50

Checks made of red fibre 10% less than aluminum lists

The tokens sold by Sprague were not produced by the Sprague plant in Hoopeston. The actual manufacturer is unknown but may have been The C.H. Hanson Co. of Chicago.

In both series there are two distinctly different reverses:

Despite the advertising, there are no known fibre pieces. All known Trench pieces are brass and round although the Trench illustration in the 1901 Catalogue entry reproduced below shows a piece with eight scallops.

The following list of known Trench and Sprague tokens makes it clear that the companies were truly international and supplied canners in all parts of the U.S. and Canada. My thanks to the many collectors who have taken the time to contribute listings. I hope this article will generate whatever listings remain to be catalogued as well as a statement of pieces in various collections so that a rarity table could be established. At this time I don't believe any of the pieces are common, the most common among them numbering perhaps half a dozen.

WHAT TOKENS HAVE TAUGHT ME

By Edward Saunders

Tokens have taught me many things. They have taken me to place I may never have gone. They have brought me friends I may never have known. They have given me a sense of appreciation for a style of life I may have known about. They have taken me back into history which I find most interesting. So, let's follow some of the trails that tokens have taken us.

For example, how many have heard of the town by the name of French Gulch. This quiet little town is off the beaten path, yet one visit to this little community takes us back 100 years. There are a few of the old buildings still remaining. One stands in the center of town with large steel doors. Behind these doors is a small grocery store and an old bar, some 80 to 90 years old. Across the street is an old hotel with an old bar that was taken out of the old Ed. Finey Saloon. In the late 1800's, French Gulch, California was a humming little town - GOLD, GIRLS AND GLAMOUR was there and still remains a big part of this little community - an almost forgotten town.

A. L. Rabe ran a saloon in Sims, California. If you have traveled to Oregon by way of I 5, you have passed Sims and probably did not even realize that it was there. It is about 15 miles below Dunsmuir, California. This quaint little town, if one could call it a town, still remains. It has one business, and a hand full of houses. The history of the town is most interesting and it makes me wonder how many of use take the time to stop in these little towns and do more than just token hunt? Talk to the older people in the community and learn this history of the town. If you are historically inclined, you can spend a day talking to the people who remain, learning much of the early history. You will hear things that will take you back into history and into that old time. These old folks are leaving this earth and only a few remain in each of these little towns. In twenty years or less this rare opportunity will be gone. All that you will get from then on is what someone else writes about his or her experiences - those that you missed. THINK ABOUT IT!!!

"TIME TO RE-TIRE"

By Cal Woods

Some advertising slogans stick with you always. As a child I first encountered a poster showing a little boy in night-clothes holding a candle-stick in the left hand and a tire leaning against his right shoulder. The advertising slogan was "Time to re-tire". I never forgot it. It was an advertising for Fisk Tires. It was a perfect pun; the manufacturer is long gone but the slogan lives on.

When I found an old aluminum token issued by a tire repair shop in the very small Minnesota town of Swatara I could not help but recall the old "Time to re-tire" slogan of the Fisk Rubber Company.

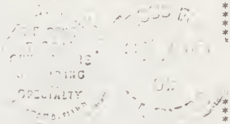
Gillson's Garage issued this token with the slogan: WE TAKE THE IRE OUT OF TIRE REPAIRING OUR SPECIALTY.

You have to be over 50 to understand and appreciate Mr. Gillson's little rhyme. Tires in the 1910's and 1920's had rims and tubes. A flat tire repair required special tools and lots of muscle to be back on the road again. This was in addition to the jack and wheel removing tools. Flats were miserable and frequent. One of my high school buddys father owned a 1922 Essex automobile. The mother and father went blueberry picking one summer weekend in northern Minnesota and they tied five spare tires to the car knowing they would probably need all of them by the end of the trip. They did!

For those historically minded Minnesota token collectors, swatara was a farmer's Post Office in Northern Aikin County from 1903 'til 1908 when it was discontinued. In 1911 the Soo Line Railroad was built thru Aitkin County and Swatara Post Office was re-established, a small town started to blossom. By 1914 the population had grown to 20 with a saw mill and three general stores. One was called the Finnish Supply Company that might give a hint of the predominent nationality of the area.

By 1922 its population had grown to 100 with two general stores, a garage, and two hotels. From there things seemed to level off and did not grow much. Swatara was still in existance when we stopped there in 1982.

None of my business directories tells us when the Gillson Garage was changing and repairing tires and tubes, but a best guess is about 1925.



I would be interested to know if other midwest tire repair shops used the same slogan?

[illegible] Bill
[illegible] County, Arizona

Submitted by: [illegible] Garland

[illegible], discoverer of the Gold Road mine fell [illegible] Kingman newspaper, "Miner" reported on [illegible].

Jose Jerise, discoverer of the famous Gold Road mines, committed suicide at Gold Road by taking rat poison. He lived several hours after taking poison, [illegible] pain. Henry Lovin departed yesterday to Gold Road to take charge of funeral arrangements. Jerise was captain in the Mexican army but [illegible] of army life many years ago emigrated to the United States, and lived in [illegible] River Valley. During the years of [illegible] in the valley he frequently made excursions into the mountains [illegible] in search of mines, but for years was unsuccessful. [illegible] he struck Henry Lovin for a grubstake, and [illegible] the Colorado River. While passing over the [illegible] range of mountains he stopped to rest on the outcrop of what is now the Gold Road mines, and carelessly picking up a piece of float found that it was [illegible] gold. He at once located the mine and came back [illegible].

Taking Lovin with him, the pair went to the mine, and made several locations. Assays from the outcrop ran about 40 ounces in gold to the ton. When the discovery became known, it created great excitement and [illegible] people rushed to the new diggings. Within a short time Lovin and Jerise sold their interests for $50,000. After getting money Jerise [illegible] and within a few years his money was gone and was again compelled to subsist on the grubstake for a living. Whatever may have been the shortcomings of Jose Jerise, the giving to the world [illegible] the Gold Road mines wiped clean the slate.

NEW BOOK ON ILLINOIS TRADE TOKENS RELEASED!!!!

COLLECTORS OF TRADE TOKENS WILL BE INTERESTED TO LEARN THAT THE LONG AWAITED SECOND EDITION OF TRADE TOKENS OF ILLINOIS by ORE VACKETTA IS NOW AVAILABLE.

The completely revised hardbound book contains over 11,000 listings of known tokens of Illinois, compared to only 5,000 in the 1973 edition. The Good For 5 cents In Trade tokens and the many varieties of Good Fors are widely collected, as an interesting and educational hobby. Each token is alphabetically listed by merchant and town, with a full description of obverse and reverse given. A price and rarity guide provides relative values.

Illinois trade tokens are collected in many different ways. Some people search for one of a town while other collect all varieties of one or more towns. Still others collect Dairy, Saloon, Bank, Amusement or other specialties.

The 580 page volume contains over 800 photographs, historical notes and introductory articles on token collecting, as well as a detailed maverick listing, used to locate tokens without a city or state inscribed.

THE HARDBOUND BOOK IS ONLY $29.95 ($31.45 for Illinois Residents), POSTPAID FROM THE PUBLISHER, WORLD EXONUMIA, P.O. BOX 4143, ROCKFORD, ILLINOIS 61110-0643

"RARE" TOKENS - CHEAP!

Listed below are some interesting plastic tokens that were saved as samples by the manufacturer (Personalized Plastics Inc. of La Crosse, Wis.) when they were produced ten years or so ago. Apparently as each job was finished, a few of each variety were put into an envelope marked with the name and address of the orderer and saved. This information made it possible to positively attribute most of the mavericks. It is very interesting to note that of the tokens listed below, only one is listed in any state catalog. So even though these tokens are modern, they may possibly be rare as judged by their omission in the catalogs. In addition, many of them are from rare or unlisted towns. You might not like plastic tokens, but when these are gone you may not have an opportunity to obtain one again until someone breaks up his collection. I have purchased all the remaining tokens (The food stamp tokens had been sold long ago) and am offering them alphabetically in ATCO over the next few months.

All tokens are round plastic, 28mm, in various colors. Note - description of token may be abbreviated to conserve space. MINIMUM BID IS ONLY 25¢ PER TOKEN.

THE IDEAL CHRISTMAS GIFT

A new, revised edition of 'Campbell's Tokens of Utah' is now being prepared at a pre-publication price of $34.95 - regular price is $39.95 - plus $2.00 postage and handling. Work is due out early in the New Year.

[illegible], the new book covers some ten years of research [illegible] of over 600 pages, 8½" x 11", with approximately [illegible], full color cover. Some 207 Utah ghost and [illegible] towns are represented. Tokens are priced in three grades together with rarity and are listed in alphabetical order. Any known Utah coins with the [illegible] of information can be found in 5 to 15 seconds. A town listing together with the [illegible] is also provided. Editions will be autographed, and the first [illegible] orders received will be numbered.

This new revised work contains photos and rubbings together with historical information and includes tales of the Old West and also treasure stories. Also included [illegible] the buried Campbell treasure which is located somewhere in [illegible] a cache of tokens worth some $8,000 plus much more. [illegible] gold and currency is of great interest and is included [illegible].

[illegible] a standard reference to collectors as well as dealers, it is a [illegible] the Old West.

Printed by [illegible] press of Salt Lake City in a limited number, buyers are requested to forward their orders as soon as possible to the address listed above. Utah residents please add $2.00 sales tax. Dealers write for discounts. A handy order blank is provided below for your convenience.

Member of T.A.M.S., [illegible], A.T.C.O., A.V.A., N.J.T.S. Life member of A.N.A. and [illegible]. Member of Australian Numismatic Society and [illegible].

WANTED

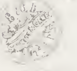
I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICE for these tokens My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think might interest me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

ALASKA TOKENS - cataloging $50 and up in Benice. Will pay $3,500 for the 1st McCarthy Alaska gold nugget token offered to me (cats $500). Paying $3,000 for the 1st Willis & Welch Chatanika Alaska shell card offered me (cats $750).

NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100+ to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-fors. Any and all except the most common. There are many N.M. tokens worth $100++ to me.

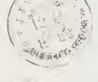


TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr(A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction, outbidding the most prominent buyers on the market.

POST TRADERS and WESTERN STATES' MILITARY - any old good-for having "Trader" or "Post Trader". Military tokens (old) from Colorado on West.

WESTERN STATES' GOOD-FOR MIRRORS - with pictures of the proprietor, fancy women or children on them. Paying $125 and MUCH MORE, depending on the state and the mirror.

TEXAS PICTORIAL GOOD-FORS - Will pay TOP DOLLAR for brass or white metal Heidemann-struck pictorials ... more than a big advertiser who is so advanced that he needs next to nothing and only want the great rarities.



SALOONS and INTERESTING OLD MAVERICKS - Paying top dollar. Attributed or maverick saloons and ornate or pictorial mavericks with steers, cows, burros, ELEPHANTS, etc. on them.

ALABAMA LUMBER TOKENS

UNLISTED TOKENS!
DELISTED TOWN!

SUTTLE-PATTON
LUMBER CO.
FELIX, ALA.

G/T 1.00, 50¢, 25¢, 10¢ & 5¢ in merchandise.
Round-Aluminum

I have 65 sets (5 pcs to the set) priced at $90 per set, postpaid. Master Charge-Visa-Lay-A-Way OK. Will trade some for Territory tokens.

(Brief History)

Felix, Ala. started out as a plantation, then grew into a town. In the 1920's they were trying to get land for a school. Suttle from above company said he would donate the land if they would name the town after him. They would and he did. What was Felix is now Suttle in Perry Co., Alabama.

OSAGE NATION INDIAN MEDALS

I have recently purchased the remaining 235 sets of original 500 mintage sets struck in 1958.

A set consists of 13 pieces - in size 20, done in a goldine lacquer finish.

Each medal has on the obverse a portrait of an Osage leader or Council member. The reverse has the Seal of the Osage Nation. The sculptor of the medals was Mr. Ferdinand Rebechini of Rock Ridge, Ill. The medals were produced by the Chicago firm of Meyer and Wenthe, Inc.

With each set comes a pamphlet telling a brief history of the Osage Nation from 1673 to 1957.

The price for the 13 piece set is $78 post paid.

Each medal is dated 1958 and in perfect condition, stored in the original container from the manufacturer.

TEXAS PICTORIAL AND SALOON TOKENS WANTED

CHAMBER
SALOON

DON'T BE SUCKED IN BY IDLE BOASTING - THIS NATIVE TEXAN IS PAYING RECORD HIGH PRICES FOR BETTER TEXAS PICTORIAL AND SALOON TOKENS! I AM RELATIVELY NEW TO THIS HOBBY, IT'S TRUE. HOWEVER, IN LESS THAN 4 YEARS MY COLLECTION HAS GROWN TO INCLUDE OVER 400 DIFFERENT TEXAS SALOON TOKENS. THIS COLLECTION HAS GROWN AT A RAPID RATE BECAUSE OF MY DETERMINATION TO BUILD A FINE ASSORTMENT OF BETTER MATERIAL AND A WILLINGNESS AND PROVEN ABILITY TO PAY THE HIGHEST PRICES. I HAVE NEVER REJECTED THE OPPORTUNITY TO BUY A QUALITY TEXAS PICTORIAL OR SALOON PIECE BECAUSE THE PRICE WAS TOO HIGH! BECAUSE OF INFERIOR CONDITION - YES, BUT NOT ON ACCOUNT OF PRICE. SO IF YOU HAVE A DESIRABLE TEXAS ITEM TO SELL, PLEASE CALL OR WRITE. ALL RESPONSES WILL BE KEPT STRICTLY CONFIDENTIAL IN YOUR BEST INTEREST. FURTHERMORE, ALL CORRESPONDENCE RECEIVED WILL BE FOLLOWED WITH A PROMPT AND COURTEOUS REPLY.

I STILL NEED THE FOLLOWING TEXAS "GOOD FOR" TOKENS AND ADVERTISEMENT PICTORIAL PIECES IN FINE OR BETTER CONDITION:

1. LARGE SALOON TOKENS IN WHITE METAL, BRASS, ALUMINUM OR VULCANITE. ANY TOWN.
2. PICTORIAL PIECES FEATURING ELEPHANTS, STEERS, EAGLES, CROWS, BULLSHEADS, LADY'S LEG, A HORSE BIT, THE ALAMO, THE STATE CAPITOL, A COURTHOUSE, A STORE FRONT, OR ANY OTHER ANIMATE OR INANIMATE OBJECT. THESE ARE OCCASIONALLY SIGNED BY THE DIEMAKER - HEIDEMANN, WILCOX, CHARLES STUBENRACH, AND OTHERS.
3. TEXAS SALOONS FROM SMALL OR UNLISTED TOWNS - ANY SIZE OR MATERIAL.

YOUR ASSISTANCE IN LOCATING AND MAKING THESE ITEMS AVAILABLE TO ME WILL BE GREATLY APPRECIATED. I AM FIRMLY RESOLVED TO RETURN THESE TEXAS TOKENS TO TEXAS...WHERE THEIR PAST HISTORY AND SIGNIFICANCE IS BEST UNDERSTOOD AND APPRECIATED.

MD TAMS Cataloging Project

As part of a primary project of the Maryland Token and Medal Society, David E. Schenkman is compiling a listing of merchant tokens, store cards and trade checks for the state of Maryland. This much needed catalog is scheduled for publication in 1984, and is expected to list approximately two thousand tokens. Only tokens issued prior to the early 1950s will be included. Transportation, parking, and car wash tokens will not be listed; food stamp tokens and modern plastic issues will also be excluded.

It is requested that collectors who have Maryland tokens in their collections furnish a listing of them to Dave so he can include them in the catalog. If necessary, he will contact you for additional information. Send your list to David E. Schenkman, P.O. Box 375, Bryans Road, MD 20616.

The Maryland Token and Medal Society was founded in 1979. It publishes a quarterly journal, and holds regular meetings in conjunction with major coin shows in Maryland. Information regarding membership in the organization may be obtained by writing the Society at P.O. Box 3273, Baltimore, MD 21228.

THINGS YOU SHOULD KNOW:

No matter which side of the door the dog or cat is on, it's the wrong side.

If you're wondering if you took the meat out to thaw, you didn't. If you're wondering if you left the coffee pot plugged in, you did.

Any child who chatters nonstop at home will refuse to utter a sound when asked to demonstrate for a visitor.

NOW, DON'T YOU FEEL MUCH BETTER HAVING THE ABOVE KNOWLEDGE?

SO . . . HOW WAS IT?

BY ALAN V. WEINBERG

Well, the first annual ATCO convention is history. Folks, it was fantastic. Those of you who didn't come - - and airfares were no excuse as Denver is probably the least expensive city to fly to from any point in the U.S. - - really missed something!

Apart from the buying, selling and trading opportunities, it was a distinct pleasure to meet members one had only known by phone or letter. Smiling faces all over the place.

Collectors from Idaho, Colorado, Montana, Alaska, California, New Mexico, Wyoming, Nebraska, Texas, Oklahoma, Maryland, South and North Dakota, Ohio, Kansas, Indiana, Florida, Missouri and Minnesota attended.

The bourse, while not comparable to a "coin show," was quite respectable with a greater concentration of trade tokens - - good ones too - - than I'd ever experienced before. I was like a kid in a candy shop. A Montana Fort here. A Texas Bimetal saloon there. A California Post Trader. A Texas pictorial. WOW! Every time you went back you saw more material. I must have visited Dick Worthington's bourse table 6 times and came away with a thinner wallet each time. Yep, folks. There were loads of tokens for sale. Not just for trade. What a welcome relief to a "trade only" trend which tends to stifle our hobby.

There was Dick Worthington with his sunny, smiling disposition and loads of tokens. Travis Roberts in a wheelchair with a broken foot. Paul Varner - you could tell he was a retired Master Sgt. Clay Welty - always on the move - faster and busier than guys half his age. Doris Wietrick - long missed. Big Dan Mayo. Tough trader Dan Benice. Wily J. L. Hargett. The friendliest guy I've met in memory - MERLIN BONDHUS. Idahoans John Gold and Kendall Ballard. Prison specialist Charles Carter. Montana enthusiast Lorin Cranson. Ohio specialist Gaylor Lipscomb - always with a smile. Bill Darling - good to see him back in good health. George Speck, recently retired and now travelling with the Mrs. Lloyd and Alberta Hagaman - nice people - Larry Elman - are these for sale or exhibit? Roger Bolz - Nebraska specialist. Garry Young and his sunny wife. Sam Morrison and his Karen, just starting on Santa Claus tokens.

And so many others - there's just no room for all the names.

Sincerest congratulations to Bill Clapper and Clay Welty for arranging the show. Only one suggested major change. No $5 registration fee next year. This is an ATCO Show and members shouldn't have to pay to get in. Granted, it may have been financially necessary this year, but ATCO is now on firm financial ground and can "fully" sponsor next year's show.

The future of our hobby as expressed by the "action" at the show?!? GOOD AND STRONG!!

The coin business is sluggish, perhaps dying. High prices exclude all but the wealthiest collectors. Each week more and more collectors and dealers leave coins and "convert" to tokens which themselves frequently circulated as a medium of exchange. Judging from the demand exhibited at our ATCO show, the prices requested and paid, the intense interest and camaraderie apparent, and the "youth" of the hobby's collectors (a surprising number are under 40 and evern our "senior" members like Fritz Rohrman and Charles Carter, both 80+, are spry and enthusiastic - this hobby keeps 'em young), ATCO and tokens will be around a long time.

CAN'T WAIT 'TIL NEXT YEAR. Alan.

(Editor's Note: I promised Alan I would not change a word of his article and I have not, but he did try and give me some credit for the show. That credit belong to Clay Welty. He did a super,super job.)

DEAR BILL: Sorry I missed meeting you at the Denver meet. You were pointed out to me from across the room but by the time I was finished my conversation you had gone. I enjoyed the meet and although my purse was depleted I got some nice tokens from the dealers present, and it was interesting to meet people with whom you had only corresponded. E. DONALD KAYE.

(Editor's Note: Sorry I missed you too, Don. Had to catch an early plane Sunday. I think your remarks about the depleted purse was true with about everyone who came to the meet. I don't know of anyone who did not go home with a pocket full of the tokens he needed and empty pockets. The trading was also tremendous!!! MUCH ENJOYED!!!!

* * *

Dear Bill: What a wonderful time I had in Denver. It was a joy getting to meet people whom I have known only through the mail. Our hats need to go off to Clay Welty for a job well done!!!!
Garry Young.

A LETTER TO THE MEMBERSHIP: Dear Bill: As you know my first compulation stirred up some controversy. I feel like Binkey!

As your new catalog editor I stirred some things up and stepped on some toes. Please accept my apology if you feel you were one of them.

My idea of a non-producer were those parties who have been working for 15-20 years and have not produced a catalog. Also included in this is the cataloger that does not answer inquiries or share data. These parties are accumulators, not catalogers.

I would like other ATCO members to respond to this question: Would you rather purchase two or three volumes @$12-$15 and have data or wait years and spend $35-$40?

Please send your replies to: FRED ROBINSON, P.O. Box 121, CANTON, OHIO 44701.

(Editor's Note: Thanks Fred - hope that this gets things moving the way you would like them - I know you did not intend of offend, just get some attention and the information you need to report progress)

CAN ANYONE TELL OUR READERS ABOUT THE FOLLOWING DESCRIBED PIECE? It is copper with a reeded edge, 24mm (grades about XF+ with luster).

THE ABOVE LIFE MEMBERS WILL RECEIVE SPECIAL LIFE MEMBERSHIP CARDS AS SOON AS THEY ARE COMPLETED.

Editor's Note: We had intended to offer only 25 Life Memberships. A few were sold before I got to the meeting in Denver - - they sold out in Denver. The directors did not feel that this would be fair to those who could not attend the show but did mail in life membership checks. It was agreed that I could take what came in the mail when I returned home and then close the offer out.

No more Life Memberships will be offered until we reach 900 members at which time 5 more Life Memberships will be offered.

EDITOR'S AREA: (and little it is, but at least enough room for a few comments)

Again, this issue is jam-packed and there were some ads that did not make this issue. Will be given top priority in the next issue.

As I mentioned in the last issue, new members will no longer appear in the regular issues of ATCO, but will be sent each time a sheet is full. These sheets will be loose so that you can add them to your membership list. The one I am working in is 4/5th full. We are at 575 members at this writing (2 days before going to the printers). A number of the members are really working to get new members and Coin World gave us a nice write-up again. We are 1/3rd the size of TAMS and larger than the Canadian Trade Token publication so far as members are concerned. We are growing!!! Bill Clapper.

Mr. Bill Clapper

Dear Bill:

Thought I would just drop you a quick line to express my appreciation for the fine job that you are doing regarding the ATCO magazine, and in particular, for the membership list which I know both you and your son spent many hours doing. I know I speak for all the Utah members when I express my thanks for a job well done.

It was deeply regretted that none of our members from Utah could attend the recent get-together in Denver, due to it clashing with the 3-day Utah Numismatic Society's Coin Show which was held that week-end in Salt Lake City.

For your own information, Bill, it was the best show I have ever attended for tokens, and indications from Coin Dealers show that many have now realized that a market now exists.! As early indications show, some $2,000 to $3,000 worth of Utah tokens were sold to anxious buyers. As all Utah ATCO members were in attendance, I received a number of comments wishing that they could be in Denver supporting our great ATCO group. Hopefully future ATCO shows can be scheduled so they do not clash with local coin shows (although I know it is impossible to please everyone!).

We sincerely hope that Clay's efforts produced a huge success. We, in Utah, look forward to helping out at a future date, perhaps by possibly hosting an ATCO meet here in Salt Lake City!

Sincere regards,

Harry F. Campbell

RED ROCK - A BIT OF HIDDEN MINNESOTA HISTORY

BY CAL WOODS

Long before the white man arrived the Dakota Sioux roamed the area that we now call Minnesota. On the east bank of the Mississippi River, just a few miles below St. Paul rested a granite boulder. It was about five feet long and oval in shape. The Dakotas had given this rock mystical powers. They had painted twelve red stripes on the rock two inches wide, and on the north end they painted a rude representation of the sun. Periodically, they brought it offerings and worshipped it.

When the Americans came to this area they called it "Red Rock", applying both to the rock and the place it rested. In 1837 a Methodist mission was established at this point for the Dakota Sioux. Because of race hatred, and dislike for the white man's religion the mission was a failure and abandoned in 1842.

Red Rock continued to be a place of Indian veneration and worship. The rock was frequently visited and repainted by the Sioux until 1863. At that time, the year following the great Sioux massacre of Minnesota settlers, most of the people of this tribe were forcibly moved by the American Federal Government to a reservation in South Dakota. Few of the tribe were left to visit Red Rock, but the spot continued to be remembered by both Indian and White man.

When the Chicago, Burlington, and Quincy Railroad brought a line up the Mississippi River they established a station at the spot of this rock seven miles south of St. Paul, and they called it "Red Rock Station". Over the years the village of Newport grew up one mile south of Red Rock Village, and by the 1930's, Red Rock was obsorbed into the bigger Newport.

A few places of business chose to retain the name of Red Rock as an identification of the spot where they were located. Wright's Nite club and Les Wiggin's Bar both struck tokens with the word "Red Rock" on them, and in Newport The Red Rock Country Club kept this name also. The latter was not a true country club, but a road house.

Red Rock and its long history are both now nearly forgotten and only these few tokens remain to remind us of the Dakota Sioux Heritage of this area.

I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICE for these tokens. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think might interest me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

ALASKA TOKENS - cataloging $50 and up in Benice. Will pay $3,500 for the 1st McCarthy Alaska gold nugget token offered to me (cats $500). Paying $3,000 for the 1st Willis & Welch Chatanika Alaska shellcard offered me (cats $750).

NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100+ to me. Many are "dug" so don't worry about condition. I want 'em.

NEW MEXICO TOKENS - nice old good-for . Any and all except the most common. There are many N.M. tokens worth $100++ to me.

TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr(A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction, outbidding the most prominent buyers on the market.

Your Steadfast Hobby Guardian

The travel was time-consuming. Room and board was expensive. And corporate benefits were intangible. Yet, when Chet Krause and Numismatic News were asked to testify at the Olympic coinage hearings, they jumped at the chance to represent your hobby interests.

Before the smoke cleared, Chet and company testified on three separate occasions.

OSAGE NATION INDIAN MEDALS

I have recently purchased the remaining 235 sets of original 500 mintage sets struck in 1958.

A set consists of 13 pieces - in size 20, done in a goldine lacquer finish.

Each medal has on the obverse a portrait of an Osage leader or Council member. The reverse has the Seal of the Osage Nation. The sculptor of the medals was Mr. Ferdinand Rebechini of Rock Ridge, Ill. The medals were produced by the Chicago firm of Meyer and Wenthe, Inc.

With each set comes a pamphlet telling a brief history of the Osage Nation from 1673 to 1957.

The price for the 13 piece set is $78 post paid.

Each medal is dated 1958 and in perfect condition, stored in the original container from the manufacturer.

TUCSON, ARIZONA 85716

DEAR BILL:

ENCLOSED ARE SOME "STIFLING" TOKEN TRADE ADS FOR THE NEXT ISSUE OF ATCO. HOWEVER I FIND IT AMAZING AND APPALLING THAT AN AUTHOR OF A RECENT ARTICLE OF ATCO CONTINUES TO SLAM THE BASIC PREMISE OF ATCO, TRADING TOKENS. THOUGH HE MAY FEEL TRADING TOKENS "STIFLES" THE HOBBY, I FIND THE CAMARADERIE OF TRADING TOKENS JUST AS GRATIFYING AS GETTING THAT NEW TOKEN FOR YOUR COLLECTION. ATCO EXISTS TO PROMOTE THIS BASIC PREMISE OF CAMARADERIE AND TRADING TOKENS.

WHAT I DO FIND SUPPRESSIVE TO THE HOBBY ARE ATTEMPTS TO SMOTHER TRADE OFFERS DIRECTLY OR INDIRECTLY. "ITS A HOARD TOKEN, ITS A FAKE, THEY'RE RESTRICKING THEM IN BUMBLESUCK, EGYPT", ECT. SOUND FAMILIAR? THIS IS PARTICULARLY DISTURBING WHEN THESE COMMENTS ARE CIRCUITOUSLY MADE TO YOUR POTENIAL TOKEN TRADER SO THAT HE MAY GET THE SAME TOKEN YOU ARE AFTER.

OH I DON'T MIND BIDDINGS AND FIXED PRICES FOR TOKENS, I PARTICIPATE IN THEM TOO. BUT ITS NOT THE ONLY SUCCESSFUL ASPECTS OF TOKEN COLLECTING AS YOU WOULD BE LEAD TO BELIEVE.

BUT TO THOSE WHO ARE IMPOTENT AND DO NOT KNOW HOW TO TRADE, PLEASE DON'T POLLUTE THE ATMOSPHERE FOR OTHERS WHO ARE SUCCESSFUL IN TRADING TOKENS.

KINDEST REGARDS,

BOB TEMARANTZ, #57

Bill: The token on page 4 (Dec. issue) is a "Klan" token. Stands for:
A KIA - A Klansman I am AYAK - Are you a Klansman

Hope that this helps the collector who inquired.

JACK HARVILL, BOX 362, EHRATA, WASHINGTON 98823

Dear Bill: The piece described on Page 4 (December issue) is a Ku Klux Klan token. The "AYAK" stand for, "ARE YOU A KLANSMAN?" THE "AKIA" on the obverse stands for, "A KLANSMAN I AM." THE 100% refers to being a 100% American. These are standard passwords at a Klan meeting. The drawing would suggest that it is a homemade membership piece. The "A.F." is unknown, but it may be the initials of the member. If it is a die struck piece, it would date from the 1920's or 1930's.

Robert W. Ross III

(Editor's Note: We had about 10 answers to this token. I printed the first two that came in. The response is appreciated.

Dear Bill: Well, time flys by and most of us forget to show our appreciation for the fine job that you and your directors are doing. The ATCO show was a highlight for both Kendall Ballard and myself and it is always amazing at the quality of people that you meet in the collecting fraternity. Top notch people, dedicated to their craft, and yet so willing to share - - a very unique group - - - thanks again for the untiring efforts to see that proper organization comes to what could be chaos without vision and organization.

JOHN H. GOLD

Editor's Note: This is just one of the fine letters that we have received at years end. I wish to thank all of you for your kind words and nice cards that I have been receiving MANY THANKS - - Bill!!!!

THE EDITOR'S AREA: I did not leave myself much room in this issue. We are going to the printers a day early because of the heavy load at the printers. That will help in getting the issue, hopefully, to every one before Christmas.

Another year has passed and ATCO will be starting its third year with the February issue.

I WISH TO THANK EVERYONE WHO HAS CONTRIBUTED TO ATCO OVER THE PAST TWO YEARS, MAINLY, THE DIRECTORS, OUR MAVERICK EDITOR AND THE OTHER EDITORS WHO ARE NOW DOING THINGS THAT NEED BEING DONE FOR ATCO. ALSO, THE CONTRIBUTING EDITORS WITH THE FINE ARTICLES THAT YOU HAVE BEEN SENDING TO ATCO. THE MEMBERS ENJOY THEM (WHICH REMINDS ME THAT WE CAN USE MORE ARTICLES).

I WISH YOU ALL A VERY HAPPY HOLIDAY SEASON AND A PROSPEROUS NEW YEAR!!!!!!

ARIZONA: Towns of the Past

Submitted by: J.M. Garland

Three miles north of the little town of Patagonia in southern Arizona by the side of Highway 82 sits a rock house-- peaceful and homey. The windmill is turning and you might see Helene May working among the flowers in her yard.

When Mrs. Helene May was born within these same walls over 60 years ago, the sign over the keystone read, "Smith Hotel". It was the heart of the lively shipping and supply center of Crittenden, a town established by Mrs. May's father, John Smith, in the early 1880's.

The new Territory of Arizona was a raw and rugged land at that time. Forts were too scattered for ample protection from the Apaches and the rich silver mines in nearby Patagonia and Santa Rita Mountains already had a long and bloody history. The railroads had just started in the Territory in 1878 and the nearest shipping centers were many miles away from the mines, over rough wagon roads to Nogales or the newly established Tombstone.

Helene May's father, John Smith, figured these booming towns and mines needed a closer shipping center and when the railroad officials agreed, Crittenden was born. When a depot, water tank, pump house, section house, cattle pens and ore platforms were being built, John Smith was building the stone hotel, and beside it, the kitchen and dining room, separate living quarters, and then a store and post office. Restaurant, saloons, livery stables, blacksmith shops followed. The "gee" and "haw" and other colorful expressions of jerkline operators rang out in Crittenden day and night as heavy ore wagons pulled by 20 or 36 horse teams trundled into town.

Crittenden and the Smith Hotel were in business. Teamsters, tired, dirty and hungry, washed and then sat down at the big table in the Smith dining room where meals were served for 50¢. Four or five salt cellars were spaced along the table, and collee was served in the big, old handleless mugs that weighed one pound empty.

"Helped keep their hands warm," Mrs. May told us, and then, as an afterthought, "helped keep the men in line, too! There was some of them that got hit in the head with a coffee mug!"

In the Smith Hotel, there were six downstairs rooms that rented for 50¢ a night. "But," explained Helene May, "mother carried in all of the water and carried out all of the slops." Upstairs bunks were 25¢ in the big, open room filled with cots--each with its own bedtable and candle. The men had to come downstairs to the general washstand and the outdoor toilet.

Crittenden's citizenry grew to around 500 people. Wagons that brought in ore pulled out with supplies. Everything from foods and liquors to machinery or timbers headed from Crittenden to the mines, on wagons or pack horses. Heavy 12" X 12" timbers were slung between mules for the trek.

Following the ore wagons back into the Patagonia or Santa Rita Mtns. back into Arizona history, we find today one of the most interesting pockets of ghost towns in the west; all quiet and peaceful now, undisturbed and at rest like benign madams, basking in the sun and remembering other years.

Southern Arizona is often thought of as a winter vacationland, but the little town of Patagonia, the gateway to the historic Patagonia and Santa Rita Mtn. area, has an elevation of 4044 feet,from which you go up to 6000 feet or more. Perfect for a balmy summer vacation or for vacationing anytime of the year with the possible exception of the heart of the winter-- and preferably, a long visit for this land is like a deep treasure chest.

Going toward the Mexican border from Patagonia, the first ghost town is Harshaw, followed within approximately the next 25 miles right down to the border by Hardshell, Mowry, Washington Camp, Duquesne, Lochiel. Or heading north from Patagonia is the old town of Salero. Through both ranges are assorted nameless adobe ruins, old lonely adobe chimneys and many, many old mines along the side roads and old trails.

Harshaw boomed to life around 1879, a mill town founded by David T. Harshaw, for the many rich silver mines in production nearby--the Hermosa, Trench and World's Fair. Shortly before Crittenden was born, Harshaw was in full swing. Besides a 20-stamp mill, Harshaw's main street ran the equivalent of about nine city blockswith hotels, liveries, blacksmith shops, restaurants--all of stone, adobe or frame. Spread throughout the town were 15 saloons and the town's 2000 plus population supported its own newspaper, the'Arizona Bullion'

During Harshaw's short and lively boom, it was subjected to a series of devastating flash floods and a major fire. Supply wagons and mail were intercepted by Apaches who razed and massacred. But this was all part of the Arizona picture at that time and as long as the mines continued to produce, Harshawtook another drink and bounced back. The 1880 mill report of the rich Hermosa mine two miles south of Harshaw gave a four month run as $364,654 in silver. During its 18 months of continuous operation, the mine shipped approximately $1,300,000 in ore and kept an average of 100 men on the payroll.

In late 1881, all of the large mines began to run out of ore. The mill shut down and practically all of the approximately 200 buildings in Harshaw were vacated. A sprinkling of habitation has remained in Harshaw through the succeeding years. The main stree today, however, still wears the stamp of the boomtown among its ruins, adobe huts and stone buildings. Its 'boothill' beside the road bears names of thoes who lived and died at Harshaw in the '80's, after contributing their bit to Arizona' colorful history.

Mowry is the oldest of these ghost towns, completely deserted and in remarkable condition considering its advanced age. This mine was reportedly discovered in 1857 by Mexican prospectors who located rich veins of silver in shafts. Nestled in a beautiful mountain valley are Mowry's adobe ruins--storehouse, stores, homes, bunkhouse-- plus the rusty mine ruins and the honey-combed hills of deep, open chasms and shafts, old and treacherous.

Sylvester Mowry, of the Mowry mine, was an early champion of Arizona, a West Point graduate, delegate-elect to Congress, and an eloquent speaker and prolific scribe. Pertinent excerpts from his works fan the imagination and add a new dimension to brousing in the Patagonia and Santa Rita Mtns. Refering to Jesuit missionaries aroun 1687, Mowry says, "The reports of the immense mineral wealth of the new country, made by Jesuits, induced a rapid settlement. There are laid down on the map before me more than fourty towns and villages." The map was drawn by the Jesuits in 1757.

The notes...contain the names and localities of more than a hundred silver and gold mines which were worked with great success by the Spaniards. The survey of the Jesuit priest about 1697 was repeated in 1710 with renewed discoveries, and consequent accessation of population," he wrote.

Telling of Spanish occupation to around 1820, Mowry says, "The missions and settlements were repeatedly destroyed by Apaches, and the priests and settlers were massacred or driven off. As often were they re-established. The indians, thoroughly aroused by the cruelties of the Spaniards, and forced to labor in the silver mines with inadequate food, finally rose, joined with tribes who had never been subdued, and gradually drove out or massacred their oppressors. A superior civilization disappeared before their devastating career, and today there is scarcely a trace of it left, except scarcely visible ruins, evidence everywhere of extensive and hastily-deserted mining operations, and the traditions of the country.

Today, virtually every canyon bears dim traces of trails or wagon roads, of camps, settlements and old mine dumps, making it an ideal area for back-packing or a day's hike. It's a pocket of history forever affected by the Apache's 300 year war against Papagos, Spaniards and then early 'gringos'-- founders and developers of the ghost towns and of Crittenden, a page of Arizona's history before and shortly after she became the Territory of Arizona--a time when the Apache greatly outnumbered the white man.

Every trace of Crittenden was carried away in flood waters except for the Smith Hotel. All that remains today of the once busy railroad into Crittenden is a toothless ridge through the grass.

The Smith Hotel, Helene May's birthplace and home, is her treasure chest of memories of the old west--and her house by the side of the road.

50 WET YEARS

by

Don Valenziano Jr

December 5, 1983 marked the 50th anniversary of the repeal of the "noble experiment". At 4:32 pm Utah became the 36th State to approve the 21st Amendment, thus repealing the 18th Amendment and the Volstead Act that enforced it.

Old-timers remember the festive atmosphere of the day. Oscar Mayer, the famous meatpacker, had set up a telegraph link between the Men's Bar of the Palmer House and the Utah State House in Salt Lake City. When the Speaker of the House slammed his gavel down, Mr. Mayer tossed back the first legal drink served in Chicago in 13 years, 10 months, and 18 days.

The Berghoff's obtained the first liquor license issued by the city after Prohibition. Collectors will be interested to know that to this day the waiters purchase the meals they serve with tokens, then collect cash later from the customers.

It should be noted that the Woman's Christian Temperance Union is still active. They are headquartered in Evanston, Illinois, a northern suburb of Chicago.

THE BREWERY

By Jinks Livingston

The brewery token from the brewery that gave Brewery Gulch it's name is a new discovery for Arizona. It was found in the old ghost town of Oatman, Arizona, the town portrayed as "Gold City" in the movie "How The West Was Won". It changed hands three times before it got to my collection.

The Brewery was a saloon in the mouth of the gulch. Nothing was brewed there although it was built by three Swiss brewmasters and an Italian winemaker. Frank and Henry Dubacher, their nephew Joseph Muheim and Baptisto Coretto.

Henry Dubacher built a small "Mountain Brewery" in the gulch in the early 1880's. It prospered and provided brew for 47 saloons until the railroad came to Bisbee around the turn of the century. Then beer came to town packed in ice from a larger brewery in El Paso, Texas.

The Brewery Saloon opened in 1905 and closed in 1914.

Joseph Muhiem was a partner of Lem Shattuck's in founding the Miner's and Merchant's Bank and owned a number of mining claims including all of Dubacher Canyon. His Swiss style home, overlooking the Gulch, has been restored by the City of Bisbee as a living museum and is open to the public. The magnificient three story Brewery building with its solid copper front greets visitors to the Gulch.

AUCTION ACTION - TORONTO INTERNATIONAL SALE SETS NEW LANDMARKS IN EARLY CANADIAN TOKEN MARKET - - -

A full room of bidders at the Toronto International Coin Fair witnessed one of the most successful Canadian auctions for two or three years as Nadin-Davis Numismatics of Ottawa offered "The Virginia Collection" of early Canadian tokens and other numismatic properties November 19th.

The Virginia collection contained a good number of scarce Breton tokens. A Br-520 Magdalen Islands Penny, almost XF sold for $100 and a Side View Penny, BR-523, in VF Condition brought $1,000. Top price in the sale was the $2,100 paid for a Br-525 Penny 1839, Side View, Banque du Peuple.

Some of you who are holding rare Canadian tokens might consider contacting Nadin-Davis Numismatics for their next auction. Contact them at: P.O. Box 95, Station A, Ottawa, Canada K1N 8V1.

TOKEN IMPRESSIONS & RUBBINGS Part I

Bill Massey

I received "impressions" of six tokens in today's mail that were made on aluminum foil. After automatic cancellation by the post office, the foil was not even useful in wrapping today's left over lunch. In the same mailbox, someone wrote with a comment on a recent rubbing I had made of a rather detailed watch fob. Well, oldtimers, don't expect any startling revelations in this brief dissertation, but there might just be some newcomers who can benifit from my many years of frustration in trying to make a decent rubbing.

One of the most detailed rubs I have ever been able to achieve is through the use of pressing blocks and a vise. Though it was initially some trouble, I still use a set-up that I made some ten years ago. All that is needed are two, one by two inch blocks, three to four inches long, and a vise. Cover the blocks with three or four layers of felt, attached by carpet tacks at the edges, and smoothed on the face of the blocks.

A portable vise, such as a drill press vise is best, though a bench vise will work. Place the token between a folded, dampened (not wet) piece of paper, and press in the vise. Allow at least an hour, depending on type of paper and dampness.

Coloring of the rubbing is easiest accomplished by chalk. Carpenter's chalk is the easiest, though the lighter color does not reproduce on most copying machines. Some coloring is desirable to bring out details for identification, and chalk will work well if reproduction is not intended. More!

TOKEN IMPRESSIONS & RUBBINGS Part II

Bill Massey

Lest I give the wrong impression, I am far from accomplished at making reproducable token rubbings. Those with whom I have corresponded will attest to that. There are those; Lew Egnew and Bill Clapper come immediately to mind, that can produce an excellent reproduction of even the most worn token, with apparent ease,

When a rubbing is made for purposes of reproduction, a few basics should be noted. Graphite pencils will simply not work well! A softer, but not too soft, Blue, Dark Green, Dark Brown, or Purple will generally reproduce well. The hardness (or softness) of the pencil cannot easily be defined by numbers or letters, and here is where the "voodoo" comes in. Practice, and experimentation are the best teachers. I have gone through as many as three dozen pencils, and rejected all, as unacceptable. And, upon finding a good "rubbing" pencil, value it as a prized token.

A "Circle" template is sucessfully used by many. The token is rubbed with the template (larger size than the token) on a non-skid surface; and with practice, with excellent results. Top-to-bottom; template, paper, token. This process does not give the detailed results of a vise pressed impression, but is preferable for a rubbing that is to be reproduced.

Token catalogs have been published with rubbings as illustrations, and with outstanding detail! The current alternatives are photographs, or Ed Saunders rubber stamps!

OUR U.S. BANKS

By Ed Saunders

Few businesses are as complex as our banking systems and I often get upset with them, but without them there would be havoc in the business community.

While I do not consider myself an avid bank token collector I do pick them up along with other types of tokens that I collect. I have a good number of unusual bank tokens...

I thought you might be interested in seeing some of these unusual bank tokens. For those who are hunting for something unusual to collect, this might spark and interest.

NOW THEN, LET'S TALK ABOUT NOWTHEN

By Cal Woods

I first discovered Nowthen, Minnesota on a General Merchandise token perhaps ten years ago. It did not take long to find out that Nowthen was a crossroad spot on the backroads between Anoka and Elk River, Minnesota. The token read:

NOWTHEN GENERAL/STORE/NOWTHEN/MINNESOTA
GOOD FOR/1¢/IN TRADE - 18mm Rd. Brass

Correspondence with a Wisconsin collector revealed that the style of the reverse letters was from the 1920's. My directory showed that in 1922 O.J. Paulson had started a General Store about that time. I have attributed the token to Paulson.

Minnesota is bulging with little places like Nowthen that once were perhaps post offices and a trading center for the farmers of the area. The auto has since shortened the distances that most of these places have disappeared.

What piqued my curisity was the origin of the name of this strange sounding town. It all goes back nearly 100 years.

Burns township in Anoka County was established about 1854. It was mostly a farming area. When James U. Hare, a local character, returned from the Civil War, he settled down again in Burns township. Not wanting to be a farmer he induced Washington to establish Burns Post Office, and to appoint him as the first postmaster. This was in 1878. There were no stores so Jim established his post office in the home of Eric Aparri. When Jacob Oehmens started a general store in Burns township, Jim Hare moved the post office into the store. In 1887, Washington thought that Burns post office was no longer needed and discontinued it. Jim then busied himself by operating a creamery, dabbled in real estate and had himself appointed as local Justice.

About 1895 Jim Hare made another try for a post office in Burns township. He wrote Washington, and they agreed that a post office was now needed, and asked Hare to suggest names for the post office that they might select from, and the name Burns had since been given to another Minnesota Post Office. Hare returned with a short list such as, Hare's Corner, etc.

Hare had a strange habit of starting all of his letters with the phrase, "Now Then". Washington was so taken by this phrase that they decided to call the new post office simply NOWTHEN Post Office. Jim moved his new post office into Jacob Oehmen's Store in 1897.

Rural Free Delivery was instituted in the U.S. shortly thereafter, and Washington closed the Nowthen Post Office in 1902. The Community retained the name of Nowthen as it remains today. The General Store is long gone as is the creamery and only a farm implement dealer remains today.

Now then, what were we talking about?

Dear Bill:

Just got back from Denver where I had a wonderful time but found, to my disappointment, I had finished second in the "Ugliest Truck Driver" contest. Bill, the contest was totally political because I should have won hands down.

At the Denver show, I picked up 17 new tokens for my collection. I know lots of money and tokens changed hands. Hargett had so many tokens in his pockets he couldn't find his heart pills. I met guys there that I had corresponded with for fifteen years. Some of them looked about like what I expected yet some were much uglier. I thought I could get something started but everyone was so nice. Hamilton was sporting his"Kenny Rogers" beard, Worthington was laughing, Tureen kept loosing tokens and Weinberg was forever digging into that little white envelope. Merlin Bondhus was trying to get Travis Roberts to mail bid the pins in his broken foot. Zarling sold every book he had and was taking orders. I enjoyed talking with McFerran, Wagaman, Hosek and Cranson, you can really get an education in tokens there.

Clay Welty did a super job with the meet. I know next year will be even bigger. I know I will take a trunk full of tokens because they really move at a meeting like that.

See you later.

Binky

WANTED

I am a serious collector in the following categories and I am willing and able to pay TOP MARKET PRICE for these tokens. My primary interest is in building a fine collection and I've been buying alot of nice tokens ... so I must be doing something right. Please write or call me if you have something that you think might interest me. I also have a substantial trading stock ... but of course I prefer to purchase outright.

ALASKA TOKENS - cataloging $50 and up in Benice. Will pay $3,500 for the 1st McCarthy Alaska gold nugget token offered to me (cats $500). Paying $3,000 for the 1st Willis & Welch Chatanika Alaska shellcard offered me (cats $750).

NEVADA TOKENS - nice old brass, aluminum or nickel good-fors. No modern gaming tokens. There are some towns worth several hundred dollars to me and quite a few worth $50 to $100+ to me. Many are "dug" so don't worry about condition. I want 'em.

PEDRO AGUILAR
TULAROSA
NEW MEXICO

NEW MEXICO TOKENS - nice old good-fors. Any and all except the most common. There are many N.M. tokens worth $100++ to me.

JNO. GROSS
D.T.

TERRITORIAL TOKENS - good fors from Wyoming Terr (W.T.), Dakota Terr (D.T.), Arizona Terr(A.T.), Montana Terr (M.T.), Washington Terr (W.T.), and some Okla and Indian Terr (O.T. or I.T.) tokens. I was THE major buyer at the Henry Clifford coll'n auction, outbidding the most prominent buyers on the market.
